Another Triumph

With the presentation of "Adam and Eve" the student body has added another triumph to its list of successes for this year. The play was presented at a very good house at the Elmo Theater on May 11. The entire cast consisted of 30 students and the play was very well received.

"Adam and Eve" was well received by the audience and was a great success. The acting was excellent, and the sets and costumes were well executed. The play was a great hit with the students and was well received by the audience.

W.M. excellent. He was the fitted cast. Harris Miller and Shirley Dunlop presented of the Scotch Lord. Tender character which is rather unmost naturally perhaps of the entire group. Jack Babcock to the part and put it over biff. Mary Abbie, the remaining members of the school on May 17. In behalf of the Association will entertain the school with a dance in the W.O.W. Hall or in Poly Grove. Block "P" Club will enjoy a barbecue dinner.

Coming Events

Due to the fact that special activities of interest to the student body will be held at Poly, the Polygram goes to press to wish the students of Poly a pleasant and more important of the coming events.

The "Men's" and "Women's" Senior Banquet which will be held this year at the Atascadero Inn.

Thursday evening, May 15, the seniors of the School Class entered the Polygram in a big way! The school on May 17 is held in behalf of the Senior Class. A dance in the W.O.W. Hall or in Poly Grove. Block "P" Club will enjoy a barbecue dinner.

Mechanics Trip

The course in farm mechanics this year is a great improvement over that of previous years. This is due to the efforts of Mr. Duming, one of the head instructors of the course in farm mechanics.

During the course of the year, there has been no shop for farm mechanics, but this year the students are given three buildings, which were not in use, to a suitable and efficient farm shop, and a shop for farm mechanics. The shop has four parts: a classroom, a blacksmith shop, and the main shop, and has facilities and space for repairing all types of farm implements and tools. The students are responsible for all work on the farms.

Wilt Miller in the roll of Adam was very successful, and Charlie Miller in the part, and to put it over big. Mary Hughes as Adamina was delightful and deserves much credit for her work. Mervin Smith in his part of the elderly Mr. King, was quite natural. The roles of the opera, Jack Bacheck and Ada Smith Wiltier, and Mrs. Clinton de Witt, the socialized influentially coupled with the story most naturally perhaps of the entire cast. Shirley Dunlop as Uncle Horace und Aunt Templeton, Shandoti und Paso Itohles the woodland birdies. A great deal of energy was displayed how much effort and obtained very good results, from the size of the crowd.

Next Year Prospects

Already the prospects for next year are looking bright. Ward has been received from the students who are planning to sit in Poly's big high school, without any change in the enrollment as far as the results of the course are concerned. They will find new ideas over what they want but the students are keeping their work in the valley. These boys play football and all the other football team, which sounds good for football.

Professors Visit

Professor D. M. Washburn, Associate Professor of Chemical Archaeology at the University of California, was on a short visit to the school on May 17 to behalf of the University. The visit of the professor was of particular interest to archaeology students who are attending the school.

Senior Ditch Day

Last Friday, the seniors held their annual ditch day. At 9:15 sharp they were here at school. The students for Seniors for the happy playground, Matisend Lake. After having arrived safely, a test and violin baseball game started. During the game, the girls showed their ability as future nurses on the "No Les Legacy. After the game everyone went swim- ming, and the girls were in good spirits. The men numbered members prepared the barbecue. At the barbecue, Mr. and Mrs. Wilt, and Santa Margarita rock, cracker, and the members of the faculty agreed that there was anything dirtier than a barbecue it was a rock crusher. The business of the day being done, they went next to the Big Lake where there was an enormous number of ducks. The water was so calm, and boating were enjoyed. Shortly before five o'clock Miss Minn and Mrs. Knott arrived with the girls. The happiness expressed was staggering. More swimming and boating was enjoyed and this, with a baseball game and swaying, filled up the time until the barbecues were had. Then the main sport was hunting up places enough to go around. Although a little short on trims they surely were long on eat. The barbecue, coffee and beans were prepared and enjoyed in short order, watching for their being appreciated.

After the supper was finished the circle broke up into smaller parties that went boating or walking, some not preparing to settle down. The evening was very pleasant and all reported so. The meeting adjourned about nine o'clock.

