A congratulating telegram was received by Mr. Ricciardi from Assemblyman McMillan early Tuesday morning stating that the budget he had passed the Assembly by a vote of 45 to 32.

The winning of the appropriation in the Assembly was largely due to the type of training the Polytechnic gives; that is, non-professional, and students who wish to think, to prepare for, and boys and girls take up professional work in life while the other the 80 per cent take up non-professional work—the kind of training that is given at the California Polytechnic School.

A square deal for the boys and girls of California is what won the appropriations for our school in the State Assembly.

Now, as never before, the people of the State, and the representatives at Sacramento, will be more interested in our school, give it better support, and they will see it good in a big way. And when the boys and girls of high school age. They are among the ones that are not willing to see this school ached of the past. Mr. Wilson of Los Angeles, a Polytechnic alumnus, offered to pay his own expenses to Sacramento for the benefit of the school because he knew the real value of its training—an asset to the State and worthy of the appropriations asked.

It is the intention of Mr. Ricciardi, the faculty, and students to prove these facts within the coming two years.

The faculty, the local committees, farm bureaus, Congress of Mothers, parent-teacher associations, and all friends for the cooperation shown toward the California Polytechnic School.

The faculty and students wish to thank the members of the Legislature, local committees, farm bureaus, Congress of Mothers, parent-teacher associations, and all friends for the cooperation shown toward the California Polytechnic School.

FURTHER PLANS FOR UNIFORM PICNIC MADE

The May Day picnic committee decided to have the annual school picnic at McChesney’s ranch on this coming Tuesday.

Mr. Knott is in charge of transportation and will see that every student and teacher gets there; those who have cars are to see him as soon as possible.

Miss Woods is in charge of the “gate,” and it is guaranteed that everyone will get through in large numbers.

The organization will each have charge of some part of the oats.

There will be games of all sorts for those who want to play, and those who don’t will find the grandstand seats are all dusted off.

Addition to Honor Roll

Through an error in making up the Honor Roll, the name of Donald Krutch was omitted from the list. It should have been included among the students of the Agricultural Department.

For future copies of the Journal.

There will be a limited number only and new subscribers will be kept in shoo in this shop.

MR. RICCIARDI AND BUDGET FOR POLY

The students, faculty and people of the community interested in the future of Polytechnic will soon find out whether or not the school will run on at a higher standard or whether some of the departments will have to be cut. If the school does get the $250,000 as it is hoped, the students feel that it was due to the hard work and constant effort put forth by our president, Mr. Ricciardi.

He has delivered many speeches and made numerous trips toSacramento in behalf of the budget of the Polytechnic for the coming two years. The students are behind Mr. Ricciardi and wish to express their appreciation through the Polygram in this issue.

SUMMER WORK

Many Poly students are planning to spend the summer vacation in some form of gainful employment. This summer time offers the boy or girl a greater opportunity than just that of making money. It offers particularly the chance to try out the chosen job to see if it is really the one desired for life. Very often vacation schedules in offices make it imperative that extra men be hired for short periods. Very often summer activities, an increase in automobile travel, in train travel, in house building, in work on the ranch increase the number of opportunities in just the field of employment a boy may desire to enter. It is better economy for the boy to use this summer time to try out his job than to earn money at just any job which may offer itself. His experience in his chosen line will be worth much later on to him when he is ready to graduate and seeks a real job for life.

The Placement Bureau is willing to try to find you the job which will give this opportunity, the job in line with the course you are taking at Poly and your future plans. Register with Miss Pendry at your earliest convenience.

One of our boys from the Commercial Department is now trying out his chosen line. Lloyd Waterman has accepted a position as billing clerk at the Coast Wholesale Grocery. Lloyd reports that he likes it and the firm reports that he is getting along nicely.

Mrs. Irma Severson of the Commercial Department has also accepted a position—she is with the Sun-Kist Grocery.

SENIORS! SPECIAL NOTICE

The Seniors are requested to register at the Placement Bureau before May 31. It is hoped to have a complete registration of all the Seniors and all courses and positions and plans. The bureau will help you to realize these plans if you wish. Mr. Ricciardi has reported that these arrangements are to be made as soon as possible.

Order your copies of the Journal.

NEW IMPROVEMENTS IN CARPENTRY SHOP

Two long needed improvements in the Carp Shop have just been finished, namely, two skylights and a classroom.

Mr. Hudspith states that he cannot begin to estimate the value of these improvements, as they make it much easier to work in the building and to have class discussion.

The work on the skylights was done by Charles Hiatt and Edgar Lewis, both of whom are first year students in carpentry, and the workmanship of both was that of skilled carpenters and their instructor, Mr. Hudspith, states that he is highly pleased with the outcome of the job.

As the second half of the second semester approaches, many of the boys will take up advanced work, and six have already started the construction of under-cheats and are progressing into the training given them.

Several boys who are specializing in carpentry have commenced the study of rafter cutting, a study which will prove highly interesting and very profitable when they are working. This study brings in the use of the steel square, the knowledge of which is another valuable asset to a carpenter.

Another improvement that has been introduced is a battery for saw filing, thus enabling six boys at a time to be instructed in the art of saw filing, an accomplishment which is an absolute necessity to every skilled carpenter.

With this device the instructor plans to teach every student who takes the course the carpentry or carpenter making the best methods of caring for the most valuable tools in his kit. With this new acquisition, Mr. Smith has found that the trouble with leaving tools in poor condition has been eliminated.

The classroom which was constructed recently by the students is greatly to the appearance of the shop with its neat furniture and blackboards. In this room the boys are shown the various methods by which carpentry is done, and are shown how to design and detail the projects which they take up.

