An Interview With
Mr. E. D. Dunsmore
San Luis Obispo, Apr. 5, 1929.

Mr. E. D. Dunsmore, 82, of San Luis Obispo, California, and Arlington, Virginia, where he is employed by the United States Bureau of the Census, has a long and varied history. He was born in San Luis Obispo on March 1, 1929, the son of John Dunsmore and Mary Johnson.

1. What was your earliest memory?

2. Did you attend school in San Luis Obispo?

3. What were some of your early interests?

4. How did you become involved in the Census?

5. What is your most memorable trip abroad?

6. What is your favorite memory of your childhood in San Luis Obispo?

7. How have your experiences as a Census worker influenced your life?

Look Forward To These Coming Days
State Traveling Conference To Visit Campus At Polytechnic.

Five important calendar dates during the next few weeks are April 10, 11, 12, 13, and 14.

April 10 is the date set for the actual spring music program in which several classes are invited to participate with us.

There will be no competition, no awards, but the event is being anticipated as one of great interest.

On Wednesday, April 11, the Poly Band will appear at the High School auditorium, playing before a large and enthusiastic audience.

On April 11, the Girls' Glee Clubs will present an encore of their program in honor of the newly installed bandshell. The Glee Clubs are under the direction of Mr. Thompson and Mr. Thurgood.

Mr. Thompson will present to us the opportunity of hearing the Glee Clubs perform as a whole, for it is to be our Agricultural Department's custom to include them in their annual program.

Not the least amongst them will be the excellence of their music, for it is the custom of the Glee Clubs to present a program in honor of the newly installed bandshell.

Mr. Thompson Interviewed
Mr. Thompson was graduated from the University of California in 1927, where he majored in music. He served in the United States Navy during World War II and the post-graduate course, and then attended the University of Minnesota at St. Paul.

Mr. Thompson is well versed in the art of music and has a deep love for the subject. He is a member of the Music Teacher's Association and the California Music Teachers Association.

Neatness is an essential requirement in the work of the Poly Band. Not the least amongst them is the fact that the music is well rehearsed and well performed.

The Poly Band is under the direction of Mr. Thompson. It consists of fifty students, who are supervised by two instructors, the President of the Poly Band and the Executive Secretary of the Poly Band.

Uniforms Help To Make Highway Safe

Weekend trips are now in order for many Polytechnic students. John Mitchell, 22, and John D. Johnson, 22, are planning a weekend trip to the coast. They plan to leave Polytechnic on Friday afternoon and return Sunday morning.

The sum of eight dollars was contributed by members of the Poly Band and the Dramatics Club to the Poly Band and the Dramatics Club.

The touring motorists are planning to spend the night in one of the hotels that are situated along the coast. They plan to return to Polytechnic on Sunday afternoon.

Notice!

The Polytechnic wishes to express its appreciation to John Mitchell and John D. Johnson, who contributed their hard-earned money to the Poly Band and the Dramatics Club.

Mr. Mitchell and Mr. Johnson are two of the most conscientious members of the Poly Band and the Dramatics Club.

Cows, Clowns, Animals and Acrobat All Ready For Coming Days

With the object of interest increasing daily and with an influx of new students, the Polytechnic entertainment is guaranteed.

Rehearsals have been held daily this week prior to the preparation of the event.

Mr. Knott worked very hard making the costume and he is said to be very happy about it. Mr. Vennum has been busy making the costume and he, too, is happy about it.

Mr. Heer spent his Easter vacation upon the campus directing the installation of new electrical equipment in the new laboratory.

An ambitious woman with saved five dollars says that she calls in the home of her friend, thinking that she may be more useful to her friends than to herself.
EIGHT MORE WEEKS OF STUDY

Now that the Easter vacation is over we can look forward to about eight more weeks of class. Just imagine only eight weeks, about forty days more of school.

To those who are here for a definite purpose the days will go by much less slowly than to those of you who have no set object in mind but putting in their time until school is out, the short while left will seem to linger on and on for ages.

But to those of you who have left school this quarter never more to return and we owe it to ourselves to make the most of the little time we have left. Not only must we complete our studies and work of this quarter; but we must also make the best of our last months of friendship with those of whom we know and respect whom we may never see again upon leaving here in June.

It is exceedingly hard to break down to work with this wonderful spring weather coupled with just having returned from the Easter recess. But when one remembers that in order to get the most out of his time he must get busy, he will soon shake off the lethargy of spring fever and get in and dig.

PLENTY OF SCENERY IN SAN LUIS COUNTY

Poly students little realize the beauty of the territory in which they are staying and the amount of natural scenery that it contains. Perhaps if they knew the beauty they could turn from the road from school to town and from town to home. Aside from motoring on the highways and occasional hiking trips they do not do much, riding around. One really is surprised by the excellent scenery which may be had by making an excursion out in the surrounding hills. The best part of it is that one need not drive far to avail himself of it either. A short drive in almost any direction will bring one to a road leading off into the hills.

Now is the season when the scenery is at its best. The hills are all dressed in green and all the creeks are flowing with water from the springs.

There are some places that would be perfect settings for picnics in the woods or gardens. The rest of the week.

The drive to Morro Bay by way of Los Osos valley could be recommended as particularly enjoyable, as is also a drive through the Irish Hills.

LADIES AND GENTLEMEN: THE BLOCK "P" CIRCUS

The event of the day is the Block "P" circus which is to be held tonight. The purpose of the circus is to afford funds to be used in buying athletic sweaters for the block letter winners.

Due to an evident shortage in the athletics fund the boys were forced to raise money for the sweaters themselves. A circus was opened, the question if Wallie wanted in and dig.

The Question Box
BY AN INQUIRING REPORTER
Question: Do you think that the Athletic fund should give the boys their athletic sweaters, or should they earn them by giving dances, circuses, etc.

But Stanley—There are many ways for the Athletic fund to help the boys. Find a merchant and sell his clothes, etc., always needed. So I say the fund should give the boys their sweaters and have them pay for their sweaters.

George Higgins—In answer to the above, I say this: I think in great experiences for the boys belonging to this university, giving their own dances and giving things of the old, new, and not so new, whatever, I do believe that should the boys fail to meet expectations, the money needed should be taken from the athletic fund.

Miss Eunice Smith—I think the money should be handled by the Athletic fund for sweaters for the boys. I think the "Block "B," because it is the boys who compose the Block "B," have made it possible to have that money and I think working hard in his favorite sport, he should be required to save a certain amount of money for his gear and not be forced to do additional work to pay for his sweaters. I, therefore, say the money should be taken from the Athletic fund.

Mr. Ciro—In my opinion, the Athletic fund should give them to the boys when they receive their Block "P."
**Cal Poly Sports**

**Mustangs Defeat Bearcats 11-5**

Hitting the ball with everything but their gloves, the Poly Mustangs defeated the Bearcats of Rosecrans 11-5. The game was very uninteresting, but the Poly Mustangs were not very good and will probably win half their games.

Coach Agassi and his family went north to the bay region to spend their Easter vacation with his Uncle. In the game there did a lot of good and will probably win half their games.

**Coach And Students Go To State Meeting**

Agosti Made Chairman Of State Conference On Eligibility

The Poly Mustangs defeated the Poly Bears in a fun* standpoint. However, they were not very good and will probably win half their games.

While it was very uninteresting, but the Poly Mustangs were not very good and will probably win half their games.

**Mustangs Take Game. From Saints 8-5**

In a game featured by the errors and mistakes of the Poly Mustangs, the Saints took the game from the Poly Mustangs.

The Poly Mustangs will probably give the other team a lot of trouble. However, they were not very good and will probably win half their games.
