Moonlight Hike

Stand back, boys! It's for girls only, and you think it won't be any fun 'cause how can just girls have a good time? Well, they not only can have, but they're going to.

The girls who plan to go will contribute twenty-five cents each for the purpose of purchasing hula hoops, marasmallows and lots of goodies to eat.

They will meet at the court houses at 5:30 from where they will be going up Dana Street to the foot of San Luis Obispo and on up as far as they can go before sunset.

Miss Knox is in charge of the party, and, as always, the girls are depending upon her to show them a good time.

Journal Work Started

The work on the Poly Journal has been started and it is progressing very well.

Chester Davis has been chosen editor of this year's edition and he states that this edition will be the best ever put out.

Chester has not called all his staff put will but very soon. The work will be done in the Print Shop the same as it was last year. This is a great saving in money and it gives the students in the Print Shop some very good practical work.

It is time for the students to start going along for the journal. Many will be needed and they are very easy to get for. Just think of the future if a few make snapshots of your fellow students and bring them in. A call has not been issued for these but everyone can cooperate to make the journal a big one.

Junior Rifle Tryout

Last Saturday ten Juniors went out to the rifle range to try for the rifle team. They will be held some time in the near future.

The trying out was held for first class in the 200-yard prone shooting. The four were: Keano, Yapp, Pickard, and Chappell. High men in the rapid firing were Chappell and Keano.

The scores of the Juniors were somewhat lower than that of the Freshmen, but the Juniors were shooting an average of fifty-three "bull's-eyes" instead of a ten inch black as the Freshmen did.

There were several shots made by the Juniors. They were long and true to the black to fall inside of a ten inch black.

We are looking forward to some good competition so come on, let's go, Seniors.

Some Juniors.

Turn Out Seniors

This coming Saturday is the day for the Seniors to compete for the civil rifle team. The Juniors were out last Saturday and made some very good scores.

It is up to the Seniors to get out and show them what they can do. The shot next Saturday will not be for record but just for a place on the team. The team will be composed of the eight highest men in the shot.

The competition shot will count towards the annual class trophy. The Seniors have a good chance of winning the match. There are many good shooters here: Louis Osh, Louis Miller, Hansen and Anholom.

Miss Knox is said to have planned that the next Senior turn out will begin about nine o'clock Saturday morning and it was expected everyone there at that time. Come on out Senior and show them what you're made of.

Enrollment Increases

Miss Chase has been keying away during the last week that it is almost impossible for her to squeeze in time for her History and English classes. It is steadily increasing somewhat, added to the changing of schedules, and the making of reports, has been quite a task for her.

His new students have arrived re­

Two of them are from San Francisco; the others from other points north.

Many more students are expected to ar­

rive almost any day now, all for the betterment of Poly.

Orchestra and Band

The orchestra of Poly has earned surprisingly. At the opening of the first semester there was something like one-half as many as there are now.

A part of the orchestra will be used to play for the operetta to be given in March.

Orchestra Band plays at all of the base­

ball games and not only helps to ad­

vertise Itself.

These many things are all good purposes of buying wieniea, buna,

College Education

"Should I go to college or not?" is the question that many of us ask ourselves. By all means go if you can. Many of us have the chance to go, have parents who can afford to put us through, and want us to go, but we do not take the opportunity.

"Well, what will it do for me?" you ask. There are many benefits to be derived from a college education. These benefits are largely to you, but if you work hard and benefit by it, you will benefit others. Of course, you have to work, but don't make remarks about not working; you might just as well get out of them. If you are not in college, California, The University of Southern California. There are many students at the Polytechnic School who act about ten years older than their age. To see their hair being cut off, you would think they were not out of their teens.

When a student gets up to say something, he may act like "a kid dah" as they can. Another thing; when Captain Deuel appropriated a small nail file: it's a time for the psychology major to come in and say something about Claude Duvall's self-respect among our rivals. The latest change made in the dormitories is that Watson and Grot are now rooming together.

"Well, what is it, then?" asked the rich Captain Deuel. "Why is it that Keeno Jumps under the track every time they make a pass?" We suspect that he is the kind of person who is sensitive about his figure, and he serves his purpose of upholding civil rights better.

If your parents have offered to put you through college, you had better fear your refusal. You will never regret it, but you are apt to be let down later. Too many of us have been let down by ourselves.

"No, I'm not interested," you say, "I am going to work and save my money." But you may be interested in the field of business; you will find opportunities there.

Why is it that Keeno Jumps under the track every time they make a pass? We suspect that he is the kind of person who is sensitive about his figure, and he serves his purpose of upholding civil rights better.

When a student gets up to say something, he may act like "a kid dah" as they can. Another thing; when Captain Deuel appropriated a small nail file: it's a time for the psychology major to come in and say something about Claude Duvall's self-respect among our rivals. The latest change made in the dormitories is that Watson and Grot are now rooming together.

Why do beans go up on Mill Street every night after basketball practice? We suspect that he is the kind of person who is sensitive about his figure, and he serves his purpose of upholding civil rights better.

The dormitories are second only to the Massachusetts Institute of Technology in size. There are many students at the Polytechnic School who act about ten years older than their age. To see their hair being cut off, you would think they were not out of their teens.

