Farmers Day Picnic

of the Farmer* Picnic and the County Gramm ar School Track Meet.
we were gathered, for that was the day of coffee for the free barbecue, while
The Block "P" Club had charge of a soda, ice cream, peanuts, and candy youth.
Following the barbecue the county bank for all the grammar
school was held. Pass Robles won first place with a score of 69-1 3 points, with San Luis Obispo second, scoring 87-2 3 points. Arroyo
Grande and Atascadero tied for third place.
During the day the Poly orchestra played, while our Farmers Polytechnic
quartet rendered a few items. This Farmers' Day is an annual
tradition, and one of the best types of advertising we could get.

Block "P" Club Has Charge of Assembly

At the assembly held on April 26 the Block "P" Club took charge and charged "they served their stuff." Before the program was held Miss Hayashi said a few words in behalf of the girls' base
ball team, awarding stars and Circle "Pi" to girls who had played as the first team throughout the season.
When receiving their citations were Dorothy Lobo and Edna Bettencourt, while those who received stars were Don Rutherford, Dorothy Mor-
rari, Margaret Word, Wilma Hoggstad, Wilhlima Johns and Alta Mayhul.
Following this, Miss Hayashi again
quite gave us a slighty display of magic black and angels. The kittens were there, here, and everywhere.
Then came the ministral show with Brother Amin presiding. At this point of the program we had a craven artist and three buddy vocalists.
The title was unengaging for its perfect harmony and tantalizing melodic truth. Then the rest of the songs went over in their remarks and the pro-
gram was ended, having been short, happy, and sweet.

A Regular Assembly

Margaret Ditmas had charge of the assembly on May 2. This wasn't such a clay procedure, since we wanted it to be as much as possible a music performance. Otherwise we could have seen these two faculty members leave with great regret. They wished Mr. Ammons and Mr. Figs to do their work away with all the honors. He took the model for marathon baseball playing. His endurance remained without competition. He was the first to start playing and the last to stop. He participated in all three of the games, seeming abso-
lutely indomitable as to the record he was creating.

About twelve-thirty came the food.
We had wehnies, salads, buns, cakes,
and lemon cake. These girls made the cakes and salads and then kindly donated them to us, while the faculty furnished the ice cream. A collection of 25-cent pieces from the boys contributed the wehnies, buns, and cake.

After the limit of our respective capacities had been exceeded we scat-
tered ourselves all over the McChesney ranch, Arroyo Grande, Pismo, the

The Electrical Work Now Completed

Our annual May Day picnic was held on the last protracted May Day of this year and it only remains now for us to have another May Day with another picnic.
This picnic, which in reality was a "Wild life" take, was held on McChesney's ranch near Poly and in one of the beat
cents. All the students had all transported there in different cars. Upon arriving we had a grand time and this was the time to inform us of all the interesting stories about us which had been told to us by the Block "P" Club. Then there was a relay of baseball teams, each one a little better than the first. As a starter the boys seemed to have tone. This was too much for really either interest or amuse us, the spectators. Next came a game for the girls. But the weather was so becoming so blase to baseball that we were only slightly amused. But the next round, we may assume it, made us sit up and take notice. It was ni-
to a game of faculty baseball! Mrs. Thiesen made a home run and almost outdistailed herself in sliding home.
The switches are placed where you want them, and for every building

RECONSTRUCTION OF ELECTRICAL WORK NOW COMPLETED

A complete reconstruction of all electrical wiring on the campus has just been completed. The foreman in charge of all of the work done for the Poly were California, and he has packed up his tools and left us. His work for the past few months has been in making our campus a better place to live, by improving the electrical equip-
ment and safety devices already installed.
Prior to the arrival of the construction crew the wiring on our campus consisted entirely of safety wire and leads. Everywhere the student turned he found exposed wire and open switches from which there was a constant danger of shocks and fires. Some of the buildings were not wired for electric lights and others which had been wired were broken and the switches switch off repair to such an extent that the lights were not to be de-
pened upon. They gave poor illumination, being of the type that were modern ten years ago.
There are two reasons why the electrical wiring was in such poor condition on this campus: first, the greater part of it had been installed more than ten years ago; at that time there were no up-to-date protective devices as there is now. Safety rules were incomplete and materials not up to the standard required existed. The electrical furnishings in those days did not have the skill in installing the wiring that have now, and he who did have to pass the inspection of the insurance company, for the state does not carry insurance on electric build-
ings. Second, as the school grew there had to be extensions to the electrical system to meet some urgent need. These extensions were usually made in a "hasty" manner and as they were put in. Many of these were death traps as well as fire traps. Now as you go about the campus you find a very different condition. All of the wiring is the latest conduit methods, and all of the wire are in metal pipe so there is no chance of a fire being started from the wiring. The switches are placed where you want them, and for every building an outlet has which fulfills the latest pattern. In the shops every motor has a remote control switch which the

May 25 has been definitely set, and final arrangements have been made with the Klips for the production of "The Tailor Made Man." Tickets will be fifty and seventy-five cents, and all seats will be reserved.
In the last issue of the Polygram the cost for "A Tailor Made Man" was temporarily announced. But since the plan is to make it a longer play, it has been decided that the cost of time should not be increased. The cost is almost definitely

S. L. O. FIRMS FINANCE MEDALS AND PRIZES FOR OUR TRACK MEET

No one on the Polytechnic campus can deny that the annual grammar school track meet was a decided success in every way.

