SAN LUIS OBISPO, October 7, 1927.

CAL POLY WINS THIRTEEN FIRSTS AT SOUTHLAND FAIR AT RIVERSIDE

Various Departments Of California Poly-technic Bring Back Cup, Medals, Ribbons, And Cash.

Herbert Smith seems to have had the bad luck which is characteristic of all the officers of the Poly news. Saturday night there was a sudden downpour, which extinguished all the flames, and Smith had to spend several hours trying to get the right kind of gas into the Poly's lamp. But the Poly's entry was well worth the trouble.

The Poly's entries were in two very distinct exhibits. The first was in an educational department, showed the troubles and indignities of the various departments, and the Poly's interest was shown in the model aircraft, a plane, and a glider. The Poly's booth was in a little glass tube held up by a stick.

The entry in the 4-H department, in which Poly's students had a chance to show their interest in the Poly's campus in miniature, showed the improvements in the Poly's library, with the Poly's chicken and hog houses, gardens, and greenhouses, being the project

The Poly's booth was in a little glass tube held up by a stick.

The entry in the 4-H department, in which Poly's students had a chance to show their interest in the Poly's campus in miniature, showed the improvements in the Poly's library, with the Poly's chicken and hog houses, gardens, and greenhouses, being the project work of the boys. The boys were busy at work, and in the Poly's fields, with a few sheep here and there, and a few chickens.

POLY CHATTER

Do You Know?

That about 80 gallons of milk are consumed in the cafeteria daily? This amount is nearly 300 glasses of milk per day.

That the milk is brought in fresh from an outside dairy?

That seven of those 80 gallons are supplied by the students themselves?

That as soon as we begin to waste butter in the cafeteria, a piece of butter the size of a postage stamp will be sent to the Student Body as a whole and we hear there are two or three cases of starvation appearing on campus?

That we need less football tactics and more strategy?

That the attendance record is being kept with a bang. He had his first Coyote game?

That we should have it under way.

That the regular Dorm Club meeting was called to order for the second time this term by President Earl William?. Roll call was taken and the meeting adjourned.

The Pool Tournament is about to start. John White, our bugler, is working on the score cards and we are glad to see him.

The greatest happiness comes from some way of making it homey for our best school friends, and we should help it along.

We wish Poly would send us more of their baby beef.

How about an orchestra? Come on, fellows? With such talent as shown by our students, we believe it is worth the effort. We congratulate our student concert pianist, who is very good at trickling music.

We heard that some girls are trying to get into the Barracks to keep them. This is a shame to hear. How about an orchestra? Come on, fellows?

We understand that a music student is now organizing a saxophone band. At present they have had three practices and Mr. Smith tells us the band will be an organization to be proud of.

There are four tenth for practice, and we hear there are two or three "asians" on the campus who are going to try out practice. Mr. Smith is going to give them a chance to hear music, and he is giving much of his time to this work. Lessons may be taken on any instrument at a reasonable rate.

Let's show them we can make Mr. Smith as well spent by coming out to practice.

We have been hearing that Poly is going to change its name. Since the school has so rapidly progressed during the last few years, a new name is found desirable.

Joe Brown and Mark Johnson are planning to have a Poly Elect Orchestra at the first regular meeting of the Poly-Elects on Wednesday evening, October 12.

STUDENT OPINION

What kind of guy is the girls sitting room doing anymore? The girls don't spend any time there any more. They spend all their time doing that which is called "beautification," which are sometimes held at those rooms.

We think that room could and should be fixed and turned over to the Student Body. Tons of lovely new drapes, some of those darling little tinsel tinsel tinsel, and other things to match, a new screen for the fresco, a new wall of flowers, and all the little things which make a room just so. One girl could have it just as well as the rest of us. We hope the Student Body will give us some nice room where they can go when they don't have classes and in room.

It seems a shame that a room as large and roomy as this one should be unused. Our family are our best school friends, and we should help make them comfortable for they are doing a lot for us. Can't we find something of making it homey for our lady teachers?
Knott Tells of Unique Progress of Auto Shop

With the rear part of the Forge Shop as a garage and the hammering monkey wrench, and cold chisel, the only tools, the Auto Shop of the California Polytechnic was created. This was back in 1919 when Roy Knott, a graduate of Poly in 1914, was instructor. Like all things in its experimental stages, the Auto Shop encountered difficulties.

There was no partition between the forge part and the automobile division, so that the boys while working on a machine, were bothered by the smoke and dirt of the forge. The only tool room was a box on the wall with a lock on it. A welding outfit was the modern feature of the Atoh Shop.