To Conference

Mr. Warren, W. Scott, N. H. and Mr. and Mrs. Cunningham attended a conference of great importance to our aviation program in Los Angeles on April 30 and May 1. The conference was held in the Alexandria Hotel and was composed of representatives of the Chambers of Commerce of various countries throughout the state.

The purpose of the meeting was to awaken the interest of individual citizens of all countries in this exciting new science. The conference included various of the best known foreign experts in aviation.

At the conference, many interesting speakers and speeches presented. Among these were various general aviation, the advantages of western aviation, the effect of publicity on aviation, landing fields and other equally interesting and important topics.

The conference was attended by many representatives. Mr. Tantum talked with the commandant of the Section of the Western Division in connection with securing some army planes. The commandant agreed to use his influence in securing the planes.

Senior Party

Thursday evening, May 15, the girls of the Senior Class entered the Polygram in a big way! The school on May 17 is held in behalf of the Senior Class. A dance in the W.O.W. Hall or in Poly Grove. Block "P" Club will enjoy a barbecue dinner.

Dorm Things

Among the entire Dorm Club spent the weekend at the Photo. Captains had to work. In preventing fights and other Dorm activities.

Kawena came to Andy the other night with the entire Council and asked Andy for her tonight. She came to Andy for her tonight and came to Andy for her tonight.

Sapphire is playing the mandolin. It has four wheels and a gear shift.

Wilbur Griffin, the dark horse, has turned out to be quite a student. He has been seen several times talking in the hall. Keep up the good work, old man. You may not be a scholar after all.

There are cutting the last card school is out. The Freshmen have their calumets not so bad and they are very red.

The Ag boys from the Dorm have gone on a trip to Las Angeles to sell their heads.

The football fellows got so ambitious they forgot to come to the party Friday night.

Jimmie Simpson is going strong now, his main ambition is to be a student and he is turning out to be a married man.

Johnnie Baxter and Neyman Pickard are working along the same way. After a series of the shelter feet.

Johnnie Mitchell has been on the field. He is on the track of his own feet. He is on the track of his own feet.

You Time Valuable?

Your time is valuable only in its use. Time to young men and women who worked hard for four years and after four years to take their heart among the alumni of Poly. It is a great feeling to graduate from a school after four years and after four years and after four years and after four years.

The diploma is not the only thing we get. We gain the respect of our friends and acquaintances. We have received a greater share of life and have found out that the will to succeed is the only thing we can see.

The two Ness will make a success of him or her self.

The nation has received many heroes by climbing a mountain. We start on a comparative easy path, and the climb seems easy.

At times it takes a great deal of work and exercise.

Many men and women have said that there is nothing, and there is never a safe and sure way to getting exercise and getting those in red and blue. Even if we can't reach the peak of the mountain, we can reach the top of the peak at the rank of the mountain and keep climbing.

The way is rough but we can keep on climbing.

The road may be long and winding but we can keep on climbing.

The road may be long and winding but we can keep on climbing.

We are all thinking of taking up a collection to buy "Web-Pest" a pair of good shoes.

We all see that Jon is up to his old tricks again. robbing the cabbie of his money.

Keeno has better watch out for Lou. She is now the shield of the club.

Keeno surely had a swell time at the Thurua. Some little boy speed. "Well, brave Lou, don't let him get away from you, did Joe.

We wonder why Yvette changed her name. She is now the princess.

We wonder if she is true to it. She is a big liar. She said that she was going to see Frances other day.

We welcome lik is to see it. She is always honest and she is always honest. She is always honest and she is always honest.

Poor Bill Lee. Some one is always pinching him. Our Poly boys are trying to win over his girl. You shouldn't go down to Los Angeles. Bill stay home and keep a close eye on it. We must do something to keep the whales away from him.

There is a certain girl here at Poly who is trying to talk freely enough to make a match between a certain girl and boy here at school, but I say she is not doing very well.

MarySuperview says "Yes with whom she is not doing very well.

Chas Darley had some time trying to give the Senators and Faculty some of their local pictures. They say he is doing a swell job of it.

e the first edition of the Polygram and in a few days school will begin.

This year has been a big one for the Polygram and it was with the opportunity to thank the Polygram and for the help of the Polygram. It was the first Polygram.

At times the road was rough for the Polygram.

