Co-op Orders New Cal Poly Stickers
New Cal Poly stickers have been announced by the Polygram. The new Stickers are made from blue cloth and the name of the Co-op Store. They will be on sale in the Polygram. The students will be able to purchase the new Stickers in the school colors. The colors will be blue and gold. The Stickers will be sold for ten cents each.

Frosh Entertain Visiting Basketteers
Santa Barbara College players and the students and faculty of California Polytechnic gathered at a delightful dinner given by the Freshman Class in our presence. It was the climax of a fund raising affair that took place after the basketball game the preceding Friday. The dinner was attended by the eleven, and, as usual, was held in the Civic Auditorium.

The scene in which the neighbors kill the Count's errand boy, Serpentine, was a very dignified butler.

Frosh Etiquette
A young lady asked me, what’s my name? Why, it’s Mrs. Warren, I told her. But she asked me again. So I told her, Mrs. Warren, it’s Mrs. Warren. She was very much surprised, and didn’t see me. So I told her again, Mrs. Warren. She was very much surprised, and didn’t see me. So I told her again, Mrs. Warren. She was very much surprised, and didn’t see me.

Drifting or Steering
Are you drifting towards defeat or steering for victory? Many years from now, will you be considered the man who got by instead of the man who gave the fullest of his abilities?

Drifting becomes a successful man in the world, one must hitch his ideals to a ship and anchor his whole being to it.

Success does not come with a lucky, drifting life; nor will the path necessarily be the easiest to attain it.

We are all working over a race by sitting and letting some one else do the work. We are waiting for a winning, a yacht race, he begins months before the race to get his yacht in a good racing condition, and spends hours and hours practicing to see that he can steer his boat to success.

We, the students of today, are trying to sell our sail for the great race of living in the years to come. If we have a defective sail, we will drop out, and sadly watch the fellow, whom we should have beaten, glide past us.

School is training us to help ourselves to success. We should get everything out of it we can, but, more especially, develop in us the ability, so that until the future is too late.

Kit-Kat Club Meeting
The Kit-Kat-Club met at the Chase House at 9:00 P.M. on Thursday, April 14, 1927. Miss Jordon led the discussion on Milton’s concept of Roman literature. The subject for next time is Chinese Literature. Miss Carter will lead the discussion.

The next meeting will be on the Cross House on Mill Street. Monday evening, February 25, at seven thirty.

Burton R. Crandall was a visitor at the previous meeting. He met with his parents Dr. and Mrs. Crandall. He reported his return to the University of Pennsylvania work Tuesday.

Press Club To Hold First Annual Affair
A Press Club is being formed under the auspices of the Polygram Club. The Polygram, which is a Combined Press Club of University and Annual staffs and Gallagas and Stewarts, will announce the first annual affair. There is another sufficiently interested in the Polygram or Annual work, is welcome. The annual affair will be held at the 60th street dance, with the dinner for the first formal social event of the club. Those interested, please give their name to Mrs. Thompson in the Co-op Store.

The members of the Polygram and Polytechnic gathered at a delightful dinner given by the Freshman Class in our presence. It was the climax of a fund raising affair that took place after the basketball game the preceding Friday. The dinner was attended by the eleven, and, as usual, was held in the Civic Auditorium.

**STUDENT OPINION**

**DORM DOINGS**

I have been peace broken down in Row Bow. Our little friend Boon has finally told his radio. We all believed that it was the end of the road. But the best part of it is that it is going over to Barracks.

*What was that?* John Wright in love? Yes, that is what we have been saying all of a sudden? Ask John!

Byron Engle from Pasadena has just moved into the Dorm. He is in room 28 with Bupp.

Everybody in the Dorm is getting romatic about all of a sudden. First John Wright and now our little friend Boon has been found calling up his girl friends.

No, Keeno, you can't hide under my bed!

A Dorm mixer was called on Monday, February 14th, and several of the cadets who had been absent from the campus throughout the winter months were present.

**FAILTURE AND SUCCESS**

Failure and Success were two sons born to Progress and Carelessness. The older, Failure, was the mother while Carelessness was the father. Of course, we all have been reading this story. But have you ever really stopped to think about what it means? Have you ever really analyzed the forces that make for success or for failure? Have you ever really thought about the factors that lead to the triumph of one and the failure of the other?

It is my belief that the key to success or failure lies in the ability to see the possibility of victory and to work for it. The person who is constantly thinking about the possibility of failure is likely to fail. The person who is constantly thinking about the possibility of success is likely to succeed. This is not just a matter of luck; it is a matter of attitude. The person who is always thinking about the possibility of failure is likely to fail because he is not willing to take risks. The person who is always thinking about the possibility of success is likely to succeed because he is willing to take risks.

In this story, John Hanna was always thinking about the possibility of success. He was always thinking about what he could do to improve himself. He was always thinking about how he could help others. He was always thinking about how he could make the world a better place. This is why he succeeded. He was always thinking about the possibility of success.

On the other hand, James Smith was always thinking about the possibility of failure. He was always thinking about what he could do to fail. He was always thinking about how he could hurt others. He was always thinking about how he could make the world a worse place. This is why he failed. He was always thinking about the possibility of failure.

The moral of this story is that you must always think about the possibility of success if you want to succeed. You must always think about the possibility of failure if you want to fail. This is a simple lesson, but it is a lesson that is often ignored. People are constantly thinking about the possibility of failure. They are constantly thinking about how they can fail. They are constantly thinking about how they can hurt others. They are constantly thinking about how they can make the world a worse place. This is why they fail. They are always thinking about the possibility of failure.

But you must always think about the possibility of success if you want to succeed. You must always think about how you can help others. You must always think about how you can make the world a better place. You must always think about how you can improve yourself. This is why you will succeed. You are always thinking about the possibility of success.
Deeia: What a charming ornament you sent me. But what is it? It's made of gold, but it's not a brooch, nor a ring nor a bracelet. I've never seen anything like it before. What is it?

Detwiler: A thimble.

Billings: Have you heard of the new poison?

Scotty: No.

Billings: Aerial plane poison. One drop is usually sufficient.

Dr. Cundall: I'll give you a nickel if you will keep your grandad awake during the sermon.

Pop Students: Nothing doing.

Dr. Cundall: Why?

Poly Student: He gives me a dime not to disturb him.

Grace (in History report of life of Lincoln): He was a great man, and born in a log cabin which he had helped his father to build.

Bob: What did Doris do when you told her that you like to drive with one hand?

Don: She gave me an apple.

Bob Wright to Mrs. Warren: Do you call this a beefsteak? It makes me laugh.

Mrs. Warren: I am glad you think that way; most of the other boys swear.

Pickens kissed another boy in the dining room. Mrs. Warren asked him: "What do you think of the beefsteak?"

Pickens: Nothing but ha'nts.

Mrs. Warren: Louis, don't make me for one of the boys with a white shirt on.

Hartler: Fill her up, John (meaning radiator).

John: Sure.

Storekeeper (as small boy enters): What is this you got here?

Willard: A new poison. One drop is usually sufficient.

Mrs. Warren: I am glad you think that way; most of the other boys swear.

Billings: Aeroplane poison. One drop is usually sufficient.

Dr. Cundall: I'll give you a nickel if you will keep your grandad awake during the sermon.

Santa Maria Jaycees Is Mustang Victim

In a return game in the Santa-Marin series on Feb. 4, Polytechnic's Mustangs took a 21 to 30 victory over the Cal Poly College quintet of that city.

Roundballing a truck meet at the start, the score mounted to 16 to 1 at the half. With both teams leading, Coach Agosti gave his Mosites a chance to show their stuff again in the second half, and the Santa Marianists started to find the basket often until the score was made up to 26 to 16. Several weeks ago Poly won the first game between the two schools and repeated in the second game.

Coach Agosti Arranges Big Track Program

California Polytechnic will have the best track program ever scheduled for one season in track and field events. Coach Agosti has been planning several competitive meets that should bring new stars to light.

At this time only one date is certain, the California Coast Conference annual track meet which comes to Poly and San Luis Obispo on May 7, thanks to the efforts of Mr. Agosti in securing this meet for the junior and senior colleges will enter teams. This meet in itself is a big adventure for the school.

Since the meet is planned for March an interclass meet will be held. The classes will be divided into groups for leadership in this sport, and Coach Agosti will get a line on what sort of tracksters he has.

The Coast Conference Invitational Meet is set for about March 10. All high schools in the county will be invited to meet us on that date. The Mo-Tel has purchased a cup to be awarded the winner. We want the cup! And coach, with middle of March, Poly will enter a corner-meet at Santa Barbara with the State College of that city. Bakersfield Junior College and junior colleges in the county are challenged to meet us on that date. The Mo-Tel has purchased a cup to be awarded the winner. We want the cup! And coach, with middle of March, Poly will enter a corner-meet at Santa Barbara with the State College of that city. Bakersfield Junior College and junior colleges in the county are challenged to meet up with the Poly boys.

Roadrunners Are Poison To Mustang Herd

The Santa Barbara State Colleges' Roadrunners were in the bold Mustangs' path when they met in their basketball meeting of February 11. The southern quintet piled up the biggest score ever against our squad this season, 55 to 20, in a game that left few doubts.

As things appeared at the outset, it looked like anybody's game and fans were on edge "awaiting development". But Poly was boisterous and the contest went along fairly well. Poly fans didn't have any noise and the contest started to move away from the local boys.

Pete Traylor did his usual good work as pivot man and attempted several driving runs at the basket where he netted 2 markers. Pete was injured in the latter part of the game, when he fell face downward and lost a tooth. Whitie Rust, who seldom leaves the floor without a lion's share of the points, had been sick all day but doomed a uniform and squealed through 9 points before being removed from the game and put back to bed. The Mustangs worked hard but few points came from foul shots. Pete had made use of those few by earning 4 points. "Track" Varnum drew 2 points from foul shots and Leonard Slinin got it by the same means.

The Santa Barbara team is one of very best we've met on the court this season; they played hard and played to earn the victory. That's saying a lot for our natural rivals, but nevertheless it's so.

Clemore and Foss were the big guns in the Teachers' attack and scored 23 markers between them. Den- tin, Glover, Greenough, Kenny and Morehead also figured in the scoring. Poly got the better end of the battle but will get a crack at the Roadrunners in football next fall on Homecoming Day.

Cagers at San Jose

Coach Agosti and ten of his basketball men left early Monday morning for San Jose where they played the State Teachers' College on Monday and Tuesday nights. Both were conference games, an account will be published in the next Polygram.

Fans to Santa Barbara

The Poly boys were back to back with the wild Mustangs to Santa Barbara to see the UA track team in action at night January 27. Quinnes, Pimentel, Billings, Presley, Wright, Winter, Wright and Hotchkins.

Southern Alumni Banquet Postponed

The southern Alumni Association had planned to have a banquet at San Diego on Friday, February 13, but due to parts of the squad being washed out it was postponed.

Spring Football Training Set For Month of March

Spring training for football will take place during the month of March, according to an announcement made by Coach Agosti this week.

Mr. Agosti wants at least seventy-five men out for the squad. All will be given a chance to play in the interclub and inter-class contests. Besides taking on some of the thrust, the coach intends to put the squad through tackle and blocking practice.

A tough schedule of games is planned for next fall. Early in the season the squad will play the Stanford second-year Varsity at Palo Alto.

Mission Club Winner of First Basket Series

For the second time this season the Mission Club basketball team defeated the Polytechnic quintet, this time by a score of 36 to 20. In the first game of the series the Missionites won with a score of 38 to 20.

It was a good game from start to finish, both squads putting up a good fight. The Missionites excelled in guarding especially, and by that means the Poly boys from getting too near the basket.

Because of the closeness of these two games, Coach Agosti may challenge the club to play a second series.

Handball Championship Goes To Senior Class

The Senior Class won the Interclass Handball Championship and stopped a notch ahead of the other classes to ward off the Challenge Cup in the course of the season annually. The Freshmen were run into the ground, and the Juniors and Nonmembers finished third.

A singles tournament is being started in which all faculty members as well as students of the Polytechnic are invited to sign up and make things interesting.

Santa Barbara Takes Second Cage Mixup

Second Cage Mixup

In a return game with the state Santa Barbara State College basketball team Poly was defeated in the overwhelm- ing count of 60 to 30, an even larger score than in the contest of two weeks ago.

The Mustangs were tired after a long trip, but they still held their own and, in some cases, even looked very strong on the defensive. They really did play a good game and that made the Santa Barbarans get away for many tallies. Tic-Trac who was the star for the victors, getting 26 points alone. Feat got his usual 12 points. Neary every man on the floor made at least 1 point. Both coaching put in their entire squad.
