STATE SUPT. COOPER ADDRESSES STUDENT BODY ON CITIZENSHIP

Jesperson Gives El Rodeo Praise—Lauda of Spirit of Cal Poly

It is always a pleasure to visit California Polytechnic and learn of the good spirit prevailing through the college. To Mr. and Mrs. W. A. Jesperson, the Superintendent of the school, and to the faculty I wish to extend my thanks for making the visit such a joy.

When Mr. Jesperson had finished his speech, Rodeo Cummins pocketed the speech and Mr. Jesperson complimented the wonder-ful-looking students and teachers.

There were three main ones: the right of life, to the protection of each; the right of liberty, to give up a little liberty. The right of property, to the lessening of the rights of others.

The right of life is guaranteed to everyone who is under the American flag. It is granted to all, in the form of a right, to be secure in one's person, liberty, and property.

The right of liberty is the hardest one, as the right of life has to be respected and protected. It is a right to the protection of the individual, to the protection of the person, to the protection of the possessions.

The right of property is the right to the use and enjoyment of one's possessions. It is a right to the use and enjoyment of one's possessions. It is a right to the use and enjoyment of one's possessions.

A good example of this which Mr. Jesperson gave was the case of a man who was accused of theft. He was acquitted of the charge, but the right of property was violated. The man was entitled to the use and enjoyment of his possessions, and his property was violated.

The right of liberty is the hardest one, as the right of life has to be respected and protected. It is a right to the protection of the individual, to the protection of the person, to the protection of the possessions.

A good example of this which Mr. Jesperson gave was the case of a man who was accused of theft. He was acquitted of the charge, but the right of property was violated. The man was entitled to the use and enjoyment of his possessions, and his property was violated.

The right of property is the right to the use and enjoyment of one's possessions. It is a right to the use and enjoyment of one's possessions. It is a right to the use and enjoyment of one's possessions.
THE POLYGRAM

Shirt and Socks of Cal Poly

At Cal Poly, athletics are recognized as the most important things in life. As a matter of fact, this may feel that possibly too much money and that possibly too much energy should be used for our athletic activities. However, we should see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

First of all, we, of course, recognize "de-" from athletics as the most important thing in life. As a matter of fact, this may feel that possibly too much money and that possibly too much energy should be used for our athletic activities. However, we should see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Second of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Third of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Fourth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Fifth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Sixth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Seventh of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Eighth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Ninth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Tenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Eleventh of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Twelfth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Thirteenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Fourteenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Fifteenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Sixteenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Seventeenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Eighteenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Nineteenth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Twentieth of all, let us see that the benefits derived from athletics are far more than the money that is spent on them. We should also see that the benefits derived from athletics are far more than the money that is spent on them.

Now We Know

We would like to say that the annual report of the Block "P" Club, which was obtained an hour or so at the meeting, was a very interesting and informative document. The report contained information about the activities of the Block "P" Club during the year and it also included some statistics and analyses about the performance of the Block "P" Club. The report was well organized and easy to read, and it contained a lot of useful information for anyone interested in the activities of the Block "P" Club.

The Block "P" Club is a student organization that is responsible for organizing and coordinating events and activities at Cal Poly. The club is made up of students from all different majors and backgrounds, and it is dedicated to promoting school spirit and pride among the student body. The Block "P" Club organizes a variety of events throughout the year, including tailgate parties, parades, and sporting events, and it is known for its energetic and enthusiastic presence at Cal Poly events.

The Block "P" Club is an important part of the Cal Poly community, and it plays a significant role in promoting school spirit and pride among the student body. The club is committed to providing a fun and enjoyable atmosphere at Cal Poly events and it is dedicated to creating a sense of camaraderie and belonging among the student body.

We would like to thank the Block "P" Club for its hard work and dedication, and we would like to encourage all Cal Poly students to get involved in the club and to support its activities. The Block "P" Club is an important part of the Cal Poly community, and we are proud to be a part of it.

The Block "P" Club is an important part of the Cal Poly community, and we are proud to be a part of it.
Tobacco and Athletics

Ever since tobacco was first used, the health of the human race has been the subject of great concern. While the exact effects of tobacco use on health are not yet fully understood, it is generally agreed that it can have both positive and negative effects. Tobacco use has been associated with a number of health problems, including respiratory diseases, heart disease, and some types of cancer. On the other hand, some studies have suggested that tobacco use may have some potential health benefits, such as reducing the risk of certain types of cancer. However, the overall consensus is that tobacco use is harmful to health. It is therefore recommended that people avoid smoking and seek alternative activities to relieve stress and maintain health.

