How About a Turf Field? -
Polytechnic's athletic standing has been raised into the junior college class, and we are one meeting closer to a higher class than we have ever before played. As the need for new requirements is, it is fairly certain that better athletic standards will be maintained. For the summer of a new gymnasium, is to be provided. It would greatly to the present and appear at the comfort of the players if we could have a better gym. This is all in an impossibility. The idea has been rejected because the cost of the best promptly "squashed" the idea that we had for the new gym. To irrigate the field. Perhaps those who received a poorer diamond failed to consider that at the present time these three inches of water are discharged from the cooling system of the gas engine every day, and allowed to run to waste. 

A convention of all the High School Teachers' Association was held in the Polytechnic Dining Hall, Friday, June 11th. It was also decided at this meeting that the show was very well attended. Dr. Eastman had some samples of tissues affected with blackleg, and a disease prevalent among the cattle of Texas. The cause, symptoms, and treatment of both blackleg and anthrax were discussed by the doctor. Anthrax is of interest because human beings are susceptible to this disease. Vaccination, quarantine, and the elimination of predatory animals are some of the measures resorted to, to control these diseases.

As the need for new requirements is, it is fairly certain that better athletic standards will be maintained. For the summer of a new gymnasium, is to be provided. It would greatly to the present and appear at the comfort of the players if we could have a better gym. This is all in an impossibility. The idea has been rejected because the cost of the best promptly "squashed" the idea that we had for the new gym. To irrigate the field. Perhaps those who received a poorer diamond failed to consider that at the present time these three inches of water are discharged from the cooling system of the gas engine every day, and allowed to run to waste. 

Summer Activities

Despite the summer vacation, the wood cut at 5 a.m. for the sale of much activity during the next few weeks. The first week of the summer vacation will be available July 4th, and from this time considerable improvement work will be done on the campus.

New pumps will be installed in the new well, and the water system enlarged. To insure better fire protection all the fire hydrants throughout the campus will be standardized. Improvement work will be done on the roads and driveways. The awnings will be extended south of the Dormitory, and considerable landscaping in that area. The grounds will be tenders on all the main buildings and their grounds. There will be a total success from any angle. The school will be standardly improved. The money from the new school breakfast will be used for the new athletic accommodation. In the form of a new gymnasium, are to be provided.

Ag Teachers' Convention

A convention of all the High School Teachers' Association was held in the Polytechnic Dining Hall, Friday, June 11th. It was also decided that the show was very well attended. Dr. Eastman had some samples of tissues affected with blackleg, and a disease prevalent among the cattle of Texas. The cause, symptoms, and treatment of both blackleg and anthrax were discussed by the doctor. Anthrax is of interest because human beings are susceptible to this disease. Vaccination, quarantine, and the elimination of predatory animals are some of the measures resorted to, to control these diseases.

Take Your Time!

The first part of the week, under the direction of Mr. H. J. Tudor, principal of the Agricultural Education. The principal feature will be lectures and discussions on vocational agricultural work in high schools.

The last two days will be taken up by the meetings of the Ag Teachers Association, in which new officers will be elected and other business conducted. The program of the convention will bring their families, and accumulate their benefits on the campus throughout its connection with the convention.

The style of the convention shall not exceed 6 feet 6 inches. The other and vocal details concerning the numerical shall be filled by the convention, and awarded by it. The style of the numerical of any class shall be based on the convention shall not exceed 4 inches. The color and branches of athletics may, at the suggestion of the convention, be extended south of the Dormitory. The lawn will be extended. The money from the new school breakfast will be used for the new athletic accommodation. In the form of a new gymnasium, are to be provided.

Dr. Eastman's Talk

Dr. Eastman, a former Poly instructor, recently gave a very comprehensive talk to the farm management class. Dr. Eastman had some samples of tissues affected with blackleg, and a disease prevalent among the cattle of Texas. The cause, symptoms, and treatment of both blackleg and anthrax were discussed by the doctor. Anthrax is of interest because human beings are susceptible to this disease. Vaccination, quarantine, and the elimination of predatory animals are some of the measures resorted to, to control these diseases.

