HONOR ROLL FOR PAST SIX WEEKS Contains 38 Names

Day Mia* Chase announced the honor roll for the past six weeks with great

HONOR ROLL FOR INCLUDE;

George Kliot Lloyd Waterman
Einar Anholm Charles Hiatt
Lynn Kedwell Helen Tomaaini
Francisco Aranda M. Myhuis
Fred Louis Alfred Young
William Corbin Fay Rugget
Douglas Annin Hubert Hatchett

decided that they would not, because of the number of plays being already calendared by other organizations of the school.

It was decided that all members of the Senior class who are not at the meetings, to be held every Wednesday after school, will be fined 25 cents, unless he or she has a legitimate excuse.

Some other minor subjects were discussed and the meeting was adjourned.

FACULTY MEMBER LOSES MOTHER

Students and faculty of Polytechnic were grieved to hear on Monday that Miss Jordan's mother had died early that morning. Mrs. Jordan had been ill with pneumonia for more than a week. On Friday her condition was so bad that several of the students might attend the services. We all want to extend to Miss Jordan our deepest sympathy at this time.

Visiting in San Jose

Mrs. Deuel has been spending the holidays in San Jose with relatives and is expected home soon.

Polytechnic Polygram— they are patronizing your enterprise

DORMITORY DANCE PROVES INSPIRING

It is often said that anticipation is greater than realization, but there are exceptions to every rule. The dormitory dance was one of these. After the postponement for a couple of weeks it came into all its glory.

It occurred in the Dining Hall on the evening of December 8. Amid the exquisitedecorations the swaying dancers moved, their little bodies seeming to float to the rhythm of the strains rendered by Bill Cornish’s one-piece band, or otherwise known as Junior's Noisy Twin-Box. This melodious noise was hidden in a dense forest consisting of a few original greenhouses.

The nectar of the gods was served from a fountain of renewed youth, and one fairly bubbled over with it. The proceeds from this counter chase netted part of the carpet for the living room, and the Dorm boys are each dear little playmates for us girls.

ASSEMBLY DEC. 8

At the regular assembly held on Saturday morning we had a worthy program for our assembly. After the usual announcements the honor roll was announced. Following this Miss Bell led the school in two songs, "The Missouri Waltz" and "Long Ago and Long Since." Then came the feature of the program, a former Polyite, Mr. Frank Murphy, who, after an attack of acute appendicitis, is now the Farm Advisor of San Luis Obispo County. A brief account of his talk is given elsewhere in this issue.

Next came a talk from Mr. A. R. Harris, who also has much to do with the school. He spoke on the relationship existing between the vocations following his talk Miss Bell led us in a school song and we disbanded.

FORMER POLY MAN SPEAKS AT ASSEMBLY

In an interesting talk in the Assembly on Friday, Mr. Frank Murphy, then Farm Advisor, stated how he hoped to cooperate with the Polytechnic School and farmers and dairymen in the country. The Polytechnic School is proud of the fact that Mr. Murphy is a former Polyite and has come back here to take such an active part in the development of the Los. Angeles County in its agricultural resources.

Mr. Murphy also outlined the growing need for agriculturally trained men and outlined the employability offered in the various branches of agriculture.

GIVES POLYTECHNIC ABUNDANT PRAISE

That the work of the polytechnic School and the training given to young people is not known or given the credit it deserves was the statement made by Mr. John which he spoke of the Boys' Work Committee of the Los Angeles Rotary Club here to visit the institution.

That the school will shortly change its name was the further statement made by Mr. Blower, who directed the entire efforts of the Presi­ dent. The club in building up the school and bringing it to the attention of the state.

Mr. Blower himself will have a part in bringing the school to the attention of the public in his work of keeping boys of the 'teen age in school and in finding them suitable work when their school days are over.

The work of the Rotary Club committee is to lend aid to boys looking for an education by lending them money which is later paid back when the boys become self-supporting. It is a "back to school" movement, according to Mr. Blower, brought about when men who in their business lives have come to realize the full value of an education, and others who appreciate the advantages through their own lack of opportunity. But it is not merely the work of the committee to see the boy educated. They also take him in charge for the first week of school when his school days are over.

"Too many boys have finished their schooling to show dirt. It is not an easy matter to get them to do what it is. This is bad for two reasons. It discourages the boy him­ self and it is an unsightly sight for the boy in the lower grades at school and those who think of his future. So the idea of educating a boy and finding him work has been taken up by the Los Angeles Rotary Club, to be made as a part of the work of other clubs.

In the work offered here will offer itself admirably into his plan was stated by Mr. Murphy and will help many a boy find his profession in life without a long preliminary training through the trades.

Coming here simply as a matter of investigating the schools of the state, Mr. Blower has remained to marvel at the work he found and the magni­ tude of the California Polytechnic. His ardor is undimmed in spite of the fact that he arrived only a long, cold ride in the rain to make his survey of our school.

Thanksgiving Assembly

The last period before our regular Thanksgiving vacation began was de­ voted to an assembly on Monday afternoon. At this assembly the selections from the boys' and girls' glee clubs rendered a song.

Following this Mrs. Kelling, the city librarian, spoke on Thanksgiving and its relationship to our agriculture.

This after the assembly disbanded for a pleasant Thanksgiving vacation.

MEMBERS OF 1923

JOURNAL STAFF

NOW WORKING

The staff for the 1923 Journal has been almost completed. The seniors will be added later, but with these the staff has begun work and plans for work.

The editor will be Allen Davis, who has become somewhat familiar through his work last year with the publication. The art staff will be the same as that of the Polygram;Forest Cynor, business manager and Richard Wilson and Myril Sellers as assistants.

William Joke will take charge of the art work and will appoint an art editor who she thinks will be capable of doing the work.

The staff expects to have more money this year to put into the cover and the general make-up of the book. The print shop will help them greatly on the financial end, as well as in ad­ vise and other ways. It has not yet been decided when the book is to be made, but it is hoped to get in the photographs ear­ lier than last year, and to keep the news of the school year up-to-date as events come along, so that the Journal will be a real summarization of the school year.

MR. FIGGE ELECTED KELVIN PRESIDENT

Mr. Figge was elected president of Kelvin Club at their combined social hour and Christmas party last Saturday evening. Miss Woods was elected vice president, and Mr. Stasher, after much electioneering, secretary.

Between thirty-five and forty of the faculty and their friends and wives drove out for dinner at six thirty. After the business meeting, dinner, dancing and a program filled the time. Dr. Eastern, the new chairman of the com­ mittee in charge.

The program consisted of jokes on various members of the faculty and school activities, that were read during the dinner and accompanied by instrumental and vocal music by Miss Bell, a talk by Mr. Krieveldt and Christmas legends told by Miss Pendy.

Palmer Powell Recovered

Palmer Powell, one of our Seniors, has recovered sufficiently to return to his home. He has had an attack of acute appendicitis and had to undergo an operation. He is very much better and expects to be in school for the remainder of the semester, but will be with us again in January.

Volume VIII

SAN LUIS OBISPO, DECEMBER 14, 1922

No. 7
A Bi-monthly Publication Used by the Students of the California Polytechnic School, San Luis Obispo, California. Publication Office: One Dollar a Year. Single copies, ten cents. Prepaid to the California Polytechnic School Print Shop.

WARNING—GO SLOW! The speed limit on Poly campus is to be twenty miles an hour, as can be seen on the new signs planted along Palm Drive on our new highway.

Motorists, observe not only the signs, but the speedometer at the same time. If you cannot hold it down to twenty, remember the by-gone years when the road was in such a condition that it was impossible to make over twenty and still stick on the road.

It is much better to go twenty and stick around a little longer than to go faster and perhaps find yourself not ready to. Remember, twenty on the straight-away and five on the curves.

MISS HILTON ON VACATION

Miss Hilton, the Federal Board nurse, is now on her vacation and will probably not be back until the eighth of January. She will, however, probably be here part of the time in order to keep up with her work.

Miss Hilton's territory has recently been enlarged and now includes San Luis Obispo and Monterey counties.

A WHOLE TRIBE MOVED

We hear to hear that the once famous Higueran Inn has been broken up for the reason that Mr. Hunt has leased the house for the winter. The five members of this organization have all found new homes. Frank Sennett and Douglas Annin are residing now with Mr. Williams in his palace across the street and we understand that Miss Hilton, Arvy Clements, and Edide Fickle are all back at their former resting place, the Dormitory.

AG BOYS ATTEND DAIRY EXHIBITS AT FRESCO FAIR

Two of the instructors in the agriculture department, Dr. Eastman and Mr. Hertsgaard, invited us to take a trip to Fresno to see the great dairy show held there two weeks ago.

We left school on Thursday at five o'clock sharp in the morning and met Dr. Eastman at his home. We left San Luis at six-thirty in two machines. Nine boys and the two instructors made up the party. The six-thirty machine left us Paso Robles, after having stopped for breakfast.

The rest of the trip was very enjoyable by us, since all the way to Fresno we saw well-cultivated fields, great numbers of cattle, and farms where different crops are raised.

We arrived in Fresno at two-thirty, went to our rooms, then had dinner. We went to the Civic Auditorium, located in the north of the city, where the exhibits were. The inside was really beautifully decorated. To the ceilings of the auditorium were hanging big lamps similar to bottles of milk, white, yellow, and blue shades.

In the front of the room was the stage, quite large, which different vaudeville acts were given to amuse the people.

