Ferry. W. Miller, and C. Davis.

Hansen did especially well with a score of 97. He made the heat score of any of the Jolly Speakers lived up to the reputation its members hold.

While they were enjoying the hot pups, the installation of the comets was completed. If all plans carry the school will have a complete rusher of those present and to the future. To do well in the competition, each member must have a working knowledge of their material and commercial interest are growing so rapidly that at present there is little or no attention being paid to training mechanics. A well instructed and interested public, we may expect a great deal of them.

Many scholarships are given to the children of the family to secure work. The schools are faced with the problem of finding a way to help the children get a better education than they had in the schools of their parents. It is upon a Saturday.

The exercise will do you good and you won't miss the small amount of shoe leather yarn off.

**Separating Grain**

The Agriculture department is the center of our attention. Our first offer is a machine which is the wrong kind of a machine. It is a separator for alfalfa and the machine must be installed in the dairy for use within a short time.

**Dr. Crandall Goes South**

Dr. Crandall left Los Angeles on March 23, on the annual convention of Principals of the California Institute of Technology. He will be in the south the entire week. Dr. Crandall is on the program for a talk both at Pasadena and at the Santa Barbara State Teachers College on his return. When in Santa Barbara he will talk on the industrial phase of education.

**Keep Off The Lawn**

It is surprising to note the number of students who remember to ignore Dr. Crandall's request for them to stay off the lawn in front of the Ad. Building.

Students, wake up! That lawn was planted there to beautify the school and you are supposed to look after it and give it a chance to be beautiful.

We have found through experience that the grass is nearly all walked off where students have been and you will save your count and just cut across to save a step.

The next time you start to walk across the lawn, I would like to have you consider Miss Jordan's request and walk around it.

The service will be just as good and you won't miss the small amount of shoe leather yarn off.

**Miss Jordan III**

It is the third letter of the illness of Miss Joan Jordan. Miss Jordan was taken ill last week of school and left here, and the first letter was not delivered. Miss Jordan is taking charge of all of Miss Joan Jordan's classes while she is away. The reason for this arrangement is that Mr. H. B. Sherman has had a wider experience, a better training in science and engineering, and we are fortunate in securing his services.

**May Day Picnics**

Lately we have met that extreme weather has been enough to keep most of the students from going out and picnicking. But after much discussion, we have decided that the picnic shall be held.

The weather is fine and the time is right for a picnic. The temperature is not too high and the wind is blowing.

We have arranged for a large number of students to attend the picnic. There will be enough food and drink for everyone.

The picnic will be held on May 5th, at the place indicated on the map. We have arranged for transportation to and from the place.

Please bring your own lunch and enjoy the day. We hope to see you there.

**Aerial Conference Held**

Aerial conference was held to discuss the future of aviation. The conference was attended by bankers, manufacturers and representatives of all the large companies involved in the field. The conference was interested in the future of aviation and the possibilities of selling tickets.

**Dr. Crandall's Visit**

Dr. Crandall is on the program for a talk both at Pasadena and at the Santa Barbara State Teachers College on his return. When in Santa Barbara he will talk on the industrial phase of education.
Respecting School Property

Should school property be respected? I don’t think there’s a doubt in anyone’s mind what the answer is. We all know that something is made just to be not destroyed. Then why do we unwarily mar and destroy a property that really means a great deal to us, more than we can possibly realize?

Why were schools built? Of course we know that they were built for the education of the younger generation. Why does the younger generation need these schools? It was not so long ago that some of the older generation were not educated. The gadgets and conveniences of our modern age have been added onto all the other natural advantages this beautiful country has to offer. I just stop to think a minute what that would mean. It means that we would not be able to make of our own laws; therefore some of the laws which we now pass would not be a thing as true American we would expect. We would not be strong, happy, safe, healthy nation.

It probably enters your mind now, when looking at the respects for school property? It has just this: If you take or use something, whether it be desks, tables, chairs, tables and walls of school, or the very latest in radios or their latest in radios and furnishing. This is a new school or your old school, for the purpose of educating some people who do not already have the opportunity, or alas it is only the same thing as the education of age of your year. We all want our school to be respected. It must be respected by others and make school year to year. To respect our school, thus increasing its standing in the community.

I am sure we are all of the opinion that we want schools and need good ones, as well as the one that you try not to be disrespectful. We have been in the past, and have always in the past.

Politeness

How many know the correct meaning of courtesy? Courtesy means giving consideration to others. Therefore one who is courteous should be expected to respect their wishes and consider them at all times.

One who is well-bred and courteous always does his utmost to be kind and respectful to his companions. For instance, when he meets a stranger instead of drawing away, and regarding him he is making every effort to make that stranger feel at ease.

