MAY DAY PICNIC

Our School Play

Scriot, action, romance, mystery, and not a dull moment in the whole play! What more would you want than to see a production of this sort—and put on by your fellow students? Yes, "Seven Keys To Baldpate" has all these characteristics. It is a complete play with a high play and is to be the best of the plays shown in San Luis Obispo.

But of course, the gang having arrived at San Luis Obispo, went straight to the cinema. The day was warm from the start, and Company A left the field with the heavy equipment. The aim of this trip was to set up a job in line and to start the orchestra. The trip ended, the jobs were set up, and immediately there was a call for musicians. Those with charge of the culinary department for the day were Bill Manning, "Doug." The Junior class took second with 2d points, followed by the Sophomore class. Schmitz, who was second for boys, was easily won by Bunby. Umley came in second and third, and堃ing, for the Senior class. Reed came in second for the Seniors in the final frame. The win for the Sophomore class was confirmed by the Senior class. The win for the Sophomore class was confirmed by the Senior class. The win for the Sophomore class was confirmed by the Senior class.

After enjoying the sunshine, the party continued with more separation, the class decided that a swim would finish the day. The party journeyed to Ontario, where a football game was held, and a swim in the outdoor plunge were much enjoyed. About a o'clock they returned home, tired, but happy, and voted the day a great success.

Twelve Months of School

At a recent conference held in San Luis Obispo for the future of Polytechnic, it was recommended that a twelve-months course in agriculture be started. It was definitely voted that Poly differs from Davis in that the latter is a school of college rank.

The following is a report given by the committee which is looking forward to the future of Polytechnic.

"The California Polytechnic School should be maintained as a state institution of secondary vocational grade, and added to the teaching of agriculture and home making. It is understood that the term "agriculture" means all of these essential activities which are included under agriculture and engineering.

A strong academic course should be maintained with those co-related between the academic and vocational subjects.

The institution should be maintained on a twelve-months' basis, and the method of teaching agriculture is recommended."

"In order that the vocationally trained graduates may employ a close relationship should be maintained with agricultural organizations."

Mechanics Visit Shops

Last week Mr. Knott took his class to the Southern Pacific roundhouse to see the operation and machinery involved for their equipment. The class was interested and much was derived from this visit. The conclusion of the visit was that Lomay got too hot in the kitchen.

HUMPTY DUMPTY IS THE CHIEF OF POLYTECHNIC

Doctor Addresses Assembly

The assembly of April 25 with open heart doubled closed unions composed of U.S. Earl, a graduate of the school, and Fred Plummer at the piano. After a few announcements as to the annual school play, Mr. Knott introduced Mr. Kirkgald, who is a strong booster for San Luis Obispo Polytechnic. He spoke largely of the opportunities of which we should take advantage and the possibilities in the future. Another thing that impressed the audience was the existence of the school of Polytechnic. And they regarded this as a civic duty. In all, they talk was very interesting, and Mr. Kirkgald is a man he made very humorous comparisons.

Mechanics Visit Tanker

There has been a tendency for some not to be interested in the field of work under the guidance of Tuesday by the Mechanics Assemly. However, you cannot call this a "ditch" as it was an opportunity.

That afternoon the assembly was held at the Elmo Theater. There were some problems concerning their operation. In fact, it seems as if Knott-Consider did not overlook one detail as he made the best of the situation. The students had a chance to see this type of marine engine operated and how the construction. They were explained the different types of marine engines and their operation. In fact, it seemed as if Knott-Consider did not overlook one detail and answered any questions that were asked.

After this, the boys were led over to the ship where the local Police and Fire Department took part in the operation of the ship and a show that was put on before the students. It was a huge success, having a large audience in their favor.

The ship was a noted building and much was derived from this visit. The conclusion of the visit was that Lomay got too hot in the kitchen.

A VACATION VISIT

Vacation means in some, read to others, work to many, just a relief from school work. This means that a few were glad to have a taste of home life again, and the rest were satisfied with the change. However, Eugene Churchill chose to take an educational vacation. This enabled him to see many modern and old city life, which seemed to be in his height of glory with blooming flowers and buds.

Monday, Churchill crossed the bay to San Francisco where he made acquaintance with the different industrial enterprises. He was issued permits to visit any of plants or stations, and the rest were glad to have a taste of home life again, and the rest were satisfied with the change.

One thing in particular that Churchill wanted to see was a Benedict car tender. It had traveled back across the bay and in San Francisco as a feature of its engineering offices of that company. The car tender was built by the Atchison, Topeka and Santa Fe Railroad, and met many exponents with whom he talked.

Probably the most interesting part of the trip was the investigation of the most modern substation of the Pacific Gas and Electric Company, named the Pacolet substation. There was an electric power from the Pitt River plant which was stepped down to 50 kilo volts and distributed to various places. It is considered the most up-to-date in the country and is relatively modern in every detail. In fact, it even has radio communication to the control tower.

