CAL POLY J. C. AND HIGH SCHOOL TEAMS GROUPED TOGETHER

The New Graduating System

After September 1899, the University of California stopped giving any grades to its students. Academic grades, A, B, C, D, E, were adopted by the University of California system. Previously, the faculty members had been rating and grading the students. This system of three passing grades, A, B, C, in the lower divisions, is in all probability to be finally adopted by the University. The University of California system will therefore suffer a reduction of two grades, A and B, in the lower division. We desire to include the entire college in the new plan. The grades should in no way lower the value of the degree. A 64 to 69 per cent will mean satisfactory.

Glee Club Appears

I think this explains the process between the music teacher and the students. The students are then given a grade for their performance. The grade is recorded on their transcript and is used to determine their academic standing.

The Polytechnic School

The Polytechnic School of the University of California is a highly respected institution. It is known for its strong programs in engineering and technology. The school has a long history of producing successful graduates who go on to make significant contributions in their fields.

Merle Waterman Meets

Merle Waterman is a prominent alumna of the University of California. She is remembered as a hardworking and dedicated student who went on to become a successful engineer. Her contributions to the field of engineering continue to be felt today.

U. S. Marine Band

The U. S. Marine Band is a prestigious military band that is known for its high level of musical excellence. The band performs at various events and has a loyal following. Its music is a blend of traditional and contemporary styles, reflecting the diverse musical tastes of its members.

Prominent Alumni

The University of California has a long list of prominent alumni. These individuals have made significant contributions to various fields, including science, politics, and entertainment. Their achievements serve as inspiration to current students and alumni alike.

Poly-Phase Club

The Poly-Phase Club is a well-organized group that meets regularly to discuss various topics. It is known for its lively discussions and informative sessions. The club's members are dedicated to learning and sharing their knowledge with each other.

Polygram

The Polygram is a student newspaper that covers a wide range of topics. It is known for its high-quality content and editorial standards. The newspaper is an excellent resource for students looking to stay informed about campus events and issues.

J. C. Dorm Club Gets

The J. C. Dorm Club is an active organization on campus. Its members are known for their generous contributions to the community. The club's activities are diverse, and it is a source of pride for its members.

Glee Club

The Glee Club is a popular student organization that performs at various events on campus. Its members are dedicated to producing high-quality musical performances. The club is known for its enthusiastic and supportive atmosphere.

DON'T SAY YOU DIDN'T HAVE A CHANCE

"I didn't have a chance." That is the cry most everyone makes after they let the chance slip by without giving it a thought. People are inclined to curse themselves when they make such a mistake. This is a sad state of affairs because there are no mistakes, but when one passes up chances which cost nothing to take and which will more than likely prove an asset in the future, he has betrayed himself and will perhaps regret it deeply in the passing of years.

We are a student body of about four hundred and fifty. It is quite possible that in counting up the line of work, this same student body will be divided into two or three hundred different lines of work.

Some will be satisfied, whereas others will say, "I didn't have a chance when I was in school." These people are just bothered with one of those typical human characteristics of self pity. While in school one should at least try to make it serve you as a laboratory in which you experiment upon yourself. Trying to find out how you act and where you should go.

The study of English, Algebra and Chemistry does not make up our whole school curriculum. It is in the activities of the school that one finds out what he is capable of doing best. There are The Art Study of Drawing, Algebra and Chemistry, and for the L. A. Fat Stock Show.

The baby beef projects have already started for next year. A draft of the original plank of the Bunch's Run, which will be started down at once. The poultry class visited the local plant of the Hamilton Valley Creamery, hoping to sell Grade A eggs, and grading and the making of eggs. The problem of selling them was explained. This visit was very interesting and exploratory.

California Polytechnic's new laboratory system of writing. He certainly must know that he left no free chances untouched. D. J.

QUALITY THAT COUNTS

Everyone coming to California Polytechnic should feel that California Polytechnic School is doing its best to teach every student and to make them the best it can when he leaves school.

Every student is here to take the advantage of excellent teaching and the best of practical experience which the California Polytechnic offers. When education is earned honestly and squarely, there is something more than education in it—SATISFACTION.

T. W. P.

OPINIONS OF OTHER EDITORS

Success in life should be the aim and ambition of every person who seeks to live. To some people, the happy-go-lucky kind, success is something that will come only if fate so desires. While in school one should at least try to make it serve you as a laboratory in which you experiment upon yourself. Trying to find out how you act and where you should go.

OPINIONS OF OTHER EDITORS

Success in life should be the aim and ambition of every person who seeks to live. To some people, the happy-go-lucky kind, success is something that will come only if fate so desires. If it does not come it will not make any great difference to that person. There are others who strive for it only to be a failure when they expected to be a man of value when he leaves school.

In the Huddleston valley was the man who could drive a team that could light a fire in the most westerly region. He could wield a brand with such skill that even the West Wind himself would stop to watch. He was the master of all trades, and his name was Poly Boy. He was the only one who could control the dragon's movements, for it was he who had the special gift of being able to ride the dragon and communicate with it. Poly Boy was the hero of the time, and everyone admired his courage and skill.

As the dragon flew, Poly Boy rode on its back, his hat flying in the wind. He could feel the power of the dragon beneath him, and he knew that he was invincible. The dragon was his friend, and he trusted it completely. The dragon was a symbol of power and strength, and Poly Boy was its master.

The dragon was able to fly for miles without stopping, and it could travel at incredible speeds. It was a magnificent creature, with a powerful body and deadly claws. Poly Boy knew that he could ride the dragon anywhere and everywhere, and he was proud to be its rider.

The dragon was the symbol of Poly Boy's power and strength, and it was the source of his courage. It was a creature of legend, and its presence was felt throughout the land. Poly Boy was the master of the dragon, and he was feared and respected by all who knew him. He was the hero of the time, and his legend would live on for generations to come.
Heron Hal Swamps Deuel Dorm 13-0

On Monday night, October 18, the Heron Hall team took the Deuel dorm team for the first time in the history of the two schools. The game started out with Deuel taking the ball over and running it in for the first touchdown of the night. The Heron Hall team then came out to gain the ball and it was sliced up the middle and the ball was fumbled. Second quarter, Deuel was up for the half and the score was 13-0 in favor of Heron Hall. After that, it was a riot for Heron Hall. They went over for another touchdown, only to be called back. The fellows who played on teams were: Herb Hall, quarterback; Charlie, center; Aubrey, halfback; Warden, guard; Wilt, halfback; and Hughes, fullback. Both teams did very well and the game was a hard fought game from the Town to the J. C. The call of the Unbeaten

We sing of no wild glory now,
Of mighty charges down the Aeld
Where nothing left from hell to sky
But there is one pleasure
I'd like to be a handsome end,
Graceful, dark and tall,
With manner so
Like a leader of the Aield,
So when they pulled a center rush
And when they came around my end
I'd mash them down to hash.
We know how crude the game must be,
But it must be with sportsmanship
We know about the barricades that
Will be, will be,
The stands would just go wild.
If mighty charges down the Aeld
