Steinmaus, chair of the Teacher-Scholar Model Task Force, first reading (pp. 4-5).

III. **Adjournment:**
RESOLUTION ON A WORKING DEFINITION of LEARN BY DOING

Background: Pages 11-16 of the WASC Capacity and Preparatory Review Report describe a two year effort to develop a definition of “learn by doing” based on: the analysis of pedagogical theories and current practices by the WASC Learn By Doing Working Group; campus surveys and focus groups conducted for all campus constituencies; and student research. Additional efforts to refine the definition through committee efforts and faculty solicitation have occurred since the December 2009 submittal of the Preparatory Review Report.

WHEREAS, The Cal Poly community has never adopted a working definition of Learn by Doing; and

WHEREAS, Learn by Doing was one of the four major themes of Cal Poly’s WASC Self Study Committee approved by WASC; and

WHEREAS, The WASC Review Team encouraged Cal Poly to provide an evaluative definition of our Learn by Doing educational philosophy following its initial review in early 2010; and

WHEREAS, Programs may use this definition of Learn by Doing to assess the diverse ways in which Cal Poly’s signature pedagogy contributes to student learning at Cal Poly; and

WHEREAS, Learn by Doing is an educational model that represents all disciplines at Cal Poly and thus is in need of a definition that reflects this diversity; therefore it be

RESOLVED: That the Academic Senate of Cal Poly recommend for approval the attached definition of Learn by Doing.

Proposed by: WASC/Academic Senate Learn by Doing (LBD) Task Force
Date: November 15 2010
Revised: January 24 2011
Learn by doing is a deliberate intellectual process whereby students acquire and apply essential knowledge and skills through self-reflective, active engagement in their education inside the classroom and beyond it.
RESOLUTION ON DEFINING AND ADOPTING THE TEACHER-SCHOLAR MODEL

WHEREAS, Cal Poly is a predominantly undergraduate university committed to the highest possible quality of education; and

WHEREAS, In support of the mission of Cal Poly, the faculty engage in teaching; research, scholarship, and creative activities (RSCA); and service; and

WHEREAS, A balance of faculty talents and activities is essential to meet the objectives and goals of the institution, resulting in a range of duties and responsibilities among faculty; and

WHEREAS, Continued intellectual/professional growth of faculty, such as through Research Scholarship and Creative Activities, is central to providing a vibrant learning environment for students; and

WHEREAS, The Teacher-Scholar Model as proposed in Boyer (1990) characterizes the engagement of faculty in both teaching and scholarship, be it

RESOLVED, That Cal Poly faculty adopt the Teacher-Scholar Model, defined as participation in both teaching and scholarship; and be it further

RESOLVED, That the Teacher-Scholar Model include, when possible, meaningful student engagement in faculty scholarly activity and inclusion of scholarship in teaching to create vibrant learning experiences for students; and be it further

RESOLVED, That scholarship be defined in general terms as the scholarships of discovery, application, integration, and teaching/learning (Boyer 1990), implemented in a discipline-specific manner while mindful of Cal Poly’s mission; and be it further

RESOLVED, That the Teacher-Scholar Model allows for individual variations in the balance between teaching and scholarly activities; and be it further

RESOLVED, That in support of the Teacher-Scholar Model, the Administration should work with the Faculty to remove impediments and provide appropriate resources to implement the Teacher-Scholar Model.

Proposed by: WASC/Academic Senate TSM Task Force
Date: 25 January 2011
BACKGROUND:

The Teacher-Scholar Model essay in the WASC Capacity and Preparatory Review Report (Dec. 2009) begins by recognizing that though Cal Poly is a teaching-centered institution, scholarship has taken on a greater importance as the mission of the institution has evolved. The essay finds that Cal Poly faculty and staff appear to engage in a high level of scholarly activity that enhances student learning, according to the results of the 2009 Cal Poly Student and Faculty/Staff Surveys, the Department Head/Chair Survey, and the literature. Progress toward enacting the teacher-scholar model at Cal Poly, however, has been hampered by the lack of: 1) a comprehensive understanding of scholarship, and 2) an accepted working definition of the model.

Cal Poly has traditionally been a teaching-centered institution, but, over the last thirty years, scholarship has gradually taken on a role of greater importance. The University’s mission is tied to that of the CSU, and the system’s mission has changed significantly since the days when faculty scholarship was proscribed in keeping with the strict vision of the 1960 California Master Plan for Higher Education. In 1989, with significant leadership provided by Cal Poly and the Cal Poly President’s Cabinet, the Joint Committee for Review of the Master Plan for Higher Education concluded that research, scholarship, and creative activity are central to the mission of the CSU, and the Educational Code was changed to reflect this conclusion. The Cornerstones Report of 1997 acknowledged this change when it stated that “faculty scholarship, research and creative activity are essential components” of the CSU’s teaching-centered mission (Principle 4). A decade later, the 2007 CSU Provosts’ Statement asserted the economic value of what has come to be known as the “teacher-scholar model,” whereby teaching and scholarship are understood to be mutually reinforcing. The statement identified the model as an important way to keep California’s citizens competitive in a global marketplace based on human capital economies—an important consideration for an institution that has always played a major role in preparing the state’s workforce. In turn, Cal Poly’s current mission statement emphasizes fostering teaching and scholarship.

The literature on student learning supports the value of an increasing emphasis on scholarship within the CSU and at Cal Poly. Student involvement in undergraduate research is a form of active learning, and it has been deemed a high impact practice that enhances student retention and engagement. Though undergraduate research is more common in the sciences, student involvement in faculty scholarship is possible in all disciplines and yields encouraging results. According to the provosts, it increases the frequency of meaningful interactions with faculty and peers; encourages students to spend more time and effort on research, writing, and analytic thinking; and involves them in more collaborative forms of learning.

Scholarship also benefits student learning by helping to maintain faculty and staff enthusiasm. As the CSU Provosts have stated, “When faculty [members] are at the cutting edge of their disciplines, they remain connected with the source that feeds their intellectual curiosity and creative abilities and are able to establish and maintain partnerships with other scholars around the world.” This scholarly currency, in turn, enhances faculty teaching and interactions with students, from freshman through doctoral levels.
