The Polygamist
ARE WE UNJUSTLY ACCUSED?

DURING the recent campaign, soliciting merchants for support, there was the statement of a few students to find out just what some of the town people think of Polytechnic. In the town where we live, we do live down by our actions. We radicals are accused of everything but horse stealing and if we were able to. we would be. The whole student body is full of devils or it is because there are so few that break up many good things, doing minor stealings such as light bulbs, etc. One merchant, thinking that the movement was from the high school, was going to take out an ad, but we did not tell him that it was a Poly student talking to him and then he came straight forward with the sentence, "no. I will not take out an ad with Poly because I have it for those fellows. As fast as I put globes around my ceiling they are taken by the boys."

We, as students, do not feel that our hands are tied, but we have that name to live down, and it's just you few who pay. It's up to us to prove it to them and thus secure future recognition of our group. It is the attitude of you students toward our "Wesco" advertising plan. Are you going to break the El Rodeo Staff, or accept their offer? It will be a wonderful accomplishment to let you all know that the fine men of the State Department are doing all they can to assist this week in the electing of the officers. Besides class votes, the students seem to want, there are really trying to help put those who are really going to make this a success. Are you going to help, or do you wish to be brown-nosed again? Let us know, We wish to be black-browed again.