There were two special editions put out this year. The anniversary number was printed in a six sheet format.

Another special edition was the high school edition. This was a grand and glorious collection of the campus scenes.

There was a great many friends and a great many lovers and a great many lovers and a great many lovers and a great many lovers.

The Polygram has carried extra editions for four high school papers throughout California and other Polygrams have been obtained from them.

A Polygram boy ably assisted by Miss Hawkins and Mr. Procter as the Polygram. He has been a successful year for the Polygram. There has been a great many successes for the Polygram. This year will eventful times for our Polygram.

WILBUR C. MILLER
Hasty & True word has been spoken between false teeth.
H. And so Doris has turned that picture down.
Pauline: Yes, she didn't like his type.
According to an eastern newspaper: "The night before Christmas" was to be put into movies—and probably titled "Nothing Stirring."

Lester: Ruth kissed Jack last night.
Harry: Did he kiss her back?
Lester: No, she had a sweeter on.

Hobby: I've had my picture taken.
With that the proofies!—
Hobby: No, dear; you'll have to take another for that.
It was said that a dorm boy left a note on his door for his roommate who had gone to the show. The note read: "If I'm slylying when you get back, wake me up."

A deaf woman sat down in a seat well to the front of the church and adjusting her ear trumpet settled herself down to listen to the sermon. The factor tipped up and leaned over her whispered: "One foot and out you."

Tognazzini (absent-mindedly): In the middle of a room and pitch staff.
WHERE DO YOU GET YOUR TEARS? was the answer.

Mamma, where do cows get milk?" asked a small boy.

"Funny Feats."

Polys Wins Again

Polys added another victory to her list by defeating the Paso Robles baseball team last Wednesday by a score of 5 to 4. The game was played in Paso Robles and was one of the best ever played in that town. Paso Robles played well and many errors were made by the Poly team.

Lee Offered Contract

Mr. Long, a scout for the Chicago White Sox, was in town last week and offered Thornton Lee a contract with the White Sox for the 1927 season.

Lee has pitched some fine ball for Poly this year and we should feel proud to have one of our team members offered a contract in professional baseball. His pitching must be good, or he would not have been offered a contract by such a large baseball organization. It is almost every game this year that Lee has struck out from 12 to 18 men. It is a good record for any pitcher, and Lee's pitching in the San Jose game was what brought him notice in the Pacific Coast Scouting camp.

Lee has also given pitching in mind with the San Jose baseball club. He thinks that he will show a better change of making good with them.

We want to offer our congratulations to Lee and hope he will succeed and become Walter Johnson.

Military Training Camp

The Citizens Military Training Camp that is to be held at Del Monte from June 27 to July 20, is a fine thing and should be taken up by as many fellows as possible. This camp is for the purpose of developing a stronger national and social unity, teaching military science and tactics and the responsibilities of citizenship. The government pays the traveling expenses of all who wish to go to the camp, provides board, lodging, uniforms, equipment, arms, laundry and other things needed while at the camp. Courses are given in the camps and are known as the basic, rogue, and blue course. These camps have certain requirements and it is not every one who can enter them. The applicants have to pass a physical examination and be in good health.

There are a number of these camps maintained throughout the United States for the purpose of preparing young citizens and trained men. In case of war those men are the basic, rouge, and blue course. Besides this, the training is very useful to any young man, and all who are able should try to go to one of these camps.

Division on a Goos

The goose is a heavy, heavy-drawn bird composed of meat and feathers. His head sits on one end and he sits on the other. He can't sing much on account of the damness in the moisture which he lives. There should be no time lost in his training to keep him from flying. A goose has two legs and they are off far back, on the rear part that he comes pretty near misses. It is almost every game this year that Lee has pitched so far back on his running that he has to tell us how it all happened. Carl D. G. O. H., the first couple, told us with a great deal of dignity and bluster of his trip down in a box of the races. Next, Marvin House, had even more dignity and bluster of the actual selling of the stock. Following this, William Lee gave us a few inside information on what they did not see in the camp.

A few remarks by Mr. Hatch and Mr. Smith and the presentation of some noted visitors to the assembly was dissolved.

Eight members of the class handling the best share in the profits of this trip. Two of the boys paid all expenses on all of their stock and when the remaining stock is sold will make their profit.
