Descriptive Summary

Title:

Sara Holmes Boutelle Papers 1972–1999 (bulk 1983–1995)

Collection Number:

MS 141

Creator:

Boutelle, Sara Holmes, 1909–1999

Abstract:

This collection contains the papers of architectural historian Sara Holmes Boutelle, including extensive correspondence, research notes, photographs, interview notes, book drafts, articles, book reviews, presentation notes, and newspaper clippings, primarily relating to California architect Julia Morgan, women in American architecture, and historic preservation in the Bay Area, donated by her heirs in 2000. Original Julia Morgan materials found in Boutelle's papers have been processed separately as the Julia Morgan-Sara Holmes Boutelle Collection (MS 27).

Extent:

79 boxes, 1 flat file drawer

Languages:

English, French

Repository:

Special Collections, Robert E. Kennedy Library
California Polytechnic State University
San Luis Obispo, California 93407

Administrative Information:**Provenance:**

Donated by Sara Holmes Boutelle's heirs in 2000, the papers of Sara Holmes Boutelle are housed in and administered by Special Collections at Cal Poly.

Access:

Collection is open to qualified researchers by appointment only. For more information on access policies and to obtain a copy of the Researcher Registration form, please visit the Special Collections Access page. Advance notice for use strongly encouraged.

Restrictions on Use and Reproduction:

In order to reproduce, publish, broadcast, exhibit, and/or quote from this material, researchers must submit a written request and obtain formal permission from Special Collections, Cal Poly, as the owner of the physical collection. Researchers should also consult with an appropriate staff member regarding literary or other intellectual property rights pertaining to this collection.

Photocopying of material is permitted at staff discretion and provided on a fee basis. Photocopies are not to be used for any purpose other than for private study, scholarship, or research. Special Collections staff reserves the right to limit photocopying and deny access or reproduction.

Biographical Note

Sara Holmes Boutelle was born in Aberdeen, South Dakota, on January 29, 1909. A graduate of Mount Holyoke, Boutelle taught art and architectural history for many years at the Brearley School in Manhattan. Her interest in Julia Morgan's architectural career began in 1972, when Boutelle first toured Hearst Castle and was dismayed to find interpretation at the state historical monument that referred to Julia Morgan as W.R. Hearst's private secretary. Boutelle then dedicated the remainder of her life to researching and collecting material by and about the architect.

In 1988, Abbeville Press published her biography, *Julia Morgan, Architect*. The book was awarded the California Book Award Silver Medal the following year. Boutelle also wrote articles on Julia Morgan and Mary Colter for scholarly publications, presented at three Society of Architectural Historians meetings, and wrote book reviews for the *AIA Journal*. She also lectured on the history of women in American architecture at UC Santa Cruz and worked on historic preservation issues in Santa Cruz. For her work as lecturer and preservationist, Boutelle was named an honorary member of the American Institute of Architects, the highest award given to a non-architect. She died in Santa Cruz, California, on May 26, 1999.

Scope and Content Note

This collection contains the papers of architectural historian Sara Holmes Boutelle (1909–1999), Julia Morgan’s biographer, who researched and collected material on Julia Morgan for twenty-seven years. Boutelle’s lecturing and writing on Morgan not only preserved important documentary evidence of Morgan’s practice, but also lifted the architect from obscurity, inspiring others to study Morgan and her work. Documentary evidence of previously unknown Morgan commissions is included in this collection, along with materials documenting Morgan buildings lost to fire or demolition.

Original Julia Morgan materials found in Boutelle’s papers have been processed separately as the Julia Morgan-Sara Holmes Boutelle Collection (MS 27).

In many ways, the collection is the physical manifestation of Boutelle’s efforts to establish the credentials necessary to secure a book contract and publish her biography of California architect Julia Morgan, a struggle that is recounted in her article for the Brearley alumni publication entitled, “Julia Morgan: Architecture of a Biography” (Box 1 Folder 4).

The collection contains 34.5 linear feet of Boutelle’s extensive correspondence, photographs, interview notes, book drafts, subject files, and visual media, research and interview notes on Morgan, her clients, colleagues, staff members and commissions, gathered by Boutelle in the course of preparing *Julia Morgan, Architect* (Abbeville Press, 1988, revised 1995). Additional materials in the collection include articles, book reviews, presentation notes, secondary sources, and newspaper clippings, primarily relating to Morgan, women in American architecture, and historic preservation in the Bay Area.

