HONOR ROLL FOR PAST SIX WEEKS CONTAINS 38 NAMES

It is often said that anticipation is greater than realization, but there are exceptions to every rule. The dormitory dance was one of them. After the postponement for a couple of weeks, it came in all its glory. The program consisted of jingles and dancing. Following the 11 a.m. school song and we disbanded.

FORMER POLY MAN SPEAKS AT ASSEMBLY

In an interesting talk in the Assembly room on Friday, Mr. Frank Murphy, a former Polytechnic school and farmer and dairymen in the county. The Polytechnic School is proud of the fact that Mr. Murphy is a former Poly and has come back here to take such an active part in the development of the Los Angeles County in its agricultural resources.

Mr. Murphy also gave the green light for agriculturally trained men and outlined the employability offered in the various branches of agriculture. Following this Mr. Kellogg, the city librarian, spoke on Thanksgiving and its relationship to our ancestors.

DORMITORY DANCE PROVES INSPIRING

That the work of the California Polytechnic School and the training offered here will fit young people to young people who are not known or given the credit it deserves was the statement made by Mr. John Hickey who chairs the Boys’ Work Committee of the Los Angeles Rotary Club. Here to visit the institution.

That the school will shortly bring into its own was the further statement made by Mr. Blower, who headed the witty efforts of President Reculard in building up the school and bringing it to the attention of the state.

Mr. Blower himself will have a part in bringing the school to the attention of the public in its work of keeping boys of the ‘tech age in school and in finding them suitable work when their school days are over.

The work of the Rotary Club committee in sending aid to boys wanting an education by lending them money which is later paid back when the boys become self-supporting. It is a “back to school” movement, according to Mr. Blower, brought about when men who in their business lives have come to realize the full value of an education, and others who appreciate the advantages through their own lack of opportunity. Mr. Blower himself is a part of the work of the committee to see the boy educated. They also include the boy in their work when his school days are over.

Too many boys have finished the course to show off dirt for years, as it is done. This is bad for two reasons. It discourages the boy who is an aspiring young boy for the boy in the lower grades at school who thinks of his future. No school is better for educating the boy and finding him work has been taken up by the California Rotary Clubs. The school boy will soon be made a part of the work of other clubs.

The work offered here will be suitable for him if his plan was stated by Mr. Blower and will help many a boy find his profession in life without a long preliminary training through the university to shovel dirt for a living.

Coming here simply as a matter of investigating the schools of the state, Mr. Blower has remained to marvel at the work he found and the magnitude of the California Polytechnic. This ardor is undiminished in spite of the fact that he arrived only a long, cold rain and the task of making his survey of our school.

Thanksgiving Assembly

The last period before our regular Thanksgiving vacation began was devoted to an assembly on Monday. At this assembly the selections from the boys’ and girls’ glee clubs rendered a song.

That the work of the California Polytechnic School and the training offered here are not yet known or given the credit it deserves was the statement made by Mr. John Hickey who chairs the Boys’ Work Committee of the Los Angeles Rotary Club, here to visit the institution. AG BOYS ATTEND DAIRY EXHIBITS AT FRESNO FAIR

Two of the instructors in the agri- culture department, Dr. Eastman and Mr. Herington, invited us to take a trip to Fresno to see the great dairy show held there two weeks ago.

We left school on Thursday at five o'clock sharp in the morning and met Dr. Eastman at his home. We left San Luis at six-fifteen in two machines. Nine boys and the two instructors made up the party. Eight-fifteen we had passed Robb's farm where we had stopped for breakfast.

The rest of the trip was really enjoyed by us, since all the way to Fresno we saw well-cultivated fields, great numbers of cattle, and farms where different crops are raised.

We arrived in Fresno at two-thirty, went to our rooms, then had dinner. We went to the Civic Auditorium, located in the north of the city, where the exhibits were. The interior was really carefully decorated. The ceilings of the auditorium were hung with big lamps similar to bottles of milk, yellow, white and blue. In the front of the room was the stage, quite large, where different vaudeville acts were given to amuse the people.

The first floor had for exhibits many dairy machines, the butter-making machine, various kinds of modern cream separators, ice-cream freezers, and so forth. Two cows were milked by machinery in one of the shows.

Moving pictures were also shown free to participants in the fair; they were all instructive films.

On the second floor the products of the various countries were shown, including California, with by-products. Some livestock were shown in the left side of the auditorium.

As a means of advertisement, samples of new drinks on the market, of ice cream, and other by-products, were given to the people.

Concerts were given at certain times of the day in the center of the building. The sessions and conferences in charge of the associations were held on the second floor.

We stayed in Fresno all Thursday and Friday and on Saturday morning we left at eleven for San Luis. Mr. Herington, with some of the boys, had gone before to San Jose.

We certainly enjoyed the trip and learning interesting things in the dairy line. We are also much obliged to Dr. Eastman and Mr. Herington for their kindness to us during this trip.

-Jesus Urquiza.