As it was under the management of the Athletic Committee, much credit is due Coach Agosti and Captain Benfield for the hard work and time put in by them to make it a success.

It took not only hard work, but also money, to finance the meet, particularly as prizes and medals. This was the hardest problem of them all, but the following San Luis business men were willing to contribute for all of the prizes and medals of the meet in order to make it a great day.

What are you going to be?
Where do you want to be?
Do you know what opportunities in your home town are getting better each day?
Many people prefer to live out side of the crowded cities. They are seeking homes in small towns where the cost of living will not eat up all they earn, and where fresh air, a home garden, and a little leisure and friendship will make life worth living. Almost every small, or middle sized place in California is reporting "hiring facilities inadequate" because of these conditions. The boy who is preparing to enter the building trades will probably find his home town offering him opportunities greater than those to be found in the city.

The occupational classes in their survey of vocational opportunities in this typical town of San Luis Obispo, found that almost all of the merchants and business men felt that conditions promised success to a young man who starts out in nearly every field. Trades which are protected by a union scale of wages offered particular opportunities in the smaller places, because while the workman is receiving the same wages as his fellow city worker, he is living much more reasonably, and finding more opportunities for work because he meets less competition.

Many large corporations have representatives in the rural town. Opportunities with the oil companies, with utilities corporations are worthy consideration. An organization representative of the professions who find good opportunities in the small town. Many young men too have musical directors, home extension agents, county nurses, as well as journalists, ministers and others of the professions who find the rural town a land of greater opportunities than the city.

What are you going to be?—Inquire.

There was a man from the city, who met what he thought was a kitty.

(She buried her clothes out of pity)

EXTRA! EXTRA! EXTRA!

"Don" Jackson has lost his reputation as a woman-hater! The Poly vagabond has got him started at last and it looks as if Dorothy Lobo is responsible for this calamity. Her acting ability got the best of "Doc" during the performance of "Cheery-Nunnin," and after the show he admitted that he must have had a wrong impression of girls. The following statement will prove that he is sincere:

The other night, while going home from school in the machine, he tried to put his arm around the vamping lady and asked to hold her hand. But she

(I'm sorry, but I'm prohibited from writing a scandal of any one at school, as if you want more information, you will have to consult "Doc.")

They say there are fast women in Kentucky, but it looks to me that they will have to go some to beat the vamps here poly.

RICHMOND
GIRLS VICTORIOUS AT BASEBALL

Off with his head: he'll be president of the Automobile Club

The girls' baseball team started the season out with a victory of 23-13 over Atascadero April 28. Every girl showed her ability as a baseball star—of course of going to show it in every game.

At the end of the sixth inning the score was 11-4 in favor of Atascadero but by the time the eighth inning began the Poly spirit awoke in us. We started a regular merry-go-round, making seven runs that inning. In the sixth inning we made four.

The routing of the other team was full of pep and helped us very much in winning the game. All right, rooting section, we expect you at the next game with all this pep.

The team consisted of the following girls: Fay Rougoz, pitcher; Wilma Rougoz, catcher; Helen Rutherford, first base; Ynez Bickford, second base; Mary Hughes, third base; Dorothy Lohr, short stop; Elx Maphall, right field; Margaret Word, center field; Gertrude Truedale, left field. We were told that the game is a "pig tail"; Dorothy Miller was the catcher, but she was unable to catch it.

DIEFY NOW RUNS HIS OWN AUTOMOBILE (?)

Our dear friend Lagrand has a car of his own. He is the happiest man on earth now, and he says that he will be president of the Automobile Club of California in 1926. Let us all cheer for him, and we hope that he has a very successful year.

POLY NINE VICTORIOUS AGAIN ARROYO GRANDE

Tuesday afternoon, May 2, the Poly boys defeated the Arroyo Grande nine as he is an all-round good player.

Much credit is due to Reynolds for his pitching, as well as for his batting and base running. Frank Lime is an other member who deserves mention, as he is an all-round good player.

The team as a whole played a fine game.

Many of the Poly students and members of the faculty attended the game, as school was dismissed at 3:15.

The Poly line-up is as follows: I. Reynolds, pitch; D. Annin, catch; R. Morton, first base; J. Urcuiico, second base; W. Stevens, third base; R. Patchett, short stop; A. Davis, left field; F. Lima, center field; J. Carroll, right field.

DORN CLUB PLANS BARBECUE SOON

The Dorn Club plans to hold its annual barbecue within the next two weeks. It will be a big noise as this is the biggest edition in years.

DORN DOINGS

Brownie, our old dog, is dead. He was attacked by some mysterious disease of which we are unable to find a definition. He was buried with due honors.

George, Cornwall has had visitors over the last week-end. His parents came down from the city. George was seen sporting that new Buick around with one of our fair maidens. Don't get too serious, George.

The picnic proved a grand success on our part. Every one of us enjoyed the sports and the eats.

The Canary Club is still holding meetings. They plan to have their last meeting on June 7.

Harry, our bugler has not been very strong the last few mornings. He has failed to wake the most of us. More power to you, Harry.

The mystery has been solved. It was at last detected who taught Annin to run so fast. Anyone wishing to obtain this dark secret can find out by asking him.

Potter, Lunsley and V. Wimmer returned from the track meet at Modesto last Sunday. They report having a grand time. Potter says they were sure have some mean stuff in Modesto.