The Boutelle Papers are housed in 78 containers, with Series 3. Julia Morgan Building Research Files and Series 4. Julia Morgan Research Files containing the most extensive and informative portions of the collection.

When documents with multiple purposes were encountered (e.g., correspondence on Morgan commissions together with invitations to make presentations), the highest priority was given to placing materials together that document Morgan’s project list.

This collection is also particularly rich in visual media, including hundreds of black-and-white and color prints and more than 2,000 35mm transparencies of Morgan commissions as they appeared in the 1970s and 1980s. The visual media and Boutelle’s accompanying notes will greatly inform the on-going process of identifying Morgan’s work.

Little original organization of the papers was evident. Therefore, to facilitate access to the collection for researchers, materials were largely reorganized and refolded to more accurately reflect their contents.

Client names and construction dates may differ from Boutelle’s published lists and have been updated in this guide for greater accuracy.

The collection is divided into five series:

1. Personal Papers, including biographical statements by Sara Holmes Boutelle, photographs of Sara Holmes Boutelle, and newspaper clippings about Sara Holmes Boutelle;
2. Professional Papers, including Boutelle's correspondence with other writers and historians; awards and grants; extensive documentation of her professional memberships and her activities related to historical preservation in the Bay Area; articles for scholarly and popular publications; architectural book reviews by Boutelle; teaching and research files on women in American architecture for extension courses and public presentations; appearances by Boutelle in news media to publicize her book and in documentaries on Julia Morgan; and newspaper clippings on women in American architecture, historic preservation and American architecture in general;
3. Julia Morgan Project Research Files, including Boutelle's extensive written and visual documentation of Morgan-designed projects; lists of Morgan's work arranged by client, city, job number, town and region; and research on disputed Julia Morgan projects;
4. Julia Morgan Research Files, including Boutelle's primary and secondary research into Morgan's family, friends, education, practice, staff members, and colleagues; Boutelle's advocacy of recognition for Morgan through her commercial slide show, nomination of Morgan for various posthumous honors, and work on exhibitions and walking tours.
5. *Julia Morgan, Architect* Book Files, including Boutelle's many attempts to find a publisher, book proposals, contracts with Peregrine Smith and Abbeville, research notes, book and chapter drafts, photographs, marketing efforts, book reviews, and correspondence with readers.

All cities listed on folder headings are located in California, unless noted otherwise. Copied materials found in collection belonging to other research institutions have been returned.

Series Description/Folder List

Series 1. Personal Papers, 1976–1999

Contains three subseries: A. Biographical Statements by Sara Holmes Boutelle, B. Photographs of Sara Holmes Boutelle, and C. Published Articles about Sara Holmes Boutelle.

A. Biographical Statements by Sara Holmes Boutelle, 1980s
Contains biographical statements written by Boutelle. 1 folder.

Box 1 Folder 1
Sara Holmes Boutelle – Biographical Statements, 1980s

B. Photographs of Sara Holmes Boutelle, 1980s
Contains photographs and negatives of Boutelle. 1 folder.

Box 1 Folder 2
Sara Holmes Boutelle – Photographs

C. Published Articles about Sara Holmes Boutelle, 1976–1999
Contains published articles about Boutelle arranged by author. 8 folders.

Box 1 Folder 3
Boutelle, Sara Holmes. "Julia Morgan: Architecture of a Biography," n.d.

Series 3. Julia Morgan Project Research Files, 1970s–1990s

Contains four subseries: A. Julia Morgan Project Files, B. Julia Morgan Project Photographs, C. Julia Morgan Project Measured Drawings, D. Julia Morgan Job List Research Files, and E. Disputed/Disproven Julia Morgan Projects.

A. Julia Morgan Project Files, 1970s–1990s

Contains Boutelle's research files from the 1970s and 1980s on buildings designed by Julia Morgan. Files are arranged alphabetically by client name. Multiple commissions for the same client are arranged by city, then by date. Hearst commissions are arranged by client name, followed by building/estate name and city. YWCA project files are arranged by city, followed by building name/type. Dates on files represent construction dates, not research contents. Cities listed on folder headings are located in California, unless noted otherwise. Materials in this subseries include Boutelle's handwritten notes and rough sketches, correspondence with current owners and relatives of original clients, newspaper clippings and articles, Historic Resources Survey reports, and snapshots. 6.5 linear feet.

Researchers are strongly cautioned that presence of a file in this subseries may not constitute definitive proof of a Morgan design.