Another station visited was the Richmond substation, which is the most modern and has been installed with ample to show what lines are in use. The former eliminates all danger to the operator as the switch has handles only 34 volts, while the Pacific Diesel Engine Co. 110-kilo volt switch.

A vacation trip is not complete without a visit to the Richmond refinery of the Standard Oil Company. Churchill says that the plant has many of the latest machines. There were; The Richmond oil refinery of the Standard Oil Company (which would be a whole article in itself to tell about); the Parsons engines of the Pacific Gas and Electric Company; the Pacific Electric Railway Substation; the Pacific Gas and Electric Substation; and the Pacific Telephone and Telegraph Substation.

Churchill was interested in the Richmond substation of the Pacific Gas and Electric Company. The substation is located on colleague which explains why they call a certain street "Hayward Street." The Richmond refiner also has a large plant of the same and trusts that Poly will "do it wonderful."—Billy Corbin.

"Come on In. the water's great."—Alan Mori.

"Ah, let's go to Pl Silicon,"—Fred Flagger.

"What are you trying to do, make a M A in life?"—Lieu Hurl.

"Hey, you, gotta match?"—Dick Morris.

"I don't want to see another onion again as long as I live."—Billy Corbin.

"This is what I call education."—Raymond Haysly

"Girl, if you're going to Cuyamaca,"—Fred Flagger.

"How do you like my new girl?"—Lieu Hurl.

"Hey, you, gotta match?"—Dick Morris.

"This is the last time that you ever meet me in Cuyamaca."—Anton Breil.

"Rode water, ten cents?"—John Pike.

"Darn this Ford!"—Carlos Barrows.

"Let's go there a little show with our motors."—Avery Clemens.

"Seven Keys to Baldpate."—Belle Tomasini.

Brown: "What is the heaviest sentence for bigamy?"
Jones: "Two women-in-law."

Poly Chatter

Just because a girl smiles at you, it does not mean that she's trying to flirt with you. She may think that your face is funny.

"The way to keep the greatest things in life is to give them away. The more you lose your voice, the more you lose your mind, and the more you lose your personality."—Carlyle Henry Burdett.

"Since when has Volume taken to carrying around roundoat? Did you notice him the other morning in the study hall?"

"The youth will never fail and succeed, and in the process develop a strong character, must learn to grapple first with the tough problems, the disagreeable things in his way's work until he has formed the habit of always starting to the morning with the most difficult."

"Good Shoes That Fit

"You are what you eat."

"Soda water, ten cents!"

"How do you like your new girl?"

"Oct In. If you're going to Cayamaca."—Fred Flagger.

"What are you trying to do, make a M A in life?"

"Let's give them a little show with our motors."—Avery Clemens.

Athlete Moves Two Feet
It almost makes me laugh.
So wonderful the treat.
To see an athlete run a mile.
And only move two feet.

His Dream
Two friends were exchanging compliments regarding their respective girls' friends.
I hope we're not suffering from any hallucination that your girl is a raging beauty," sneered the elder.
"I say, 'Come Here.'"
"Pardon, I don't think you carry life insurance policy?"
"Oh, no,"
"I say, 'You darnfool, sign here.'"
"Seven Keys to Baldpate."

Sign Here
Charles N. Langmair tells of the methods of a blackguard agent who had written 500 applications in a year.
He was a hostile individual of the unpronounceable variety. A New York Life agent met him once explained his system as follows:
"I go out into the country in my little car.
I see Japanese boy in field.
I say, 'Can I help you?'
"What can I do for you?"
"I say, 'You darnfool, sign here.'"
"Seven Keys to Baldpate."

Beguiling
She: "Isn't it a nuisance, dear?"
Mother sent off a recipe for some wonderful floor polish, but I've mislaid it."
"I gave you, Norah?"
"I dropped my diamond ring off my finger and I can't find it anywhere."
"But I fixed it all right ma'am."
"I believe she did."

Discovered
Mrs. Petersby, "und I'm going to continue to hug my illusion.
"I don't know which letters I gave you, North.""
"From, at the post-office."
"I noticed that you've put the two-cent stamp on the foreign letter and the five-cent stamp on the city one.
"Oh, dear, what a blunder."
"But I fixed it all right ma'am."
"I was turned to a bright-eyed lit- tle Mme, and asked:""

Why Not?
"Did you mean those houses letters I gave you, North?"
"From, at the post-office."
"I noticed that you've put the two-cent stamp on the foreign letter and the five-cent stamp on the city one.
"Oh, dear, what a blunder."
"But I fixed it all right ma'am."
"I dropped my diamond ring off my finger and I can't find it anywhere."
"But I fixed it all right ma'am."
"I believe she did."

Cure of In-Kat-Natlon
In answer to an advertisement of a new patent on "How To Get Rid of Fat, A very flasky lady sent in one dollar for the required information. The answer she received was as follows:
"Get rid of fat."

