### Biotech QL+ Center at Cal Poly and Founding Alum Are Topic of Filming

A camera crew with the United Services Automobile Association (USAA) was on campus filming engineering alum Jon Monett (IE '64) at Cal Poly recently. The project was a segment for the organization's annual report, focusing on the new QL+ Center located on the Cal Poly campus. The biotech center does research and development of prostheses for men and women who have been injured in battle -- from weapons, explosives or fire. The Monett Foundation supported the

creation of the center with a \$500,000 donation.

### International Printing Week Workshops Happening This Week

Cal Poly is hosting the annual International Printing Week workshops through Jan. 22. The program covers trends and developments in graphic communication technology, management, design, printed electronics, packaging, hardware, software

and printing processes. It is one of the largest printing events in the nation. This year, workshops will outline practical and intellectual twists shaping the future of the industry. The event dates commemorate the birthday of Benjamin Franklin, an early leader in printing technology. Printing Week serves as an intensive training for students. Industry members participate through lectures, product support and career networking.

## Campus Announcements

### Helen Bailey Elected to ACTCSP

Helen Bailey, Student Services Professional II in the Office of the Registrar, Evaluations was elected by Cal Poly represented and confidential employees to serve as the staff representative for the Presidential Search Advisory Committee, known as the Advisory Committee to the Trustees Committee for the Selection of the President (ACTCSP). The ACTCSP will convene at Cal Poly in February for a brief organizational meeting. The remainder of the committee activities will occur in April and May. Congratulations Helen.

### Results of Innovative Surveys Made Available to Campus

Last winter and spring, Cal Poly administered two innovative campus surveys, one to students and the other to faculty and staff. The surveys were part of the ongoing WASC process of re-affirming the university's accreditation. The results formed the backbone of the self-study, which was submitted to WASC on Dec. 3. The results are available at [http://wasc.calpoly.edu/engagement/survey\\_results.html](http://wasc.calpoly.edu/engagement/survey_results.html)

## Sunday Computing Outages Set for Jan. 24, 31 and Feb. 7

On three consecutive Sundays, Jan. 24 and 31 and Feb. 7, Information Technology Services will perform work during a network and computing outage that will affect all central computing resources and campus-wide wireless service. The scheduled outages will run from 4 a.m. to noon while ITS Network Administration upgrades the ITS data center network firewalls. Affected systems include the my.calpoly.edu portal page and all applications reached through the "single click access" channel, e-mail and calendar, all wireless service, PeopleSoft, the PolyData warehouse, health services resources, alumni and advancement resources, and System Status. Campuswide "wired" internet access will be operational, and the Cal Poly home page will not be affected. Network Administration staff are communicating with local area network coordinators across campus to clarify the impact. For a complete list of affected services, visit System Status on the Technology tab in the portal before the outage begins, or consult with your department's technical support staff.

## Wilderness First Aid Certification Course Set for Feb. 13, 14

The Poly Escapes Outdoor Adventures Program will host a Wilderness First Aid class presented by the Wilderness Medicine Institute (WMI) of NOLS. The course provides WMI Wilderness First Aid Certification and Wilderness First Responder re-certification. The class is scheduled for Saturday and Sunday, Feb. 13 and 14, in UU 220. Tuition is \$145 for students and \$195 for non-students and covers fees for the course only. Non-student participants can contact Nancy Clark at ext. 6-7007 or [naclark@calpoly.edu](mailto:naclark@calpoly.edu) for registration instructions. Additional information is available online at [http://www.asi.calpoly.edu/poly\\_escapes\\_trips/get\\_active](http://www.asi.calpoly.edu/poly_escapes_trips/get_active).

The two-day course is fast-paced and hands-on and covers a wide range of wilderness medicine topics for people who travel in the outdoors. WMI's curriculum is unique and includes advanced topics that other programs leave out such as dislocation reduction, focused spinal assessment and epinephrine administration. This course is ideal for trip leaders, camp staff, outdoor enthusiasts and individuals in remote locations. WMI's course is pre-approved by the American Camping Association, the U.S. Forest Service and other governmental agencies. This course does not include CPR.

### Political Science Department Hosts Talk on Problems of Freedom

The Political Science Department will host John Medearis from UC Riverside's Department of Political Science on Thursday, Jan. 21 from 3 to 5 p.m. in UU 216. Medearis' talk, titled "Contemporary Problems of Freedom," is free and open to the public.

For at least 60 years, scholarly thinking about freedom has been based on the idea that agents interact with each other, and an agent is either free or not free. As an alternative, Medearis proposes a model of freedom that illuminates problems of domination, oppression and exploitation in both global and local institutions. This model moves us beyond simplistic judgments of whether a particular agent has interfered with another's freedom toward a more nuanced understanding of the roles played by different agents in unjust social relations and indicates ways in which less

free people may make themselves freer. Medearis argues that the advantages of such a model are especially clear when we consider the sorts of institutions and forces that compose the phenomenon of globalization.
