The Asilomar Convention

Relations of men and women on the campus, and what should be going on at Poly. There were several opinions expressed as to what the current conditions at Asilomar were like. A survey of common interests was given at the meeting, as well as the results of a survey done by the Poly students. The lack of common interests was given as the main reason for the lack of social activity at Asilomar. A few suggestions were made as to what could be done to improve the situation.

Peace were talked about from all angles, but there was no definite plan for how to proceed. Anything about the subject was discussed, and it was decided that more work should be done on the problem. The meeting adjourned.

Asilomar was a great place, and everyone who has been there has said so. It is worth it. Everyone who has been there has enjoyed it. The meeting adjourned.

Honor Roll

The honor roll for the past six weeks was discussed, and it was decided that more work should be done on the problem. The meeting adjourned.

Farm Cepter Day

Owing to the Easter vacation on the week previous to April 28, 1925, the Junior Farm Center had to be postponed until April 28, 1926. This allows the students to get better prepared for the coming year, and many changes have been made in the program, but everything has been changed only to have a bigger and better day.

Everybody in San Luis Obispo County is cordially invited to come and celebrate with Poly's first Farm Center Day. Come over for a lunch, coffee and cream, and see the farm here.

Poultry

Poultry is a source of income, particularly for Poly students. This seems to be true, as there are many students who have been raising chickens and have sold them for a profit. The poultry course is widely favored, and there are many who are interested in it. The problem is how to get more students interested in the subject. The meeting adjourned.

Projects Pig Way

Some of the Ag students who have been raising pigs have sold them for a profit. The pork is now in favor of eliminating It from our diet. Of course, Poly should be interested in the subject.

Waste and Space

Polytechnic is a very important question. Everyone who has been there has said so. It is worth it. Everyone who has been there has enjoyed it. The meeting adjourned.

FAIR PLAY.

In the whole, the Asilomar convention was a great success. Everyone who has been there has said so. It is worth it. Everyone who has been there has enjoyed it. The meeting adjourned.

Asilomar March 10

The assembly was held second period in the gymnasium. The President called the meeting to order and went over the program for the week. The students were asked to be present for the meeting to be held on Monday, April 28, 1925.

MACHINES

This is an age of machines. What is there that we use at any time that does not have some connection with a machine to make or operate it. In past ages there have been times when scientists have chosen to call this an age of iron, and so on. The years have been divided into different ages, ages ago when metals were not known of, and ages when the people living at that time discovered the use of the particular metal, took advantage of their opportunity and so on. But doing this they increased their standard of living, though it was slow and gradual. Hence, and laid a foundation for the marvelous structure that we now look on for the present.

It has taken a great many of these ages for man to develop a machine or require it. But have you ever thought of this not only in machine but in both mechanically and mentally. If you think of it, you will be amazed to see what we have discovered. You have accepted it, we would still be pursuing our education, and have to learn the various things. There is no need for any of our so-called civilized nations, because here we have the mental background to build upon.

Our ancestors have given us a base to build our futures on, but are we taking advantage of it? Are we a marvelous one if used, but thou­ sand years have been wasted if not? Of course, one of us does not make use of this opportunity.

The time we are now living in could be well termed the Machine Age and it is but its very beginning. It is thought that we know many things and have made many great progress in the last years, but looking about at what we do, you know and the progress can be made realizations that we know little and there is much to be discovered. You need not worry about the wonderful things that are to come.

A savage taken from the wilds of Africa or any other continent when brought to the so-called civilized land could not, never could, never react the mental development at the average. But our people, even though it is not a part of our country, will make use of the resources that the forefathers, whether they were men or otherwise, have given us.

A savage taken from the wilds of Africa or any other continent when brought to the so-called civilized land could not, never could, never react the mental development at the average. But our people, even though it is not a part of our country, will make use of the resources that the forefathers, whether they were men or otherwise, have given us.

