San Luis Obispo, Nov. 5, 1925.

Labor Day

Everyone equipped in old overalls, floppy shoes and wide sombrets. Who were these few men? They were the boys who have been cleaning up the campus for Home Coming Day to be held here November 7.

Madame Clayton

Madame Clayton answered a number of questions which have been brought to the boys. Her answer was that the yearly cost which was secured by the Amalgola Club for their program period on October 23. Her assistant was a very fastidious and handsome youth.

Crystal glassing and cleaver stunts filled the period with laughter and no hard feelings were felt against Madame for her direct answers.

Perhaps Madame Clayton and her assistant may be two very talented people who are troubled with girls or anything such as the boys. Madame had been arranged by the Amalgola Club for their program period on October 23. Her assistant was a very fastidious and handsome youth.

Professor Gilbert Speaks

Last Thursday Professor Gilbert of the History department spoke to the boys who are interested in military affairs. Professor Gilbert is in the animal husbandry department at Davis, and he is considered an authority on beef feeding. He arrived Thursday morning and after looking over the beef projects he spoke to the boys from 9:45 until about 3:00 p.m.

The boys who are studying beef baby learned a great deal from Professor Gilbert's speech. They learned how they could raise the greatest and most economical cattle. They also learned what things were necessary for raising beef cattle, and the help of some of the boys. The boys figure that they will be able to raise cattle for the next six months.

Further Show Plans

Plans for the Littietown Show are rapidly being completed and several interesting items have been added to the program which was printed in this paper in a previous issue. The show is receiving excellent support from the town, and the county. As proof of this good work, Superintendent Malaby has now focused all the school children at 1:00 p.m. Thursday that they may take advantage of their free tickets and attend the opening of the fair.

Most of the larger ranches of the county are supporting the fair and the number of entries has reached about thirty-five hundred.

Killed in Accident

The Tolleson Ranch of Tulare very likely received as a gift of a prebowed Holstein, a calf that is expected to appreciate this very much, but—well, we do not know.

On October 24, Mr. Dunning and Fred Louis went to look over the calves, which were being fed by the polytechnic stock judging team. Of course, this was a good deal of work, and the boys were very happy to find that the cows were doing well.

Lieutenant Webb Here

Everyone knew it was Navy Day, but like many other holidays, we were preparing to let it go by without much attention. However, Doctor Crandall and Fred Louis had other plans. Lieutenants Webb and Mack are responsible for having the battleships which were being built in the Polytechnic shop, and these ships were to be delivered at Naval Island. Just the other side of the valley, killing the calf and slightly injuring Mr. Dunning.

Ag Laboratory

A new laboratory for the Agriculture Laboratory is now being installed for use in the agricultural work. The laboratory will be located adjoining the Agriculture Shop.

The laboratory will house equipment worth about $1,500, and is a great variety of farm tools and machinery.

The equipment which will be placed here is owned by the students and will serve as a demonstration room for local dealers to consult.

It is hoped to have a large amount of the machinery installed for the live stock show on November 7th.

Home-Coming Postponed

Due to the fact that Bakersfield no longer calls her game with us for October 31 and that Bakersfield has already attempted to obtain another game, Home-Coming Day has been postponed from October 31 to November 7.

This will mean that the Junior College Game and posted cards to all the alumni to be held here the last week in November.

On November 7 we will have the Junior College and as we have a well-known band this year we are hoping that the day will "go over big!"

More Catalogs Printed

The second edition of the school catalog is being completed and it consists of twelve hundred folio pages, nine hundred of which are not applied for.

Fifteen thousand were printed in the first edition and as these were all consumed in such a very short period, it was decided to print another edition, it is a good indication of the interest that is being shown in the school.

It is planned to issue a new catalog of which only twenty thousand will be printed.

Scout Paper Started

The school paper is now publishing a small four-sheet paper called "The Semaphore" for the Santa Barbara Division of the Boy Scouts.

The paper is in charge of Mr. Haase, and the printing is furnished by the various troops of the district. It is to be published weekly.

There is a lot of good material for the column, and we are all interested in the work that we know it will receive from the members of the district. The paper will be "in a real "live wire." We wish it all possible success.
THE POLYGRAM

The Polygram is a paper published by and for the students of the California Polytechnic School.

POLY CHATTER

A couple of the Freshmen girls think the Poly Shop is a joke. Langebank has developed another weakness. He wanders around all over and disturbs other people's studies.

It is really wonderful how many students remember to ignore Dr. Crandall's request to stay off the lawn in front of the Ad. Building.

Ralph Watson has quit smoking. He says he has a girl now who likes him better after he didn't smoke. He finally admitted that the cause of his sudden reform is Belle Tomsalin.

There surely were a bunch of casual last Labor Day, and consequently there are a number of new, but now and forever, students. With the cooperation of the students, the key to success is to maintain the benefit of the whole student body. The Dormatorium is open for the dorm student or student body functions, tell us that they know about it. It will certainly be appreciated by the faculty who are especially unappreciated because it is impossible for one man to hear them all. While a great many students can get several worthwhile ideas from their daily class contacts.

Let's all do our best to make this a big year for the Polygram. If everyone would take part, let us turn the key and go on through the door of success.

Patronize Advertisers

We are indebted to the advertisers of Poly of late for several things. They have been so generous in their various booster campaigns. We know that they appreciate our sports by buying tickets for the various games. This is the most important of all, is the fact that they want us to support our school, the Polygram.

When a good many weeks pass for a year of advertisement in the school paper, how many chances are to read over a few of the other articles and glance through the advertisements. Than when you go down town to buy something, go to a store that advertised in the Polygram.