New Patent
"The太太, mult7"

Who is Jo King?
"One, what could I do?"
"Ask you for one?"
"No, indeed—but if you stole one, what could I do?"
"His Father-in-law: When I get around to it I'm going to give you and Ann a fifty foot lot with a nice long banglaw on it."
"Mr. Juxted: "Fine! But remember, it's do's, not worth, ch Dustin."
"Really, Gladys, I could never marry him, in spite of his wealth; I don't like his ways."
"You silly child, never mind his ways; consider his means;"

IMPORTED WHICH

d. dimmer: "Yes, I looked it up in my check book."

Father (not versed in science) to son:
"Is that where you get your money, son?"
"From the radiator."
"Where do the ladies go?"

Enthusiasm
"I say, Give me a kiss if I ask you for one."
"No,indeed—but if you stole one, what could I do?"

Gladness
"An owl."

A Cockney, looking over a coun­try estate, was startled by a peculiar scratching noise."
"I say, old chap," he asked the agent, "what was that?"
"An owl."
"Yes, I know, but what was he doing?"
"London Answers."

BASEBALL

Arroyo Grande

On April 28, the Poly baseball nine played a game with the local high school. The game was attended by many students, and it was a great success. The team played a very pretty game until the eighth inning. Arroyo pitched a perfect ball and everyone backed him up. However, at this critical moment, something went wrong. It seemed that everyone went on the field at the same time, making several errors. Arroyo blew up and the Red and White team made five hits off of him. With this, and the several errors made in the first, the game was won. Poly played six runs that inning, making them a total of eight to Poly's seven. Poly failed to make a score the next inning. The score cards follow:

Poly — A. B. R. H. O. A. F.
F. Patchett 1, 1 0 0 1 1
Hammond 2b 1 0 0 0 0
Traver f 1 0 0 0 0
Oldham ss 1 0 0 0 0
Flugger If-ss 1 0 0 0 0
Hass p 0 1 0 0 0
Zanolli If 1 0 0 0 0
Carr f 1 0 0 0 0
Reed rf 0 1 0 0 0

Totals 8 0 0 0 0

Score by innings —

1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0

Totals

16 8 0 8 0 0 0

Arroyo Grande — A. B. R. H. O. A. F.
Martin 2b 1 0 0 0 0
E. Patchett 1, 1 0 0 1 1
Hammond 2b 1 0 0 0 0
Traver f 1 0 0 0 0
Oldham ss 1 0 0 0 0
Flugger If-ss 1 0 0 0 0
Hass p 0 1 0 0 0
Zanolli If 1 0 0 0 0
Carr f 1 0 0 0 0
Reed rf 0 1 0 0 0

Totals 8 8 8 8 0 0

Score by innings —
Arroyo —
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0
1 0 0 0 0 0 0

Totals

16 8 0 8 0 0 0

The lineup was:

Poly —
H. Patchett 1, 1 0 0 1 1
Hammond 2b 1 0 0 0 0
Traver f 1 0 0 0 0
Oldham ss 1 0 0 0 0
Flugger If-ss 1 0 0 0 0
Hass p 0 1 0 0 0
Zanolli If 1 0 0 0 0
Carr f 1 0 0 0 0
Reed rf 0 1 0 0 0

Arroyo Grande —
Martin 2b 1 0 0 0 0
E. Patchett 1, 1 0 0 1 1
Hammond 2b 1 0 0 0 0
Traver f 1 0 0 0 0
Oldham ss 1 0 0 0 0
Flugger If-ss 1 0 0 0 0
Hass p 0 1 0 0 0
Zanolli If 1 0 0 0 0
Carr f 1 0 0 0 0
Reed rf 0 1 0 0 0

The result of this game was 8 to 0 in favor of the Arroyo Grande boys. They had a good aggregation of ball players. The Poly team played perfect ball in the field. Every man played his position and played it well. When they were at bat they did not fare so well. The Arroyo Grande pitcher held them to two hits. These were made by Hammond and Reynolds. The loss of the game can be credited to the lack of hits by the Poly players. The score for this game would have been 0-0. In detail the game was:

Polytechnic —
H. Patchett 1, 1 0 0 1 1
Hammond 2b 1 0 0 0 0
Traver f 1 0 0 0 0
Oldham ss 1 0 0 0 0
Flugger If-ss 1 0 0 0 0
Hass p 0 1 0 0 0
Zanolli If 1 0 0 0 0
Carr f 1 0 0 0 0
Reed rf 0 1 0 0 0

Arroyo Grande —
Martin 2b 1 0 0 0 0
E. Patchett 1, 1 0 0 1 1
Hammond 2b 1 0 0 0 0
Traver f 1 0 0 0 0
Oldham ss 1 0 0 0 0
Flugger If-ss 1 0 0 0 0
Hass p 0 1 0 0 0
Zanolli If 1 0 0 0 0
Carr f 1 0 0 0 0
Reed rf 0 1 0 0 0

The loss of the game was the result of some excuses made. The Poly boys pitched in such a manner that the score did not know how to say "Ball."...