The first floor had for exhibitions many dairy machines, the butter-making machine, various kinds of modern cream separators, ice-cream freezers, and so forth. Two cows were milked by machinery in one of the shows.

Moving pictures were also shown free to participants in the fair; they were all instructive films.

On the second floor were shown the products of the various counties in California, with by-products. Some of these were shown in the left side of the auditorium.

As a means of advertisement, samples of new drinks on the market, of ice cream, and other by-products, were given to the people.

Concerts were given at certain times of the day in the center of the building. The sessions and conferences in charge of the associations were held on the second floor.

We stayed in Fresno all Thursday and Friday and on Saturday morning we left at eleven for San Luis. Mr. Hertsgaard, with some of the boys, had gone before to San Jose.

We certainly enjoyed the trip and learned interesting things in the dairy line. We are also much obliged to Dr. Eastman and to Mr. Hertsgaard for their kindness to us during this trip.

J. E. Urquhart.

Moving

Mrs. Stedman has changed her place of abode from 1521 Osceola street to 1234 Morrow street. She says that she will have new surroundings but we are very sorry to see her, but it is next to the Ford Garage, and that is something in its favor.

DORM DOINGS

The Thanksgiving vacation proved a great success. Most of the members journeyed home. Some even went as far as San Diego. We kind of think that the reason was being close to the home banks.

Wilber Young has left our midst. He is now attending the San Ana Poly High.

Our supreme loader, Coach Ginger, says he had a wonderful time Thanksgiv­ ing, so we will let him stay over Christmas vacation. We are hoping that he sends out no announcements before that.

N. Brubaker left Thanksgiving to return after Christmas vacation.

Ted Dobson journeyed to Gilroy for his vacation.

Since basket ball came into season we have been having several fast and furious games after school.

Most of the fellows attended the picture, "Teas of the Storm Country," during its three-day stay in town.

Palmer Powell has left us for his home in Hayward. He is coming back after vacation.

Polly invited to Boy Scout Meets

Mr. Carlisle, district executive of the Boy Scouts, has sent out an urgent invitation to the boys of Poly-tec to attend the session of the Scoutmasters' Institute to be held in the Methodist Church in San Luis Obispo Saturday afternoon and evening of this week.

The sessions are listed below. Any boy who can attend will find them interesting and worth attending:

1:00 o'clock—Institutional Educational.
3:00 o'clock—Alumni.
4:00 o'clock—Organization.
4:30 o'clock—Scouting Talks.
5:30 o'clock—Entertainment and address.

Polygram is your paper— trade with the people that advertise in it.

"And she wore nothing whatever——"

"Hello, hello! Eat Central?"

"In her hair, and, honestly, my dear, it was so flimsy——"

"Say——" no, you could not say——"

"Hey——"

"She partition to the next office, and he was in there all alone with——"

"Listen! How about——"

"—pencils. Number, please?"

"Certainly! Give me let's see——"

"—oh, well, the number isn't necessary now——"

She—why in the world do they call him Bill?

He—I guess it's because he came on the first of the month.

When Eddie McNish was in France he noticed a sign, "Painless Dentist."

A little boy who was with him asked what a painless dentist was.

"A painless dentist, young fellow, is a liar," answered Eddie.

Evidently he has "bitten" more than once.

Pat Hodges—I want a sandwich.

Waiter—What kind?

Pat—Something striking.

Waiter—How about a club

What was Brownell doing in the baldhead row at "Oh! Look!" Hint!

You doin' over there?

I bet he was looking.

TEN YEARS HENCE

Troup (sharply) — What are you doing over there?

M. Righetti—Beating my wife.

Troup (excitedly) — May I come over and see how it's done?

Mother Righetti—The train service in San Luis Obispo must be terrible!

Father Righetti—How can we expect better?

Mother Righetti—Why, Clarence writes home to you things that you never

before.

As a matter of fact that was the same thing.

BASKET BALL PRACTICE STARTS

Last Thursday night saw the opening of the basketball season for Poly at the W. O. W. Hall in town. About twenty-five men were out, which shows the enthusiasm for the coming game. It was impossible to get the Civic Club as hoped for practice but it has been assured for any games we play at home.

The first game of the season will probably be played with Paso Robles Junior College team, but these games will be only practice games. Many other high school games will be scheduled as soon as possible for practice in preparation for our first conference game, which will be played with Santa Barbara in San Luis on January 23. Each team in the conference goes on a tour, in which three games are played, one each night, with each one of the other three members of the conference. Such a schedule makes it hard on a team as the men play each night and travel all day, but as all the teams will do the same, we have a fifty-fifty chance.

Our men promise to practice hard, which will guarantee forty minutes of good basketball with any team.

