BUXY RANCH PROVES INTERESTING TO AGS

Aeroplaneed by St. Andrews, and Mr. Saunders, the Ag Associa­tion visited the Buxy Ranch in San­ta Maria on May 16. The trip proved to be a success, had to have at least one mishap—that mishap was that the person who got the map did not know where the Buxy Ranch was, for the directions were a mile and a quarter out of our way.

After we had finally arrived, Mr. Adams, the superintendent, explained the breeding standard that he has adopted for the ranch, the main point of the standard is the cross between the Hereford and Aberdeen Blackface.

Since only a few of the cattle were in the corral the club drove up the canyon to see the grading barn and the annex that was for market.

On the way back we stopped at a big grain field and held a discussion on the heat type of soil and the variety of plants for different purposes.

Next came the best of all the ranches, Mr. Asmus, the superintendent, explained the barbecued mutton, the variety of plants for different purposes.

After dinner we inspected and marveled and demonstrated upon five-thousand-old oaks.

Mr. Adams then explained the modern improved method of branding and ear-marking and demonstrated upon five-thousand-old oaks.

The Buxy Ranch contains 45,000 acres, the small ranch contains 11,000 acres.

The number of head of cattle on the ranch is over 3500.

There are 1400 calves each year. One of the six-month-old Here­ford weighs 540 pounds.

Mr. Abbott is left Wednesday for San Francisco to visit friends. He expects to go off from the city to Santa Maria to spend the remainder of his two weeks of vacation.

A CLOSING WORD

This is the time of the 'year' when it is quite appropriate 'to take stock.

"Taking stock" is for a very definite purpose. That purpose, in the eyes of every Polytechnic student, may be expressed in this way:

"Putting myself to do efficiently the work I like best and at the same time develop those character qualities that will make me a good citizen, loyal and co-operative, an asset in any community.'

"Are you closing the school year with the feeling that you are one stop nearer the realization of that purpose? With that purpose, constantly stimulating you, you will always do your best work and where ever entering into the kind of work characteristic of the following:

MAN WANTED!

WANTED--A man for hard work and rapid promotion, a man who can do things to be done without the help of a manager and three assistants.

A man who get to work on time. The morning and does not imperil the lives of others in an attempt to be first out of the office at night.

A man who is neat in appearance and does not fail for an hour's overtime in emergencies.

A man who listens carefully when he is spoken to and asks only enough questions to locate the occupation carrying out of instructions.

A man who moves quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells the truth every time.

A man who does not pity himself for having to work.

A man who is cheerful, courteous to every one and determined to 'make good.'

A man who, when he does not know, asks 'I don't know,' and when he is asked to do anything says 'I'll try.'

THE POLYGRAM

A weekly publication issued by the students of the California Polytechnic School, San Luis Obispo, California. Subscription, one dollar a year. Single copies, ten cents.

Printed by San Luis Obispo Tribune.

THE POLYGRAM STAFF AND SCHOOL SPIRIT

Before a football game, and during it, the yell leader will wear his girdle frantically for fifteen to twenty on the stands. Not only in football does he get those yells, but in baseball, football and track. And, of course, the yell leader has to work. For the past nine months a group of students have been carrying on work in Polytetnics and have had very few regular days off. They work very much on their individual and group activities.

Through the efforts of the editor and a single issue of the paper has been missed the entire year. In fact part of the time his success was recognized, for extra issues were printed, and extra numbers printed, and extra numbers printed, and extra numbers printed, and extra numbers printed, and extra numbers printed.

It has been proved.

A man who listens carefully when he is spoken to and asks only enough questions to locate the occupation carrying out of instructions.

A man who moves quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells the truth every time.

A man who does not pity himself for having to work.

A man who is cheerful, courteous to every one and determined to 'make good.'

A man who, when he does not know, asks 'I don't know,' and when he is asked to do anything says 'I'll try.'

THE SLUGGING NINE WINS NINE STRAIGHT

The following letter is self-explanatory, but many of us probably have not known that there was an occasion for the communication. The boys referred to are Kveale Hodges, Gill, Joe and Beih. Mr. Nicholas Ricciardi, San Luis Obispo, California.

Dear Sir:

I have had occasion to employ five students that are taking the agriculture course in the California Polytechnic School. A week ago the school asked for aid.

Good farm help is not plentiful and as we were going to fill a call with the first cutting of alfalfa I called the school and asked for aid.

I have been able to assist the school in filling its need by employing the five students that are taking the agriculture course, in the California Polytechnic School.

Hodges, Quile, John and Belch. The members of the Dorm Club are quite at a loss to know what to do with the surplus money that they have in the treasury, since the financing of the barbecues didn't require the whole amount.

It has been suggested by some one to leave or hoard a certain amount of the capital to the bank, altho the manager of the business didn't require the whole amount.

The remaining portion should be utilized in purchasing as much of the Hamburger Joe's ability to manage the business. The guests were brought out to the dining hall. The guests were brought out to the dining hall, where they were entertained with music and food. The Polytechnic faculty entertained the San Luis city teachers last Saturday evening on the campus. The guests were brought out to the dining hall.

After dinner in the dining hall, Mr. Mabley and Mr. Ricciardi spoke briefly, a stringed trio made up of Mr. Berry, Mr. Defosset, and Mr. Knott played, then Mr. Knott demonstrated with the aid of Mr. Cohn, Mr. Holly and Mr. Dyer, the radio receiving outfit.

Dr. H. A. Gowman

Dr. Runyan, who has been conducting revival meetings down town, spoke to the student body assembly May 16. His subject was "Second, in Hesgard to First." His remarks were thorough to the point and contained much good advice as well as wisecracks illustrating his ideas.

Before Dr. Runyan's address Mr. Williams, soloist for the special service, sang two splendid solo selections which were heartily applaused by the students.

ATTENTION, DORM MEN

Now that school is on the verge of closing have you ever thought ahead for a month or two and really figure out just how hard it is going to be when you want to cry and Neil Well won't be near to cry with you when you are in a fight, the mood and Pfeiffer won't be around for you to beat up on, when your face is sore and Cooney won't be there to furnish articles to fix it up; when you want some scandal and Trap won't be on hand to furnish it; and least not least when you want to spin a yarn, really won't be around to take it, book, line, and sinker. Not until then will you appreciate 1921-22 at the Dorm.