Miss Hilton on Vacation

Miss Hilton, the Federal Board nurse, is now on her vacation and will probably not be back until the eighth of January. She will, however, probably be here part of the time in order to keep up with her work.

Miss Hilton's territory has recently been enlarged and now includes San Luis Obispo and Monterey counties.

A Whole Tribe Moved

We are sorry to hear that the once famous Stagger Inn has been broken up for the reason that Mr. Hunt has leased the hotel for the winter. The five members of this organization all have found new homes. Frank Sommers and Douglas Amin are residing now with Mr. Williams in his palace across the street. We also hear that Thelma, Avery Clemente, and Eddie Fickie are all back at their former resting place, the Dormitory.

DORM DOINGS

The Thanksgiving vacation proved a great success. Most of the members journeyed home. Some even went as far as San Diego. We kind of think that the reason was being close to the home borders.

Willer Young has left our midst. He is now attending the Santa Ana Poly High.

Our supreme lover, Coach Hogue, says he had a wonderful time Thanksgiving, so he insists he will stay over Christmas vacation. We are hoping that he sends out no announcements before that.

N. Brubaker left Thanksgiving to return after Christmas vacation.

Ted Dobson journeyed to Gilroy for his vacation.

Since basket ball came into season we have been having several fast and furious games after school.

Most of the fellows attended the picture, "Teas of the Storm Country," during its three-day stay in town.

Palmer Powell has left us for his home in Hayward. He is coming back after Christmas vacation.

POLY INVITED TO BOY SCOUT MEETS

Mr. Carlisle, district executive of the Scoutmasters, has sent out an urgent invitation to the boys of Poly-tech to attend the sessions of the Scoutmasters' Institute to be held in the Methods Building in San Luis Obispo Saturday afternoon and evening of this week.

The sessions are listed below. Any boy who can attend will find them interesting and worth attending:

8:00 o'clock—Inspirational Educational.
9:00 o'clock—Court of Honor.
4:00 o'clock—Organization.
7:30 o'clock—Entertainment and address.

SCANDAL

"And she wore nothing whatever—"

"Hello, hello! Eat Central!"

"In her hair, and, honestly, my dear, it was so flimsy—"

"Say—"

"--you could say right through—"

"Hey—"

"She partition to the next office, and he was in there all alone with her."

"Listen! How about—"

"--parcel. Number, please?"

"Certainly! Give me—let's see—"

"—oh, well, the number isn't necessary now."

She—Why in the world do they call him Bill?

He—I guess it's because he came on the first of the month.

When Eddie McNish was in France he noticed a sign, "Painless Dentist."

A little boy who was with him asked what a painless dentist was.

"A painless dentist, young fellow, is a liar," answered Eddie."

Evidently he has "bitten" more than once.

Pat Hodges—I want a sandwich."

Waiter—What kind?

Pat—Something striking.

Waiter—How about a club.

What was Brownell doing in the bald-head row at "Oh! Look!"? Great!"

I bet he was looking:

TEN YEARS HENCE

Troup (charmingly)—What are you doing ever there?

M. Righetti—Beating my wife.

Troup (excitedly)—May I come over and see how it's done?

Mother Haas—the train service in San Luis Obispo must be terrible.

Father Haas—Huwait.

Mother H.—Why, Clarence writes that he was forced to spend an entire

day in Station 16.

Little Neil—Mother, do they have prohibition in Heaven?

Mother Perry—Why, certainly, darling.

Little Neil—Well, then how can it be a land of corn and wine?

A LA POWER HOUSE

"Wimmer's back from Atascadero."

"Howja know?"

"Tossed six times to phone-Jeannette and the line was busy every time."

Forest—Do you know—our new minister is just wonderful. He brings home to you things that you never before.

A PIGEON—That's nothing. Our laundryman does the same thing.

Wild Animals I Have Known—

Rats in the hair.

Cot tales on slipper.

Moles on face.

Beavers on beaks.

Hares in stock market.

Seals on mortgages.

Hare on the head.

Liars to the Treasurer.

Deer in hammocks.

The Boat at the party.

Gather ye kleeves while ye may.

Time is the only remedy.

For the flappers who flap so free today.

Are the chaparees of tomorrow.

Owing to the fact that the Fresno-Loyola game was contested, it has been hard to get any information as to the present standing of the conference teams.

Fresno has been granted the Southern Section championship. Loyola was to have played Fresno at Loyola again and let it go as if the first game had not been played, but Loyola said they did not have the money to bring the Fresno team down again. Fresno then offered them four hundred dollars to come to Fresno which Loyola refused, thus giving up their equity in chance for championship honors.

The scores and results of the Northern Division have not been received yet. As we will not know about the conference big game until later:

The high school championship seems to trend toward Bakersfield and Berkeley as last year, although San Mateo is going to be a hard contender in the bay region. Last Saturday San Mateo beat the best Salinas high school team that were vicarous over Lick-Wilmerding, the San Francisco city champions.