POLY CHATTER

Some of Poly's Alumni members are commenting on the Polygram. Some even went as far as to say Poly is that it be named the "White Bang".

Since the general order regarding regarding football is one of the subjects of conversation, it's a great privilege to see everyone in color. "Standing" has been exported to a degree that is wonderful to see. The Poly of today are now interested in athletics. Most any fifth period can see them playing the parallel bars and swinging on the horizontal bar. Hawaii shows has the same degree. So the Poly of Poly are now interested in athletics. Most any fifth period can see them playing the parallel bars and swinging on the horizontal bar. Hawaii shows has the same degree.

Disinterested school spirit is a bad and bullying for a school. Does anyone need to lie dormant? Parking letters on bills may be copied by services to bind groups together that otherwise would do it. It is a better and that we have taken advantage of it. By doing this they increased their standard of living, though it was slow and gradual. Hence, and laid a foundation for the marvelous structure that we now look on for the present.

Poor John Ivan!

John Ivan has fallen at last! We have always thought he was one of the brightest and most promising boys. Poor John Ivan.

The Dorm Club is planning on a special event. We can get tickets for the latter part of this month or the first part of January, if we might be tried too. If these student* here, the dorm and the student, think better of him, he might be tried too. If these student* here, the dorm and the student, think better of him, he might be tried too.

It Was Better Than I Advised the Sophomore.

It was better than I advised the Sophomore, and told them that consequences were all the book.

But now that discipline's a thing of the past, and things have happened both good and bad.

I've cracked not a smile, and have said not a word. For like the owl "I'm a wise old bird."

Young: "Stop that man; he wanted to kiss me!"

Rathbone: "That's all right; there will be another along in a minute."

Young: "There's a chap I'd like to see up at the city hospital."

Breach: "Why don't you go up and see him?"

Young: "I haven't seen him there yet."

La Verne: "We mustn't, the faculty have decided to stop sending parties.

Miller: "The next thing will be trying to stop the students."

Rae: "Is Don a loud dresser?"

Young: "Is he? Well, you ought to hear him hunt for his collar button."

Mason: "I have to go up for bureau drawers for my room."

"Well; we're in luck."

There is no underwear department."

It's a furniture factory.

"Rahmad: "Are they going to raffle it off?"

Rae: "When I came on the stage the assembly sat there open mouthed."

Ruth: "Someone, they didn't all own any."

Elder: "I'm off that girl, as she insulted me. She asked me if I could dance.

Hills: "That's no insult."

Kizer: "It was tine. I was dancing with her."

First Gold-digger: "Wasn't it wonderful the way the magician got that rabbit out of that old jersey?"

Second Ditto: "He hasn't got anything on me. Last night I got a Cadillac out of an old oil can."

Babcock: "When I borrow money I fix your collar for you."

"Then I'll do What I am told."

Thick: "Yes, very thick.

Dorothy Hoar: "Weren't those scenes cruel?"

Ellsworth: "How's that?"

Frederic: "I say it is history, that they paddled the Roman men."

Ahnul: "I've got a job in the undershirt department of a furniture factory."

"Rahmad: "You are spoofing me."

"Belle: "You look awfully cold out there at the end of the season."

Hill*: "That's no insult."

Elder: "I'm off that girl, she insulted me. She asked me if I could dance."

Marten: "Then some of our girls are surely humorous in their dresses."

Elder: "Yes, we have spoilt her."

"B-bcock: "They never expect it."

Hilla: "How is that?"

Babcock: "When I borrow money I fix your collar for you.

"But don't tell Eudora or you'll get heckled."

"Belle: "That's no insult."

Kizer: "It was too. I was dancing with her."

Things that are necessary: Radiolite lips rouge for dark nights. Collars that aren't stained by rouge. Girls who are on diet.

Freshmen that know enough to keep out of dark corners.

"Belle: "You look awfully cold out there at the end of the season."

Mason: "Hopefully! I'm am.

"He will come over here and I'll fix your collar for you."

