## DOOR & FRAME SCHEDULE

### NOTES
- T means typical
- Door and frame numbers on schedule are room number integers. The door schedule is followed by door marks (e.g., 201) for the Milling Factory. Doors are typically designated as follows:
  - Foil: 1-2, 1-2a, 1-2b, 2-1, 2-2.
  - Offset: 1-2, 1-2a, 1-2b, 2-1, 2-2.
- The door schedule is attached to the door frame.
- Door designations are assigned to be consistent with designations.
- Door openings are marked with an arrow indicating the direction of the door.
- Door openings are specified by room number.

### DOORS
- Door frames are specified by room number.
- Door frames are specified by door mark.
- Door frames are specified by type.
- Door frames are specified by material.
- Door frames are specified by finish.
- Door frames are specified by hardware.

### FRAME TYPES
- Frame types are specified by style.
- Frame types are specified by material.
- Frame types are specified by finish.
- Frame types are specified by hardware.

### PHYSIOLOGY LAB DOORS
- Door frames are specified by room number.
- Door frames are specified by door mark.
- Door frames are specified by type.
- Door frames are specified by material.
- Door frames are specified by finish.
- Door frames are specified by hardware.

### PREPARATION BARN DOORS
- Door frames are specified by room number.
- Door frames are specified by door mark.
- Door frames are specified by type.
- Door frames are specified by material.
- Door frames are specified by finish.
- Door frames are specified by hardware.

### HOSPITAL DOORS
- Door frames are specified by room number.
- Door frames are specified by door mark.
- Door frames are specified by type.
- Door frames are specified by material.
- Door frames are specified by finish.
- Door frames are specified by hardware.

### UNDERCUT CRITERIA
- Undercut criteria are specified by style.
- Undercut criteria are specified by material.
- Undercut criteria are specified by finish.
- Undercut criteria are specified by hardware.
