Multi-space meter unveiled

University Police unveiled a new, solar powered, multi-space parking meter this month in the H-10 parking lot across from Kennedy Library. The multi-space parking meter replaces a parking lot full of conventional parking meters and is intended to improve customer convenience. After parking in a clearly numbered parking space, customers simply walk over to the centrally located unit, enter their parking space number, deposit coins or use a prepaid meter key to purchase time (up to 90 minutes). The meter then prints out a customer receipt, and the process is complete. Questions or comments should be e-mailed to parking@calpoly.edu.