Mr. Peteler: "Man is ninety percent water."

Lee: "And still these prohibitionists are not satisfied."

"Mother, may I go out to neck?"

"Yes, my darling daughter."

But don't tell Eudora or you'll get heckled."

Miss Chase (in history): "Why do I have to cut your victim's head off?"

W. Miller: "To make noodle soup."

Rae: "Alfred was held up by two men last night."

Margarita: "Where?"

Rae: "Alfred was held up."

Floresta: "Do you believe in the devil?"

Lee: "No: It's just like this Santa Claus business. It's only your father."

SPORT BRIEFS

No Poly-Fresno Break!
The report has been drifting about town lately that the California Polytechnic School and the Fresno State Teachers and Junior College are due no longer on friendly terms, due to the illness of two of the Poly players, and could not be avoided. As evidence of the truthfulness of this report we offer the following letter received by Mr. Agostin from the Fresno track, and which is self explanatory.

"February 28, 1925, Mr. A. P. Agostin, Calif. Poly, San Luis Obispo, Calif. Dear Agostin, Would like to know about the spread that we had broken relations with your school for the cancelling basketball games. Personally we were very much pleased that you did as it relieved us of a heavy financial obligation, and we were able to fill this open date with a team at home. We should have written you sooner, but have been tied up with other business and it has just been all about us."

"The report given to the newspapers about this time was to the effect that we had definitely entered the War Conference and that relations would not be resumed, but as it has been broken with several schools we have been competing with, and this was the only thing that I saw printed in the local paper. Since you received this letter, you have to be aware of this fact, for we are breaking relations, with anyone we believe is a bad policy."

"We are counting on you to send a track team to the Conference meet to be held in Fresno on Thursday, no doubt several of the teams will come in advance and witness this great event. If you are planning to meet your real track meet should be put on, nothing like last year.

"Well, Agostin, I trust that this will clear any misunderstanding you might have, and that we will see you some time."

"Yours very sincerely, Arthur W. Babcock, President of Athletics, Fresno State College."

Next Track Meet
The Poly Track Team will journey to Santa Barbara next week in the second Annual Invitational Track and Field Meet to be held by the State Teachers College. Fifty-seven medals will be given, including first, second, and third place medals for the relay. The medals are of gold, silver, and bronze, and are tied with attractive red, white and blue ribbons. Some of our underclass athletes ought to have a good chance in bringing back some of these medals back with them and chalk up a little more credit for the Green and Orange.

Interclass Rifle Match
Last Saturday morning the Sophomore Rifle Team turned in the highest score of the season thus far. The Sophomore Rifle Team turned in a score of 95 out of a possible 100. It looks as if he is going to win the meet, which Captain Dalee announced would be given to the man making the highest score. The shooting is done with a regular army Springfield rifle at 500 yards, fire and prone rapid fire. The Sophomore Rifle Team turned in the following scores: L. Erwin 95, S. Barrios 93, R. Anholm 86, R. Aberle 86, J. Markle 80, J. Lee 79, V. Aikman 75, J. McLean 73, S. Baerga 71, W. Lee 64. The total score for the team was 561 out of a possible 600.

Saturday afternoon the Junior Rifle Team shot and turned in the following scores: F. Reid 91, C. Davis 88, H. Perry 84, H. Asbom 83, J. Benito 80, and E. Miller 77. The total score for the team was 399 out of a possible 400. Both the Sophomores and the Juniors have battled in the Sophomore's score of 95 out of a possible 100.

The Sophomore's are expected to come out on top in this match as the Sophomore team is the only one left to shoot and they are not even expected to beat the Sophomores. The Sophomores are sure of the points up towards the coveted silver loving cup. If they keep up at the rate they have gone, we have every reason to believe that they will be given the trophy. If they keep up at the rate they have gone, we have every reason to believe that they will be given the trophy. If they keep up at the rate they have gone, we have every reason to believe that they will be given the trophy.
