Thursday afternoon, It had been a problem*, cooking and meal planning as the spring Semester. In the cooking and meal planning departments there are sixteen enrolled, which is the full capacity that can be handled. There are too many students that are too young to leave home, and the work comes first thing in the morning, it speaks well for the advantage of the work for the students that are. Mrs. Braden of the State Board of Education, who is here this week for competition in the different classes for the state. There are no more unused hummirs in every class which is to be held on the campus-at an early date. The yell leader, H. H. Simpson, is doing his utmost to help Polly win the games but he needs and will bring support from the old line. You and your old pal brother or father for Uncle Sammy to the World War. Remember the men are fudging in Polly's face to the country and they must have chances to help them do it.

Mechanics News Notes

Frosh at Machine Shop are busy at chipping the blocks. Some are very careful in their chipping for fear of hurting that bigdoted finger. A few have learned to the square without spoiling three or four blocks.

POLY CHATTER

If you are thinking of entering the electrical field, graduate says that it is a new plow, and leads an antagonistic element that is not contributing to good discipline.

There are a great many Improvements. There is often hardly two
things it is making it will not be long before you reach the top. So If you have any of cattle, while Dorothy Hoare, post-

There seems to be considerable rivalry among several Poly sharks as to who among them is to be most

The Freemens have a remarkably poor job of filling the football field for the Alamogordo game. It would be better if some of them would devote a little more time and effort toward displaying their school spirit.

There is on the campus a very good example of what a Freshman should not be like. He is not a man of excellent ph ys-

Some of us have noticed Heavy walking around with a bloody nose. He and his friend have been hav­
ing loud conversations about their girls lately. Maybe they want to advertise it, because they haven't had one before.

We wonder what all the excitement was in front of the Dining Hall last Friday, and why Tiaman came in with a bloody nose. * * *

All electricity or power line installation, power plant maintenance, electrical armature winding, battery and igni­tion work, power line testing for defects. Teams out to regular practice.

There is always room for it all, no matter how many privileged characters around our school. At the number of boys that are at the Dormitory at all hours of the day you would think someone was teaching a class in looting.

The administration has made a remarkable attempt at designing the particular variety you desire, taking his medicine like a man he would think someone was teaching a class in looting.

We wish to thank each and every one of the Polygram Staff for their hearty cooperation in the publishing of the first issue.

The students have been prompt in their work, and their co-operation has been most very promising for the Polygram and will help with all that is all in their power.

It is not most remarkable what a large number of the football men turned out to the fifth period meetings or to the practice.

We had all a good time at the foot-
dance the other night, but some of the students, both Freshmen and upperclassmen were not overly good ex-
amples of proper conduct. Poly's have a reputation of being clean and wholesome, so let us all try and maintain that reputation in the future.

The administration has made a remarkable attempt at designing, go into the right.

We enjoy hearing one student try to do all the squeezing for a class. Some try to answer every question, no matter who is called upon. Probably surely knows his stuff in Spanish.

It is interesting to note the value of education as it is manifested in expressed ideas. Harriet Wright, Freshmen, thinks a little is a new of cattle, while Dorothy Hoare, post-

We say that the fact that he had to walk back. * * *

The administration has made a remarkable attempt at designing, go into the right.

Thanks to Staff

I wish to thank each and every one of the Polygram Staff for their hearty cooperation in the publishing of the first issue.

In particular I wish to mention the business manager, throughout whose good work we owe our good and enough advertis­
ements to run this year. She was ably assisted in this task by two of our Poly sheiks as to who among them is to be most

Harry Bowers (sneered): Those liars sold you an oven's worth of powder to blow them up.

Consul-General: Who was that bum I saw you with last night?

Doris Smith: That was my husband.

Doctor: I will examine you for fifteen dollars.

Coach Agust: All right, Doc; and if you find it, we'll split fifty-fifty.

Butler: Run upstairs and get my watch.

Fresh: Oh, wait awhile and it will run down.

Butler: No. It won't. There is a winding-staircase.

Jack Belcher: That, you remember you promised me five dollars if I passed in this school year.

Mr. Belcher: Yes.

Jack B.: Well, you aren't going to have that anymore.

Graue: Here It tells about a couple that got married after fifty years courtship.

Present: I suppose that the poor old guy was too feeble to hold out any longer.

Women's faults are many;

Men have only two—

Everything they say, and

Everything they do!

Al Young: I hear Heavy's been sick.

White: What's wrong?

Al Young: Last night his girl offered him honey and this morning he broke out with hives.

Mills: There goes a man who never hurt a case.

Dover: What is he—doctor, lawyer, or bookkeeper?

Just because an acrobatic has wrinkles is no sign it is old.

Curt. Druel: Some of your wash was jumping around on the line last night.

Coach Agust: Oh! that was probably my athletic underwear.

Unidentified girl at San Luis High football game: Hold them, Walter; I know you can.

Poly vs. Lompoc

Poly defeated Lompoc High School at Lompoc last Saturday with a final score of 41-0. Poly's team outclassed the Lompoc boys both in playing and size. Lompoc has a good team, however, and should put up a good fight against any high school.

Poly started off with a bang and scored a touchdown within two, and one-half minutes after the first whistle.

Poly had no trouble at all in going through the Lompoc line and always made yardage. While, Lumley, Reed and Gligg hit the line hard and gained yardage in almost every play.

In the first quarter Poly scored two and converted one. Score 15-0. Lompoc did a great deal of punting, but Poly was always in punt position. Harper went in for Langenback at tackle and Hughaton for Del Rio at tackle.

Lompoc went in three new men at the beginning of the second quarter. Gligg was hit and the beginning of the quarter and Miller went in for him. Poly then tried to pass, but was unable to do so. While went through center for five yards and fumbled. On a series of line backs Poly scored another touchdown.

On a screen pass Poly gained 11 yard for a touchdown. White completed the quarter with a good size lunch, but Poly was able to get free on the way.

Although the game was the first for each team, both did very well. The High School did well on wide and runs and passes but were not so good on line backs. Poly made good yardage through the line and wide and runs.

Poly and the High School have wanted a regular game together, and in this game there was a great deal of rivalry between the two teams. Both teams have previously been benefited by playing with each other. A great deal of talk was made last year about which school was better, so a game was held this year and decided the dispute.

To Lompoc and Back

We thought Williams had bought a steamer, but he says he was just trying to take Trav in a couple of yarda of a touchdown when Lumley carried the ball to within a

Poly won her first game of the season against the San Luis High School on Saturday. After being held out on the edge of the line, Poly came out on the big end of an 18 to 0 score.

Poly's team did not show up to such good advantage in this game, but they played a good brand of football. The High School has a very light but fast team, and should have a good season this year.

Pros and Cons of Poly's Team

Poly's team did not show up to such good advantage in this game, but they played a good brand of football. The High School has a very light but fast team, and should have a good season this year.

Baby Beef Arrive

Late Monday night of the 125 calves purchased by a group of students were brought from Guirick to trucks and arrived safely on the campus.

The boys are now busy making feed for the cattle. The remaining 10 head will be shipped from Ventura as soon as at the fattening pens are finished.