Sidelights of Big Block "P" Trip

Mr. Thompson Tells of Different Experiences

First Tennis Season Successful at Poly

In past years tennis has been con-

cered as an unimportant sport due to the lack of facilities. But what the Poly fans have learned since the golfing gEnvelope by Coach Aguill in the spring of last year has brought the tennis game into the limelight. As a result, the Poly Hampton in charge of the Poly tennis team, has taken many steps to improve the quality of tennis play at the Poly-technic Institute.

A SCENE FROM THE BLOCK "P" FISHING TRIP

New Our Campus Buildings

Next year our campus will be one of the most beautiful spots in San Luis Obispo. With our new "Cased" course and our new 

Poly Athletic Future

(Continued from page 1, column 2, June 23)

Since this is the first time that our field has been open to the public, we can expect a great number of ours next year that we can carry on. The main point was due to the fact that very few of our field brought their clubs with them. Next year we won't want those excuses. I don't think we'll have any "hold back" as we have this year. The only thing we want to take advantage of is the new course. We won't have to have the same privileges for a large group of the golf course. The course this year was not as good as we had hoped for, but we are still pleased with the results. I think we will continue to improve on the course this year. We will have to try to make the most of the course this year.

Miss Hampton: I hear your boys

have been fishing. Why do you do

so good in accounting for where

they found them?

Mr. Ball: I reply that you may be

able to answer that question.

"Now's the time!" inquired Tired Tim.

"But it's a little late," added Tired

Tim, "I'd rather have a three solid

hours without so much gas.

The POLYGRAM
Agosti Re-Elected President C. C. C.

San Jose withdraws from Conference, San Rafael

Coach Agosti attended the meeting of the Califonnia Coast Conference at San Jose, May 4. At the election of officers, he had the honor of being named president for second unbroken term.

Coach Martin McGart of Modesto fielded a strong contingent at their annual conference, and Dr. Boyer, secretary-treasurer, was also a representative.

Since this was the first year of a two-year agreement, the program was carried out. The track meet and tennis tournament were part of the program. The seven schools were represented by their best athletes, and each school contributed a major sport as well as a minor one.

The conference lost one of its members, Modesto Tech, which dropped out of the conference.

The conference lost one of its members, Modesto Tech, which dropped out of the conference.

The conference lost one of its members, Modesto Tech, which dropped out of the conference.

Basketball Past and Future

With a year of basketball just past, we can look back and say that we have had our fair share of good seasons, as well as many indifferent ones.

Basketball has been a major sport for the past few years, but it is still in its infancy compared to football and baseball.

College basketball is a recent phenomenon, having been established in the early 1900s. It gained popularity in the 1920s and 1930s, and has since become a major sport at many college levels.

Despite its relatively short history, basketball has attracted a large number of fans and has become a major source of entertainment for students and alumni.

The future of basketball is bright, with new talent and coachers emerging to take it to the next level. With the right support and resources, basketball can become one of the most popular sports in the country.

The Block "P" stands for the betterment of Athletics at Poly.

Cal Poly Baseball Season Successful

Look Forward to a Pennant Winning Team Next Year.

When the call for official tryouts was given, 300 kids reported for practice, knowing that it was the first step toward earning last year's squad's Unofficially, Al Horstmann, Scott Broderick, and J. C. C. C. were chosen for the starting line-up, with Captain John Horstmann, who had been out for two years, being a sore disappointment.

The newcomer entering Poly has the opportunity to excel and develop himself. If he tries, he has athletes such as football, basketball, baseball, and track as major sports. There are thirty opportunities in all, both in athletics and in school life.

A young man can be small, fat, or in any other way, and develop himself in some sport. Poly offers opportunities for everyone.

What Old Poly Athletes Are Now Doing

Kenneth Parker, alias Lite Plug, is now living in Los Angeles, California, in the city's finest hotel in a $26.00 a game with the Mission Club.

When asked why he got into athletics, he said, "I got into it for the exercise, and later to fifteen hundred miles, which was galling after them in right field.

A friend of President C. C. C. gives us an inside look at the new football team. The team will be a great help to them. We have shown our spirit in the past, and will do so again this year.
