**LET'S PUT IT OVER**

JUST what is the attitude of you students toward our "Wesco Advertising Plan." Are you going to back the El Rodeo Staff, or are you going to fall down on them? It's up to you to decide and in your hands rests the fate of our El Rodeo and all other El Rodeos that are held to stand for the future of the school.

We, as students, must show these town merchants who have been so liberal as to buy advertising space that such an add does pay. It's up to us to prove it to them and thus secure future patronage from these merchants.

Keep the books that were passed out to you and consider it as a serious matter, for it is serious, and when you buy anything, buy it from these merchants. Who knows but what you might win the fifteen dollar prize, or even the ten or five is worth going after.

The staff does not want you to indulge in a big splurge of spending, but what you do spend, spend it with these merchants and you will be doing your part toward building a better and bigger El Rodeo.

**AN EXPLANATION**

It will be somewhat of a disappointment to some of the students, at least, to learn that the very large social room which was at first anticipated as a part of the President's Home has had to be eliminated, owing to the expense of the same.

It was incorporated in the first sketches sent up to the State Department, and when changes came back it was again strenuously urged, but word finally came that it could not be made large enough to serve for general social functions.

President and Mrs. Cundall will use it freely, however, we know, for smaller student meetings and get-acquainted affairs and every student will always be welcome to them in the workings of the school.

A large room has therefore been made on the second floor of the Gymnasium, which can be used for small parties and the great floor of the Gymnasium will be painted by the students to turn it into a lovely affair, will be the center for dances and social events of the campus as well as for games.

The fine men of the State Department are all doing all they can to meet our needs and we should be patient as our needs develop.

What He? Oh Spring!

A test, but it explains it.

Very hard test.