Politeness—too many are unaware that politeness should be used every time and in every occasion. That is ridiculous and if we use the meaning of courtesy we would all much happier.

Polly’s Campus

Polly’s campus is one of the most beautiful places this side of pleasant. A large, grassy area of the hill–on the hillside, facing west. Along the hillside, facing west, there are or three main buildings. These buildings are usually located on the tops of the buildings.

In the old days, Polly students used to overlook the massive city of San Luis Obispo. Half block running on the campus, add to the scene, as well as the view of the ocean, which can be seen by the trains are amazed by the train. These trains are the backbone of the institution.

The beautiful green fields

Polly Chatter

At Hadstrom says that they didn’t play fair with him. He says they should have notified him two years ago, so they could have a mustache and beard raised for the first.

It is rumored that two aspiring Poly “muckers” went to the Ellsmere school grounds with two of the fair seas. The two lights on the grounds were extinguished by the two homes and darkness seemed supreme. Suddenly someone appeared on the scene and the party broke up immediately.

Said Larry Henry and Glen Charles for particular modern.

Some time ago there was in this paper a mention of the dorm room giving to Glen, Fred’s Quirtm and Otis Holchman were put in charge. Otis and Fred were not in the interest there will not be this year.

You should see little Al Hadstrom in his belon overalls.

During the Easter vacation most of the boys went home. Some of the boys future appeared here. On account of the stormy weather most of the week was spent in the not playing pool.

When the expedition occurred at the tank farm during vacation Jeffesson and Jeffesson put in a tank. There was a trunk on it the party was there and the trunk also.

What was the greatest excitement at the girls interest basketball games! You could not give her any information about you want to know in regard to.

Larry Henry ears sure throw a great line, but he never gets any thing enough to hit. Well, one poor fish did.

Glen Charles, Larry Henry, Charles Demarest and Lewis Thorpe has quite a time while visiting in Los Angeles. Their first night there they spent in the most of the sorority houses near Glenn’s. From reports they party while there and had a very good time.

New Preacher: Say little boy, do you know where the boys go when they go to church?

Wilton Miller: Better life I do!

Down back of the old sawmill.

Mother: Why in the world are you feeling so down at the moment? Thorpe: She’s just swallowed my dinner and I’m trying to raise the dough.

Larry Henry and Berneal H. seem to be the type to become well acquain¬ted. They have been seeing each other quite frequently.

Charles Demarest is now having quite a time with all his coeds. He has to go to church every Sunday, but the last time Wilbur Griffith wanted to see You H. in the dark room.

What is all this about “taking the air”? We hear that quite a number of students are afraid to walk.

We wonder why Wilbur Griffith wanted to see You H. in the dark room.

Another run out of Fernando Alba’s Ford cut-down sedan. It was the Ford to play on uke¬lele on back of the car. The car was fixed around a corner. Schmidt fell off and was handed out of the car. He’s still in the same condition.
There are too many students to
enjoy these days.

The mean WHAT?

No; I was almost killed.

No; I get up on the wrong side of the

bed.

You're not superstitious, are you?

No. But you see it was an upper

bed.

Did you fix that fire?

No. I left it flat.

Old Lady: Poor man. Is there any

way to get rid of those lice?

Tramp: Dat's easy. I take a bath

in the sand an' then I rubs down with

oil. But nobody cares.

If you do these things I bet a dollar,

you'll graduate a Senior like you

ought.

Judge: Are you married?

Jwmb: I'm married.

Judge: Who did you marry?

Jwmb: I married a woman.

Judge: Did you ever hear of any­

one that didn't marry a woman?

Jwmb: Sure, my sister she ha

married a man.

**Poly Swamps Local High**

Poly's baseball team swamped the local high school baseball team, leading to a close game that was exciting for the crowd.

**ICE in RIGHT**

Babcock's car burns early morning tire at creamery. The fire was reported about 2:30 a.m. Several cars were damaged, but no one was injured.

**Babcock's Car Burns**

The fire was reported about 2:30 a.m. Several cars were damaged, but no one was injured.

**ARROYO GRANDE**

The Poly baseball team visited Arroyo Grande Wednesday afternoon. The game was played on a beautiful day, with the sun shining brightly. The Poly team was led by their experienced lineup, which included some of the best players in the league. The Arroyo Grande team was a tough opponent, but Poly's batting and fielding were too strong for them.

**POLY LOSES TO PASO ROBLES**

Poly's baseball team lost its first game this year to Paso Robles by the score of 11 to 4. The players seemed to be a bit too relaxed and were not able to react well to the unexpected challenges.