This unique beginning of the present automobile shop was brought out, in an interesting talk with Mr. Knott, an expert of the mechanical division of the Polytechnic since 1921. Mr. Knott is in a position to relate the progress of the Shop.

"There was great rejoicing among the automobile students," said Mr. Knott, "when they found that there was to be a building used exclusively for the automobile work. No wonder the students rejoiced over the prospects of a new building after working in a smoky forge shop with few tools.

"The money was appropriated, and work was to be commenced on the new building in the fall of 1921. The architect's estimate did not allow for money for the excavation of the foundation," said Mr. Knott, and in order to save money in this respect, and get the building without further delay, the senior surveying class organized the school into working parties. After the surveyors had set the necessary stakes, a labor day was declared. "This adobe was very difficult to dig when it was to dry, but by the close of the day, the foundations trenches were complete and, said Mr. Knott, "most of the boys to school had histories on their hands.

"The long looked-for Auto Shop had now come into reality. Many of the shop students had practical experience in the actual construction work, shingling, and concrete work. The wiring was done entirely by the electrical class.

"As soon as the building was finished the block "P" society initiated the Auto Shop to house it."

Mr. Knott showed that although the Auto Shop was used entirely for automobile work, it had a labor day was declared. Once a year the newsboys of a certain district of London take for an ending the Thames by a gentleman of the neighborhood, where they can bathe in their heart's content. As one little boy was getting into the water a friend observed, "I say, Bill, isn't yer dirty?"

"Yes," replied Bill, "I missed the train last year."

"I don't know," said the friend. "I missed the train last year."

"But if it continues to grow as it has in the past fifteen years it will be seen necessary to have a building twice the size of the present Auto Shop to house it."

"Last," said Mr. Knott, "a Black Waterman's Ideal fountain pen. The find will please you to Jerry Cowell."

"It is a good deal like a pneumatic tire, this unique beginning of the present automobile shop was brought out, in an interesting talk with Mr. Knott, an expert of the mechanical division of the Polytechnic since 1921. Mr. Knott is in a position to relate the progress of the Shop.

**Cal Poly Sports**

**Chico State Here**

**In League Opener**

Mustangs will meet conference champs on Poly field October 15.

Chico State College sends her football warriors to San Luis Obispo to play against Cal Poly’s Fighting Mustangs on Saturday, October 15.

Chico State, the team that is due to take the field, will be looking for an easy victory over the Mustangs, who are eager to have their first win of the season. The Mustangs, who have lost their first two games, are determined to make a winning record against Chico State.

The Mustangs’ defense, which has been their strength, will be tested against the Chico State offense. The Mustangs’ offense, which has been inconsistent, will be looked at to see if they can improve against the tough Chico State defense.

The game will be a battle of two teams that are looking for their first win of the season. The Mustangs are determined to make a winning record against Chico State, while Chico State is looking to get their first win of the season.

**Football Schedule**

Sept. 20—Santa Maria at Santa Maria.

Sept. 28—Poly vs. Loyola at Los Angeles.

Oct. 2—South Western University at Los Angeles. Place tent.

Oct. 15—Chico State College at Bakersfield.

Oct. 22—Open.

Oct. 29—Bakersfield Junior College at Bakersfield.

Oct. 30—Santa Maria at Santa Maria.

**Lightweights Win From Parent Beavers**

**By Score 13 To 12**

The Mules kicked through for a 13 to 12 win as they beat the Beavers at the Poly field. The Beavers were held to a score of 12.

Coach Agosti made numerous replacements in order to give all his players a chance for experience and success. The Mules played well and did make a few scoring chances that were not converted.

The starting backfield combination, with John Lee at quarterback, White at halfback, and CLINE at fullback, was well balanced. The forward line was effective and controlled the ball well.

In the last period, fans had a big thrill when the Paso lads tried to score a touchdown. A pass over the line from the five yard line. "Murph" White failed to reach the end zone, and the Mules crashed the try for extra point. The quarter ended in a tie at 6 to 6.

**Target Range Results**

The following scores were made on Saturday, October 1st, at 200 yards slow fire.

**Read This**

The event: Chico State Wildcat vs. Cal Poly.

The time: 2:00 p.m.

The place: Cal Poly field.

Admission: Not enough to break even but we are up and on. We want to get the bleachers with your Rah! Rah’s and please be on your best behavior.

Who will be charg’d? No one is certain who will finish on top of the heap in the Dorr Field Tournament, although there are several favorites mentioned. A few of the games have already been played in which the "darts" have shown that it makes that much more interesting.
