# INTRODUCTION TO THE 06/07 ANNUAL REPORT

This annual report covers the period from July 1, 2006 to June 30, 2007.

During the fiscal year 2006-2007 the Cal Poly Grants Development Office assisted 231 Cal Poly faculty and staff in the submission of 301 proposals. This submission rate represents a 17% increase in number of proposals and a 51% increase in funding requested. The amount of external funds awarded to the University during this period experienced a similar positive trend, increasing to \$22,026,202. This represents a 12% increase from the previous fiscal year. The figure below shows the trend in funding received by Cal Poly over the past five years.

The intent of this report is to provide you with a useful overview of Cal Poly's performance in securing external funding for sponsored projects, which include research, curriculum development, equipment acquisition, professional development, education, and training. Detailed reports for the past several years can also be found at:

## SUPPORT SERVICES

### The Grants Development Office (GDO)

The Grants Development Office is open between 7:30 am and 5:00 pm Monday through Friday including during quarter breaks and summer recess to assist you with the proposal preparation process. The pre-award staff can be reached at [grants@calpoly.edu](mailto:grants@calpoly.edu). Our web site located at <http://www.grants.calpoly.edu> contains information that will be helpful to you when preparing your proposals. The web site provides access to guidelines, policies and procedures, forms, rates, funding sources, and other important links.

### Sponsored Programs Information Network (SPIN)

Cal Poly subscribes to the Sponsored Programs Information Network (SPIN), a web-based funding opportunities service. This subscription provides a searchable database of public and private sources of funding for teaching, research, and training. SPINPlus is composed of three distinct elements: SPIN, a funding opportunities database; GENIUS, a CV/Bio-Sketch database; and SMARTS, an automated alerts system. SPIN provides up-to-date information on current national and international government and private funding sources, including fellowships, research grants, publication support, sabbatical support, curriculum development, and more. All of the data on SPIN are obtained directly from sponsoring agencies to ensure the integrity of the information. SPIN and other funding resources can be accessed from the Grants Development website at [http://www.grants.calpoly.edu/2\\_FundOpp.html](http://www.grants.calpoly.edu/2_FundOpp.html)

### Workshops and Training

The Grants Development Office offers workshops and training sessions on aspects of the grant application process, including the area of electronic submission. New faculty/staff orientations with an overview of services provided by the Grants Development and Sponsored Programs Office are offered several times throughout the year. Individual sessions as well as group sessions for departments may also be arranged on request. Contact GDO at **(805) 756-2982** to schedule a session.

### The Sponsored Programs Office (SPO)

The Sponsored Programs Office in the Cal Poly Corporation provides post-award services once your project has been funded. This includes post-award management support for sponsored projects and administration of Center and Institute accounts. External funding is often contingent upon adherence to legislative guidelines stipulated by sponsors as well as University and departmental regulations that require concentrated monitoring. The Sponsored Programs Office, in conjunction with the Grants Development Office, can help faculty navigate through these regulations. The SPO will also provide training to faculty in self-management reports required to track budgets for awarded projects. The Sponsored Program Office can be accessed at <http://www.cpfoundation.org/sponsoredprograms> or telephone **(805) 756-1123**.
