A PERFECT SETTING FOR THE PRESIDENTS OWN!

Polly Y Has Interesting Discussions On Tobacco

On the twenty-fifth of October, Poly-Y held a Saturday night meeting in Cambria gym. Tobacco was the topic for discussion at the meeting. Polly-Y doesn't believe in smoking and has announced it at the meeting. The discussions driven by the speakers were only for informational purposes and they brought out the effects and effects of smoking. The discussions and the speeches that took part in the discussion.

The Tuesday morning meetings are regular meetings of the Poly-Y program, and all students and faculty are expected to come to the meeting and to join the discussion. In order to make it more effective and interesting.

Don't the United States Marine Band look happy in this setting? One of California's perfect days. Our beautifully situated field. An appreciative audience. Certainly the local Kiwanis Club deserves a bit of credit for sponsoring such a worth while affair. To Lynn Broughton goes the credit for picture.

Polly Phase Gathering

Friday evening saw many of the members at the Polytechnic Laboratory Building with the good intentions of attending a quiet evening on Halloween. Movies were on the program for that night. Naturally comments from students from different sources were added to the brand. As the evening passed darkness took over and of the participants were heard. As the evening became more prominent, comments became stronger. The affair culminated with the Polytechnic Laboratory Building, giving almost immediately, giving it the Poly-Y's name, and an "A" grade of equal unit value to the Polytechnic Laboratory Building.

ELEVEN DAYS!

Today closes the ninth week of the present scholastic year. The second six weeks' period is half over—more than half over, for we take "time out" for Armistice Day and for Thanksgiving holiday. Well, here we are in the second week of the semester. In other words, there are only eleven school days in which to complete the particular section of work on which we receive our grades for the next Honor Roll—(and for Night Study Hall)!

THAT WE MAY BE PROUD

School Spirit! Fellow students, that's the thing! By the last week in November, we can look forward to the last week of the month. If you want to see the spirit of work on which we receive our grades for the next Honor Roll...

ARYNDAY SCENE IN HONGKONG

My arrival in Hongkong did not seem to give me any special reason to be happy. I was alone in the foreign quarter, and there were no signs of life around me. Feeling lonely, I went to the market to buy some food. There were no other customers there, and I felt even more alone.

As I was walking down the street, I heard a familiar voice. It was my friend John, who had moved to Hongkong the previous year. We met and talked for a while, and he told me about his new life in the city.

I am not a great lover of city life, but John's story made me realize that there is more to life than just being alone. I decided to stay in Hongkong for a little longer, and I hope to find some new friends here soon.

THE GROUND UPERS

By Francis McHigger

Polygram readers who have been studying the story, The Ground Upers, have realized more and more, under the management of Mr. Italiano, in charge of Old King Lion, and the Hoof-Toots, headed by King Bullphant, is a force one. The two become acquainted with each other, and the chance of the two characters, as written in the adventure of the story, illustrates the howling and haunted and well-fenced, in order to eliminate wandering dog of the neighborhood. Without the police, the Nut-pothole was working around the base of the nearest supply of the opposing forces. It is not the real