The next time you get your Polygram instead of first reading the jokes, Poly Chatter, and then reading over a few of the other articles and glance through the advertisements. Than when you go down town to buy something, go to a store that advertised in the Polygram.

Assembly October 21

Dr. Crandall did not have an outside assembly that week because there were several important announcements to make. It was requested that students do not throw papers around, since they are little enough for the faculty to ask and be told to try to correct these bad habits.

With the expenditure of several sticks of dynamite, practically no physical effort, Vermilion and Student Senate met almost in unison to dig out the old dorm down near the end of the drive.

Mr. Agosti: How was iron discovered?

Harries Miller: I heard that they smoked it.

Kerving McMillan: I ate it! Blankety Blank. Aw shut up.

Harisis Miller: You're the biggest dunder in school.

Mrs. Rathbone: What dreadful language your parrot uses.

Mr. Rathbone: I'm tempted to campus you a week.

Harris Miller: I heard that they had two blowouts and engine trouble.

Miss Knox: What did the presiding man do when he broke an arm or leg?

Prisy: Shot himself.

Miss Wilmot (buying candy): Are Love Nests good?

C. Earl Miller: Yes, they usually are.

Dr. Crandall: Where does ham come from?

Pinky: Shot himself.

Wanted—A room for an elderly lady with gardener attached, where she can plant and potter around flowers.

Visitor: What does the chaplain do here?

Fresh: Oh, he gets up and looks over the student body and prays for the college.

Miss Knox: What did the presiding man do when he broke an arm or leg?

Prisy: Shot himself.

Miss Wilmot (buying candy): Are Love Nests good?

C. Earl Miller: Yes, they usually are.

There was a good sized crowd out and had a good aerial attack. There were a number of costly fumbles on both sides, but the whole game was well satisfied. This was Poly's first conference game. The Modesto eleven is one of the best in the valley, out of a pool with Chico State who was beaten 15-0 by Santa Barbara. Poly had a hard hitting, heavy line and a fast backfield that was good on punt returns and gained most of their yardage on passes. In the last half Poly reached a balance in their line and a fast backfield that were turning the ball to the 20 yard line. Poly punts out of danger with Modesto makes 8 yards through center. Modesto turned the punt to Modesto's 30 yard line.

There is a good profit in the business. We stand behind before we And all four if possible. I'll go for a bigger and better Block "P" Club this year. It would be a good idea if the two local clubs out in a body. This is what we like to see, the backing of the student body in selling the merchants and townspeople. We certainly will miss the service of Johnny. We hope his foot heals soon.

On soules we find two legs behind the scenes. We stand behind before we find the backing of the two behind the scenes. Ruth Smith: I'll go for a bigger and better Block "P" Club this year. Fred: 'Cause if you get one, the rest can do now days.

It pays to trade at BERKEMEYER'S MARKET. 1023 Chorro St. Phone B.

There are a good many new students and back it for all they are worth? I'll go for it. Fred: 'Cause if you get one, the rest can do now days.

The Poly football team has seen the roughest part of her season out of many injuries. The other day Johnny Carroll sprained his ankle and was taken off the field. The Poly goes on with its big lineup and then kicked. Poly gains more yardage on the line and carried the ball to the 60 yard line. Poly completes a pass on whose members have earned the official letter of the school in any of the four major sports. The club-takes a leading part in the school activities, a good many social events being given by it during the year. The boys who plan on marketing their men out, What's the matter, fellows? Come on out. Show your spirit.

THE POLYGRAM

SPOR T BRIEFS
Next Saturday Poly plays Santa Maria High here and as this is Home-Coming Day we want all the Student Body out for this game.

The Poly football team has seen the roughest part of her season out of many injuries. The other day Johnny Carroll sprained his ankle and was taken off the field. The Poly goes on with its big lineup and then kicked. Poly gains more yardage on the line and carried the ball to the 60 yard line. Poly completes a pass on whose members have earned the official letter of the school in any of the four major sports. The club-takes a leading part in the school activities, a good many social events being given by it during the year. The boys who plan on marketing their men out, What's the matter, fellows? Come on out. Show your spirit.

The Block "P" Club—What It Is
The Block "P" Club is an organization whose members have earned the official letter of the school in any of the four major sports. The purpose of the club is to foster athletics, encourage school spirit, promote better fellowship, and at all times to work toward a greater Poly-technic.

Narrowing the field to the second quarter, Poly passed and Modesto intercepted. Modesto made their yardage through the line and then kicked. Poly tried two passes and then punts.

Modesto completed several "passes" and then carried the ball over for another touchdown but failed to convert. Score 13-0.

In the fourth quarter Modesto got the ball up to the 15 yard line, but were unable to do a thing about it. Poly turned the ball to the middle of the field, where the ball.again was turned over for the last time of the quarter. The game ended with Modesto on the 30 yard line when the half ended. Score, Modesto, 7; Poly, 0.

Poly kicked off in the second half with the ball back 15 yards. Modesto completes a pass of ten yards and makes 10 more through the line. Poly carried the ball down to within 6 yards of the goal line, Poly kicked the ball back over. Modesto burked the line and carried the ball to the 50 yard line when the half ended. Score, Modesto, 7; Poly, 0.

Poly recovered on the 50 yard line and completed a pass and then punts. Poly completes a pass and gains yardage in circulation and about three times later. Who's the matter, fellows? Come on out. Show your spirit.

Enroll in a course in practical photography. It is the best way to make money as there is always a good demand for the best work one can do. Kodak developing and printing services are good, and you can do the work yourself except the developing. It pays to learn to do the work yourself, as the only way to make a living is to make your living by doing it. We stand behind our work, as we have been doing for years. We are able to give you the best work at the lowest cost. We are the only ones in the county who can do the work in a professional manner.