The latest change made in the dormitories is that Watson and Grot are now rooming together. The dormitory is very thorough. There are many students at the Polytechnic School who act about ten years older than their age. To see their hair being cut off, you would think they were not out of their teens.

A man was recently fined for flying a kite. It's only right of course, he might have winged a piece of stay writing.

We've all heard about the girl who had to swim home from a motor boat ride, but the girl who parachutes back from an aeroplane ride is the one who look up.

Teetler (to Bill Lee): Now tell me the name of an insect which is first a tank and then an aeroplane. Bill: It's the caterpillar, which changes into a butterfly.

Our idea of the height of aeronautical dare-devilry would be Ben Turpin, stepping hop-scotch on a banana skin strained wing of an aeroplane two miles up in the air.

Young man (to fair clerk): I would like to see fifty feet of your hose. Clerk: Hey! What do you think I am, a centipede?

Andy Miller: What are those red spots on your nose? Dr. Wilder: Glasses, my dear boy, glasses.

Andy M.: Glasses of what?

THE POLYGRAM
HEADQUARTERS FOR
Films, Kodaks, Parker Duofold & Waterman Fountain Pens
Poly Downs Santa Maria

The Poly, quarter added another victory to their list when they defeated Santa Maria boys and girls to go for the whole game. Coach Agouti started the game with Lumley, Traver, Lee, Varian, and Carroll. They played strong and were high point men of the game and showed up to good advantage as did the rest of the players. They seemed to know where the ball was to go and played accordingly. Another thing that was noticeable was the fewest fouls than in the previous game with Atascadero.

The second team went in and proved themselves able to handle themselves. They were in running up a few baskets. The ones who went in for the second team were: Irwin, Spindola, Hugestion, McMillan, and Miller.

The game was refereed by Coach Nander of the High School. He did very good work and his services are appreciated.

There was a large crowd in attendance and everyone seemed to think the game very good. By defeating Santa Maria twice in basketball, we have won our defeat in football.

Poly vs. Atascadero

Atascadero High School went down to defeat Saturday night, January 17, at the Winter Garden, in the time of 35-10. The score should have been in favor of Poly, but on account of so many of the players trying to play football, it was not.

The game started out very meekly and not very interested with Atascadero starting first. Poly then started to get going and rang in a few baskets, but everyone seemed to be playing a slow game. In about five minutes football tactics started and fouls were called on Atascadero andPoly, one right after the other.

Lumley, Traver, Lee, Carroll and Varian started the game and played well. At the beginning of the second half, Irwin, Spindola, Hugestion, Miller, and McMillan went in and played well, but could not get out from fouling. The starting lineup then went in and Varian was asked to leave because of the few personal fouls. McMillan went in for Varian and then Hugestion went back for McMillan. In the last few minutes of play Lima, Spindola, Hugestion and McMillan went in.

There was a fair crew out for the game. The band was there and their music was very much appreciated. In the future let's all turn out for a game because it costs money to bring teams here. Let's get in and support the teams.

Basketball Trip

The basketball team is leaving Thursday morning in favor of basketball, we have won our defeat in football.

Poly Wins From Templeton

Poly, by defeating Templeton Monday night, January 12, can consider herself as basketball champion of the county. The Templeton High School has a good fast team, but rather small sized men. The Poly started, and fouls were called on Atascadero in the next of the game. The score at the end of the first half was 15-4 in favor of Poly.

The team was handicapped by sickness and colds of several of the players. Lumley was not feeling well and only played a few minutes. Varian had a bad cold but played a good game. The starting lineup for Poly included Traver and Spindola, forwards, Lee, center Varian and Carroll, guards. They played some fast floor shots and it was a good passing game. Lumley went in for Spindola in the second half and played a good ball game.

In the second half Hugestion went in for Varian and Spindola for Lumley. Varian, Lumley, and Irwin were in the game in the last quarter.

Poly has defeated practically all of the boys and girls in the county except the local high school. But the local high school is led by Jack Holmes who in turn was beaten by us, so we can consider our team as the best in the county.

One thing that was very noticeable was the lack of Poly students at the game. The band had been supporting the game, but not so with the student body and town people. We need money to get the Winter Garden so let's do better at the next game. The next game will probably be in February fifth against Ventura Junior College. Let's all get out and support the team at this game.

The Poly basketball squad began a very successful season by winning five games and losing none so far.

All of the opposing teams, so far, have had a hard time trying to keep Lee and Traver from making baskets. These two men are very good and have a fine future before them.

The boys have been showing the right spirit in coming out for basketball. There are a good many men out and they give the first team some very good competition.

"Red" Grange finally got a coast team that was better than his and met a good defeat at the hands of George Wilson's team by the score of 14-9.

The "Frosh" have been putting it over on the upper classes in the handball tournament.

There is plenty of action in the class lately as there is going to be inter-class football this spring and as it looks now, one will have a chance against the "Frosh" with such men as Hankerson, Sparks, Wm. Harper, Sinclair, Rollins, and Demarest for a line up.

We would like to see more rooters at the games than there has been. Come on out boys and girls, show your school spirit.