EMPLOYMENT SYSTEM UNDER MISS PENDRY

Under the leadership of Miss Pendry, an employment bureau for the benefit of the students is being operated at the Polytechnic.

Now, instead of having to leave school because of financial conditions the students are earning part of their school expenses by working after school and on Saturdays.

This success is due largely to the efforts of Miss Pendry, who receives calls from the people of town wanting work done, and also selecting the students to do the work. The boys are making good and are finding that their labors are helping them to obtain work through the bureau any time they need it.

BURLINGTON STATE * HOSPITAL

INSTRUCTIONS be made as soon as possible, the hospital will be able to obtain work and their vocational interests and the calls from the people of town.

- Advertisements for various businesses such as garages, drugs, and clothing.
- Notices for a crowd's decision and the downing of seniors.
- A reference to physics in a classroom setting.
- Quotes and exchanges from a play, including a conversation between Mr. Agnasti and Mrs. Theisen.

The text is a mix of advertisements and dialogue, with a focus on local businesses and community announcements.
THE POLYGRAM

Juniors Win Track Meet

MUCH INTEREST IN INTERCLASS MEET

Probably the most interesting interclass meet ever staged on the Poly field became history last Monday afternoon when the best of the seniors, the juniors and the sophomores of Poly faced each other in the season’s first track meet. Never in the history of the school has competition been so keen or spirit so high.

From the very first shot of the starter’s gun, it was a race between the juniors and the seniors, the sophomores and freshmen serving as a balance in the events. For a month, premeditated scores had been doped by each class, and each figured to win, but dope was completely upset.

The hundred-yard dash was the closest race and it was with difficulty that the winners were picked at all. Potter, Ansin and Bock crossing the bare three inches apart. The two-twenty dope was upset by Tardiff and Arroyo, who retired ten batters during the game. And did good work.

POLY WINS FIRST BASEBALL GAME

The Polytechnic timber-wielders turned in a victory as a mark of their first effort on the diamond for the 1923 baseball season. Arroyo Grande High School April 14, 12-8.

Arroyo is reputed as having the best high school team in the high school league this year as they have all of last year’s men and they were a good aggregation then.

As is the custom, poly started the ball rolling by scoring two runs in the opening inning of the affair, and it was not until the third that Poly put under way and registered three runs in the game which carried through, Poly leading from one to three runs.

The Poly men all played excellent ball, considering the practice they have had and very few errors were penciled against them. Such credit is due Riella, the freshman twirler, who retired ten batters during the engagement, and gave few long hits.

High School Wins

A morning game between San Luis and Atascadero resulted in a 10-2 victory for the Lancers, who are in the state finals pretty late this week.

 Were They Elusive? Douglas Annin, commenting on the precise elusiveness of President Risckland, was once, but Howard Patchett came through with the necessary dope to win first in the high, while Diefendorfer got third place, and Wimmer, Lima and Patchett took all the points in the low hurdles.

Wimmer and Lumley were high point men, taking all the long runs and showing mighty good form. The other events went as predicted, and as the call went out for the relay the necessary dope to win first in the high, while Diefendorfer got third place, and Wimmer, Lima and Patchett took all the points in the low hurdles.

The seniors led, the juniors next, with the sophomores last. The event was the 120-yard dash, and each figured to win, but dope was completely upset.

The seniors led, the juniors next, with the sophomores last. The event was the 120-yard dash, and each figured to win, but dope was completely upset.

MARTIN tends to the phone and THE RETURN OF SOME OF THE PRODIGALS

During the past few weeks many of the old students have returned to Poly. Some of them to attend. Mr. and Mrs. Gill have been here several days during the last week, seeming much pleased with the visit. Mrs. Gill, as we all know was Laura Miller, graduating with the class of ’22, while Mr. Gill, had he remained in school, would have graduated this year with the class of ’23.

Wendall Sanderson is another graduate of last year who was out inspecting the school a week or so ago. Warren has been working in San Luis but wasn’t satisfied, and has returned to San Luis and is now in the service of the Union Oil Company.

Two of our old faculty members were also here for a day or so. Miss Williams, formerly our art instructor, and now teaching school in Pasadena, was one of the visitors, while Mr. Whittlock was the other. Unfortunately Mr. Whittlock was here during the angular, and didn’t get to look the school over when it was in full working order.

Last but not least comes Gertrude Trowel who has returned to finish the term with us, attending school only a few weeks, but nevertheless she is here.

All snips for the Journal will have to be in by next Wednesday. Part of the pictures were gone already to the engravers, and it will be absolutely necessary to close the work by May 3.

DORM DOINGS

Mr. and Mrs. Morison of San Diego have been visiting Dick last few days.

Dick Wilson has surprised all of us. He says he is a member of the San Luis Obispo Chamber of Commerce, and went on the booster trip to the valley. Never mind, Dick, if the rest of us would show what spirit you have shown there would be things happening around here.

The out-of-town fellow represented on the trip was Dutch Sommer. He accompanied the cowboys and a member of the Gee Club. You have the goods, Dutch. Keep it up! Going to the shortage of old motorcycles around San Luis Obispo, the members of our Motorcycle Club are in earnest. They are utilizing enough old parts to keep their wheels together. President McPhail of the club says the shortage will not last too long. He expects it not to last for over seven weeks longer.

"The Tailor-Made Man," to be given May 25, has eight scenes of the musical "The Tallest Man," by Lew Fields and Guy Green. It is a satire on social and political conditions.

The Poly Band will present an evening concert on May 21.
