EXERCISE AND HEALTH

"All work and no play makes Jack a dull boy" is a saying often quoted and has been found to be true. To prove this, I don't have to bore you with investigations made by health centers and the like, but by an observation that has been made here at school.

On Thursday, November 8, a count was taken, from the dormitory, of the boys who were out for some athletic activity after school; and out of the 81 occupants there were 43 on the field, either for football, basketball, or trying on their skates on the tennis courts. It has also been noticed that these are the fellows who keep up their exercise and do not rely upon their skates for some little exercise.

Exercise is necessary and a certain time should be set aside for that purpose. That is why the fifth period is used for such—to give every boy an opportunity to limber up and get exercise that he needs for his own good.

If you notice, the majority of them follows out for athletics take advantage of that period, as well as the town athletes. On the other hand, there are those who never need the exercises at all and are content to watch the others, and we wonder how many are the ones who "crash" about drill period.

However, with an increase in the minutes of recreation does our time on exercise grow and more and more of us realize, so it is in our own interest and advantage to make the best use of it. It is for the boys, and it is certain that more fun will be the result of their hard play.

EUNOLOGY TO POLY'S MILITARY PROWESS

As an unprejudiced spectator watching from the sidelines, I would like to say that Captain Hendrick and the Poly boys on the fine show they put on against Hart High.

I was present there for the Armistice Day celebration, and I was surprised, thrilled and proud of Poly. As usual, the band was on form, and the Poly boys on the field were fine. I could not see any showing of any organization at all. It was the boys and the fans that made a fine impression. As individuals, I would like to mention Lambie, Patchett, Mott, Harris, Hershman, Hurley, and many others. I had the privilege of walking around the stands, and every one there was happy and excited, and their marching was indescribably good.

When that one student belongs to several school clubs, each requiring a job, the burden was financially too heavy for some.—[Poly Optimist]

A girls' jazz orchestra has been organized by some co-eds of Manual Arts High School, Los Angeles. It has five pieces—piano, fiddle, trombone, clarinet, and one rhythm core. No, with congratulations to Captain Hendrick and with wishes for the future glory of Poly, I am—believe me,

Very sincerely,

The Chief took us around to the dormitory. He said: "I think Los Almos is a — good—good—place. I think it's a place that you can learn to do things yourself."

The football field was full of students, and the stands were packed. The band was playing good hard old football and the game was on.

The Juniors proved to be the best marksmen in Poly after a closely contested shoot on the range recently in which they ran up a score of 200 against 238 for the next highest. Young topped the school with 82 out of a possible 100. The results follow:
