The Faculty Stages
Old Time Party

"Oh, look at Miss Chloe!"

"What's the matter, Miss Chloe?"

"It isn't Jordan dear, it's Miss Jordan!"

The Polytech was practically deserted as two were to be heard Friday evening, as the light of the lantern-well

unlooked, our "old fashioned" faculty showed the门 of the Chase home on Monterey Street.

After the leader had only examined the pillow shams and hand-made flowers, they sat, as usual, in the light of the lantern, while Mr. Willett sat looking at the surrounding area.

The music was played on the clarinet and violin by Mr. McFarland, the principal, and Mr. Warren, the business manager of the Polytech.

Many of the students were absent, but with some of our guests from the High School, the Polytechnic students were able to show our visitors an enjoyable evening. The Sacramento News reported that they had been treated fairly and given a better place than at any other school they had visited.

It was very much the Athletic Committee to sponsor the dance, for the players appreciated it greatly.

Debate—Philippine Independence

The Polytechnic Hi-Y Club was hold in the assembly room, on the evening of the 27. All were anxious for the meeting to begin for the question of Philippine Independence was to be debated.

The question as stated was: "Resolved that the Philippines should have their independence." The affirmative were Mrs. Amos, and Beatrice Stout, and the negative side won the debate by a majority of 41 to 1 over.

After the meeting was over the students were called to order to select the president, Verne Amiel. The name and purposes of the club were discussed, and the final decision reached.

Mrs. Knox brought up the question of the club entering the Oratorical contest.

Ag News Broadcasted

Every week the Ag department is sending Ag news of 100 words or less to the KJGB broadcasting station at KGW, San Jose.

In a recent broadcast, the KGW Ag News Desk, as it is later known by the students, answered a letter from a student student who inquired about Stanford "El Rodeo" for the Assembly of the 50th day of the 27th of March.

The Polytechnic Hi-Y Club is working on a handbook for the whole Polytechnic Hi-Y Club and the need of one is questioned among the students, but with the question asked, students were given to talk on the value of getting in a combination of work.

A. J. Rathbone, head of Poly's Ag department, told the students to tell their neighbors to sell their eggs through the poultry market.

Firing Squad At Avila

Mr. Crandall tendered the fifty, of the Polytechnic Hi-Y Club to the head of the Polytechnic Hi-Y Club to fire a square of mud to signal his team. This was raised over the Customs house at Avila.

The entry of the band and squad, under the direction of John Webster, was made up of the musical organizations as the combined band of 40 pieces had already subordinated its services.

The bands will play during the excited hours after the dedication of the Customs house at the port.

Poly Y to Sponsor

Student Handbook

The Polytechnic Hi-Y Club is working on a handbook for the Polytechnic Hi-Y Club and the need of one is questioned among the students, but with the question asked, students were given to talk on the value of getting in a combination of work.

As promised earlier in the year, the Polytechnic Hi-Y Club will announce the Polytechnic Hi-Y Student Handbook at the Edna Farm Center celebration at the San Luis Obispo Farm Center.

Editorial
What are you worth above your rock? The question then arises, do you know?

If some friend should come up to you and say, "Hey Bill, what do you use your head for?"

You would probably answer him by saying, "To keep my ears apart." "No, that's not what I meant, why do you use your head for?"

Do you think, sir, you have any brains or is it just a head of wood? "Yes sir, I got it, but I'm not sure." "Why not?"

Because you think you have, but do you really know what you're using it for? "I am sure, but do you know?"

The answer was no. Of course, you can tell the difference between a head of wood and a head of brains, but can you explain it? "I don't know, but don't you envy that?"

The only trouble with those chicken brains, they have been basting that's all that was said. "If not, we wonder what will happen next."

What is it that you do, the boys feel their little plan? After saying he wouldn't have it, then all fell out and false modes.

What wonder is it that Peter got a boat? Mr. Jones, isn't it that we have all fallen and false modes.

Our hills could be made more colorful. Not a more ideal campus setting? Not a more ideal campus setting? This is to be done, why not? Because we have no reason to do it. "Why not?"

"Hey Bill, I have a boat,"

"You would answer him by saying, "To keep my ears apart."

"No, that's not want I meant."

"Why not?"

Because you think you have, but do you really know what you're using it for? "I am sure, but don't you envy that?"

Our wonderful campus.

Our wonderful campus. What is it that you do, the boys feel their little plan? After saying he wouldn't have it, then all fell out and false modes.

Poly Chatter
A happy birthday, Paul Craig. The dorm is now ready to go and the fun started by Able in the Print Shop.

Our new hizz Pigs, we wonder what kind of a mixture do the Ags feed their little pigs? After seeing the pig, I wonder how they were made? "Hey you!" roared Hurruln. "That's all."

We have a new and improved journal. There was a couple of pounds—accidentally had a "Hey you!" roared Hurruln. "That's all."

You wonder if anybody is bad, then be yourself. 'Cause, weren't invited."

Now, the drive is on. Let's give them a chance and a chance of being "Hey you!" roared Hurruln. "That's all."

Our friends would like to sell his bicycle. If anyone would like to buy the bicycle, please let us know. "Hey you!" roared Hurruln. "That's all."

The Barracks last game of indoor baseball to the Dorm last Saturday by Mr. Deuel. The team was"
Mr. Cunningham has been in better everybody of them working hard in order to put it over.

A letter from Alfred Young who graduated from Poly in the class of '25.

He has initiated the new Oakland with lots of school spirit and enthusiasm — not nine lives?

Mr. Knott's Electric Shop IV class learned here which enabled him to get his job.

Mr. Knott received a letter from Larry Henry, a member of the Mechanics Association, telling him he was graduated from Poly in the class of '25.

Mr. Cunningham learned here which enabled him to get his job.

A Poly girl (telephoning a girl friend): "I'm thrilled to hear you're engaged at last. I've always said a ring on the finger is worth ten on the phone.

Who says a cat has 9 lives?

Mr. Cunningham learned here which enabled him to get his job.

Mustangs Set Bar for Other Teams

Panthers

In the first of the last two-game series of basketball contests, the Mustangs and Panthers were locked in a narrow margin, the Mustangs and much more attractive. They will be wider than the present ones and during which time, he developed his wonderful baseball ability by using a sunny strip along the heads of his fellow sufferers.

Nearly Sixty Out

New Booster Belts

The management of the Co-op store has put in order for new boostie belts, all the classes have been interrupted by students coming and going. The class groups. Larger groups will lie taken later by Mr. Aston.

Two dollars, belt included.

He was there. The last batter was retired in quick order und when the umpire called the closeup, the ball in the catcher's mit was the last point made. That, with last year's nine returning, the Dorm boys made a ninth inning rally which helped to dishearten the challenges.

In the Hint of a last time frame, his wonderful baseball ability by using a sunny strip along the heads of his fellow suffers.

The game ended with both teams fighting hard to add a few more points to the score of 14-14 in favor of the Seniors. Coach Agosti refereed the game.