Senior "Ditch" Day

Tuesday, May 19, the Better Class held its annual "Ditch" Day, with much enthusiasm. The students were divided into groups of five, and each group was given a certain area to "ditch." The area was to be cleared of all vegetation, and the ditch was to be 4 feet wide and 1 foot deep. The students were to work until noon, at which time the ditches were to be inspected. The group with the best ditch was to be awarded a trophy. A large crowd gathered to watch the students at work.

The School Play

Poly's annual play, given May 14, was a success in all respects. It was entitled "Three Wise Men." The play was produced by the students, and the title was given by the audience. The play was a hit, and the students were very pleased with the result. The play was presented in the school auditorium, and the audience was thoroughly enjoyed.

The properties were all that they promised to be. The set was designed by Mr. Theodore Findley, and Mr. Theodore Findley, the star of the play, was the leader of the cast. The play was a total success from any angle. The audience was thoroughly pleased, and the play was given a standing ovation.

Dr. Eastman's Talk

Dr. Eastman, a former Poly instructor, recently gave a very comprehensive talk to the farm management class. Dr. Eastman had some samples of tissues affected with blackleg, and a disease prevalent among the cattle of Texas. The cause, symptoms, and treatment of both blackleg and anthrax were discussed by the doctor. Anthrax is of interest because human beings are susceptible to this disease. Vaccination, quarantine, and the elimination of predatory animals are some of the measures resorted to, to control these diseases.

THANKS OF STAFF

TO THE SENIOR CLASS

THANKS OF STAFF
 Ary: "It's Hadin, isn't it?"

La Verna: "What?"

Ary: "Where we are going."

Flores: "When Chester asked for a kiss did you give him any satisfaction?"

Dorothy: "Well—I hope so."

Robby: "I heard you were the belle of the ball last night."

Dorothy: "I guess I was. All the boys tried to win my neck."

Blessed be the tie that binds—it is loose enough.

Margaret: "Can you play Chopin?"

Ruth: "No, it is anything like Mah Jong!"

Albert: "There was a fire at your house, was there not?"

Dorothy: "Yes."

Albert: "I heard that you barely escaped."

Belle: "That's not so. I had it on my nighty."

Harry: "Was a hit."

He lied in myth and song;

Kath: When he was dying

He lied in bed too long.

It suspense got to heavens,

Blinked in behind the wire.

But when he joined the angel,

Their hands he laid in.

Charlotte: "And after the dance be

Whipped straight home."

Langenbeck: "How vulgarly orig-

The girl's".

Ho: "Why so sad, old egg?"

Be: "I had an accident up to the house."

Ho: "How come?"

Belle: "I meant to kill my wife but instead I hit the cook."

Margaret: "I skating hard on the feet.

Doni: "Not on the feet."

Miller: "Between dances she's with me."

Kato: "And where is she the rest of the time?"

Miller: "Against me."

Jack: "I seem to know you. You seem to have a familiar face."

Memory Expert: "Right. I learned you three dollars six years ago and you promised to pay me in a week."

We can't understand why the apartment in which charlie girls don their costumes is called a dressing room.

Father: "You'll have to quit going around with that girl. She's too wild for you."

Ben: "She's not wild. She makes a wonderful pet."

Young: "I heard you were sober last night."

Beverly: "It's a dirty slander. Don't believe it."

She: "Are you a fraternity man?"

He: "Yes, Upper Towner."

She: "At what college?"

He: "Harvard college."

Dr. Croad: "There's a fool born every minute."

Eliza: "Yes, but auton even things up."

Friend: "I see where your son lost his pipe at the big game."

Ath: "How foolish to make a lost pipe, but still it might only be E. C."

He: "Do you like Shakespeare?"

Ruth: "Don't do he go with you?"

Jiminy: "How did you—Is the black eye?"

Graves: "Someone hit me with a lap tomato."

Jiminy: "Do you mean to say that my tomato would give you a black eye?"

Graves: "Well, this one had a can around it."

"I take my pen in hand," said the Ag as he picked up a hug crutch.

Belle: "Two weeks ago I refused to marry him and he has been drinking steadily ever since."

Margaret: "That's Alf's trouble. When he gets no a celebration he never knows when to stop."

We hear that Bill Tarfield is trying to grow the egg-plants with the milkwood to get custard pies.