GIRLS* BASKET BALL

At last! The girls' dream has come true. President Riccardi has given us permission to play inter-school basketball. This was asked some time ago, but was refused because of the lack of an indoor court; but now the school has secured the W. O. W. hall as a contract for the season. This will be used, according to a schedule, by both the boys' and the girls' teams.

The team will be chosen by Miss Hayes, and as a preliminary to this choice, interschool games will be played in the hall. For these a nomininal fee will be charged which will be used to help the expenses of the other teams here. In order to be a member of the team one must have permission from home to play.

No definite schedule has been prepared, but as soon as the schools that have teams are determined, one will be published.

POLYTECHNIC STOCK

HIGHLY COMMENDED

A letter from John R. Hull shows appreciation of a boy recently purchased from the School:

Mr. John R. Hull consists of:

1. California Polytechnic School
2. San Luis Obispo, California

The Poland-China boys arrived on time and in good condition. We are very pleased with him and we shall do all we can to let the neighbors know about it.

Always yours for this excellent deal, I am.

Yours very truly,
JOHN H. HULL.

They say it's a sign of brilliance if you don't write well. No wonder Doc Jackson knows everything.

Basketball Practice Starts

Last Tuesday night saw the opening of the basketball season for Poly at the W. O. W. hall in town. About twenty-five men were out, which shows the enthusiasm for the coming games. It was impossible to get the Civic Club as hoped for practice but it has been assured for any games we play at home.

The first game of the season will probably be played with Pasco Robbins Junior College team, but those games will be only practice games. Many other high school games will be scheduled as soon as possible for practice in preparation for our first conference game, which will be played with Santa Barbara in San Luis on January 21.

Each team in the conference goes on a tour, in which three games are played, one each night, with each one of the other three members of the conference. Each schedule makes it hard to go home as the men may travel any night and travel all day, but as all the teams will do the same, we have a fifty-fifty chance.

Our men promise to practice hard, which will guarantee forty minutes of good basket ball with any team.

The schedule for all the teams, including the Northern Division, are as follows:

Southern Division

January 21—San Luis Obispo at Loyola.
January 19—Santa Barbara at Fresno.
January 20—Santa Barbara at California Polytechnic.
February 21—California Polytechnic at Fresno.
February 22—California Polytechnic at Loyola.
February 2—Loyola at California Polytechnic.
February 3—Loyola at Santa Barbara.
February 10—Los Angeles at Santa Barbara.
February 11—Los Angeles at Santa Barbara.
February 10—Fresno at Losoya.
February 10—Fresno at Loyola.
February 17—Fresno at Oakland.
February 17—Fresno at College of Pacific.

Orchards and Vineyards

Make Splendid Growth

The apricot and olive orchards and the vineyard put out by the students last year have made an excellent growth and are a decided improvement to the campus. Figures recently compiled by Mr. Anderson and his farm management class show that on an average 80 per cent of vines and trees have started and are making a growth.

The business house that advertises in Polygram is helping support to show your appreciation.

Machine Shop Run on Practical Basis

It was easy to tell that Mr. Cunningham had been interviewed before when the reporter made his appearance before his last Friday morning, as he had a speech all prepared. He told of things in our woodwork ticular interest to the mechanics student, but of general interest to all.

The machine shop is now being managed on a plan similar to that that you would find in a commercial establishment. A checking system has been put in so that a check with a number on it is left at the tool-room window whenever a tool is given out, and is returned to the student when he brings it back, thus staving possibilities of misunderstandings caused by tools missing from the locks with no record as to their location.

A new classroom is to be added to the shop plan, in addition to the carpentry shop, and will enable the instructor to make themselves heard above the noise of machinery.

In order to give practical experience to the students, they have started and have well under way, the making of a complete lathe. Last year most of the plans were drawn in the drafting room, and the rest are being finished this year.

As soon as they are fully completed the patterns will be made. They will all be done in our woodwork department. The patterns will then be sent to some reliable foundry, where the casting will be made, and the castings will be sent here for finishing in our shop. If this is not practical experience, what can it be called?

Furthermore, in order that they may acquire the necessary finishing touch to make them complete, Senior members will make them from the foremwwork of the shop in turn. They will have had sufficient training during their sopho­more and junior years to enable them to take the position.

Outside of new electrical switching equipment, nothing has been added, but it the new bill passes at Sacramento appropriating our desired fund, new machinery, all to be individual, will be added to the equipment which will double our present amount.

Federal Man Leaves

Mr. Kazrav, one of our former Federal students, has left here for San Francisco, where he will go into placement work. While he has not been on the Polygram staff and has taken quite an active part in the affairs of the Federal students.

Mrs. Thalas—Give for one year the number of tons of coal shipped of the United States.

Amon—1919—None.

Mother—Good heavens! What is the matter with your ears?

Ray—Nothing really, just a leaky fountain pen in Ed's vest pocket.

The Conference As it Now Stands

The conference as it now stands:

[Continued]