The schedule for all the teams, including the Northern Division, are as follows:

**SOUTHERN DIVISION**
- January 1—Santa Barbara at Los Angeles
- January 3—Poly at Santa Barbara
- January 10—Santa Barbara at Poly
- January 12—Poly at Santa Barbara
- January 17—Santa Barbara at Los Angeles
- January 19—Poly at Santa Barbara
- January 23—Santa Barbara at Poly
- January 25—Poly at Santa Barbara
- January 26—Santa Barbara at Poly
- January 27—Poly at Santa Barbara
- January 28—Poly at Santa Barbara
- February 10—Los Angeles at Poly
- February 12—Poly at Los Angeles
- February 20—Poly at Santa Barbara
- February 22—Santa Barbara at Poly
- February 23—Poly at Santa Barbara
- February 25—Los Angeles at Poly
- February 26—Poly at Los Angeles
- February 27—Poly at Los Angeles

PRACTICE STARTS

Owing to the fact that the Fresno-Loyola game was contested, it has been hard to get any information as to the present standing of the conference teams.

Fresno has been granted the Southern Section championship. Loyola was to have played Fresno at Loyola again, and let it go as if the first game had not been played, but Loyola said "they did not have the money to bring the Fresno team down again." Fresno then offered them four hundred dollars to come to Fresno which Loyola refused, thus giving up their equity in chance for championship honors.

The scores and results of the Northern Division have not been received yet, so we will not know about the conference big game until later.

The high school championship seems to trend toward Bakersfield and Berkeley as last year, although San Mateo is going to be a hard contender in the bay region. Last Saturday San Mateo beat the fast Salinas team, which were victors over Lick-Wilmerding, the San Francisco city champions.

GIRLS' BASKET BALL

At last! The girls' dream has come true. President Riccardi has given us permission to play inter-school basketball. This was asked some time ago, but was refused because of the lack of an indoor court; but now the school has secured the W. O. W. hall in a contract for the season. This will be used, according to a schedule, by both the boys' and the girls' teams.

The team will be chosen by Miss Hayashil and, as a preliminary to this choice, interclass games will be played in the hall. For these a nominal fee will be charged which will be used to help to pay the expenses of the other teams here. In order to be a member of the team one must have permission from home to play.

No definite schedule has been prepared, but as soon as the schools that have teams are determined, one will be published.

POLYTECHNIC STOCK HIGHLY COMMENDED

A letter from John H. Hull shows appreciation of a boy recently purchased from the School:

Mr. Hull, Dec., 1942, California Polytechnic School,
San Luis Obispo, California.

The Poland-China boy arrived on time and in good condition. We are very pleased with him and we shall do all we can to let the neighbors know about it.

John Hull, son.

Your very sincerely,

John H. Hull.

They say it's a sign of brilliance, if you don't write well. No wonder Doc Jackson knows everything.

MACHINE SHOP RUN ON PRACTICAL BASIS

It was easy to tell that Mr. Cunningham had been interviewed when before the reporter had made his appearance before him last Friday morning, as he had a speech all prepared. He talked of things that interested him, his personal interest to the mechanics student, for of general interest to all.

The machine shop is now being managed on a plan similar to that that you would find in a commercial establishment. A checking system has been put in so that a check with a number on it is left at the tool-room window whenever a tool is given out, and is returned to the student when he brings back the tool, thus eliminating possibilities of misunderstandings caused by tools missing from the bins with no record as to their location.

A new classroom is to be added to the shop to provide the addition on the carpentry shop, and will enable the instructors to make themselves heard above the noise of machinery.

In order to give practical experience to the students, they have neither kept nor have had well under way, the making of a complete lathe. Last year most of the plans were drawn in the drafting room, and the rest are being finished this year.

As soon as they are fully completed the patterns will be made. They will then be sent in our woodwork department. The patterns will then be sent to some reliable foundry, where the casting will be made, then the castings will be sent here for finishing in our shop. If this is not practical experience, what is it called?

Furthermore, in order that they may acquire the necessary finishing touch to make them complete, Senior members of the Class of '43 will be foremen of the shop in turn. They will have had sufficient training during their sopomore and Junior years to enable them to take the position.

Outside of new electrical switching equipment, nothing has been added, but it is the new bill passes at Sacramento appropriating our desired fund, new machinery, all to be individualized, will be added to the equipment, which we hope will have twice our present amount.

Federal Man Leaves

Mr. Karvmar, one of our former Federal students, has left here for San Francisco, where he will go into placement, training, and here he has been on the Polygram staff and has taken quite an active part in the affairs of the Federal students.

Mrs. Thalman—"Give for one year the number of tons of coal shipped of the United States.

Ammun —1949—None.

Mother—Good heavens! What is the matter with your ear?

Paw—Nothing is the matter, just a leaky fountain pen in Ed's vest pocket.