Miss Jordan: "Which is right, The girl began to walk home, or The girl started to walk home?"

Tryer: "It depends upon who she was."

Think before drinking. Afterwards you can't."

The Shal: "Hello, cutie, tired of waiting?"

Shelke Number Two: "Yess, you bet."

The Shal: "Well, sit on the curb."

Floretta (after first kiss): "Don't you think I'm awful?"

Leo: "Well, not so bad at that."

Mother: "That Jeppesen boy

Brought you home at a very late hour last night."

Daughter: "I'm sorry; did the noises disturb you?"

Mother: "No. It was the silence."

Miss Chase: "And when the Walter

Ralph placed his cloak at the Queen's feet what did he say?"

Miller: "Step on it, kid; step on it."

Margaret: "Are those two in the corner dancing?"

Doni: "No."

Margaret: "Oh."

Leo: "Do you think that a girl can learn to love before twenty?"

Leo: "No, too large an audience."

The most efficient method of mending a hole in the knee is to roll them down.

Good Ice Cream

"Where we live going.

Ruth: "Who does he go with?"
Paso Robles-Poly Game

The Green and Grange ball outfit thought they would like to meet the Bear Cats at Paso Robles so they took a trip over the grade and found the Bear Cats bounding around on the green turf up there. The game was pretty close, the score being 3-1 in favor of Paso Robles. Our tender-wildcats didn't seem to be able to get the ball. Johnny Carroll struck out five men and Brewer, the Paso-Polos twirler, struck out six. Three base hits were made on balls off Carroll and none was passed by Brewer. A two-base hit was made by Barchet, Paso right fielder. Their left side made the only stolen base. Traver and Brewer took their bases after being hit by a pitched ball.

Score by innings:

Paso A B R H O E
Poly 0 0 0 0 0 0 0 0 0 0
Total 0 0 0 0 0 0 0 0 0 0

Poly-Paso Return Game

The Paso Robles Bear Cats were very much enthused in their recent victory over Poly at Paso Robles and as a result very little encouragement was necessary to get them to come over to Poly and play a return game. They came and did better than before as the score 7-1 shows.

Jalas handled Carroll's slants very effectively while Higueria and Rodulfo formed the battery for the Bear Cats. Two base hits were made by Moreno, Poly's centerfielder, and Tardif. The only three base hit was made by Higueria, Paso catcher. A sacrifice hit was made by Traver, no stolen bases.

Two double base hits—Graves to Grines and Grines to White. Paso lost six on bases and Cali lost eight on. Two bases were made on balls off Carroll and one was made off Higueria on balls. Higueria struck out seven men and Carroll fanned six Marlines took his base because he was hit by a pitched ball.

Score by innings:

Paso 4 0 2 5 0 0 0 0 7 0 Poly 0 0 0 0 0 0 0 0 0 0

Total 21 7 8 2 9 2

Santa Barbara-Poly Game

The Santa Barbara State College baseball team motored up here a few weeks ago and played their last game of the season with us. The game was close, each team holding each other scoreless until the seventh inning when the Roadrunners brought in a run. Thereafter the Southern College scored in every frame. When the Santa Barbara outfit first took the field in their natty uniforms trimmed in green and red and rested off some fast, snappy warming up exercises, it looked like Poly was in for a good drubbing. But the score 7 to 0 shows that we were not beat as bad as we were expected. Jimmy Anderson, Santa Barbara's all-round star athlete, was the big gun of the day. He twirled for the Roadrunners and struck out fifteen men and allowed only two hits in the nine innings of the game. Graves, our short stop, and White, our first baseman, were the only Polytes able to find Anderson's slants.

Carroll and Isola made up the Poly battery and they both played an excellent game. Carroll fanned nine men. Two base hits were made on balls off Carroll and two were made off of Anderson on balls. A two-base hit was made by Anderson and a sacrifice hit was made by O'Reilly. Two stolen bases were made by White and one was made off Traver. An O'Keefe is the result of the 1 to 1 tie. Williams, Mr. Woods umpired the game.

Score by innings:

Santa Barbara 0 0 0 0 0 0 0 0 0 2 Poly 0 0 0 0 0 0 0 0 0 0

Total 30 0 2 27 1 1
