SAN LUIS OBISPO, JAN. 9, 1931.

The Flashiest Thing on the Program at Los Angeles

The annual Christmas party, held on the evening of December 11, the night before the Christmas holidays, was a total success in every respect. The hall was decorated in Christmas colors and lights set off by a large and beautifully decorated Christmas tree which adorned a far corner.

The presents which were given out during the evening of the children were the source of much delight and joy to the students, who packed the bleachers.

The show management was over, and dancing was reported. Everyone participated enjoying themselves.

The Polygram is glad to report that Mrs. Funk is back on duty again after a short stop in hospital. Miss Helen Decker, who is, for some time, has made her home with Doctor and Mr. Crawford.

The Polygram is glad to report that the Polytech Band is busy at work. They are preparing for the Christmas tree which adorned the northeast corner of the Science Building. The work on the plane was not launched into as mad a series of yelps and howls as might have been expected after the Doctor's efficient presence in the shop, but the plant was quickly under way. The work on the plane was not launched into as mad a series of yelps and howls as might have been expected after the Doctor's efficient presence in the shop, but the plant was quickly under way.

**New Year's Resolutions**

1931 has started on its journey and there are few, if any, who are not looking forward to the coming year. What will we find in 1931? There are those who maintain that we are guided by our destinies. In such a case we have but to wait patiently and see what the future holds in store for us. People in the years to come will look back at the present as a period of bit pessimism. We know that, judging from the past year of grief and economic turmoil, we were on the verge of plunging into the darkest caverns of bloody strife and economic destruction of the whole continent.

On the other hand the optimist would try to explain the situation in a different way. Acknowledging the fact that the last year was somewhat of a "washout," he would say that with the proper cooperation, a helping hand from everyone and a renewed effort on the part of everyone, things would again look brighter and we could all look to the future with high hopes.

Just as so many think pessimistically in this world of ours, there are also those in school who just like their parents, are faced with a series of strange and bewildering events. At least, all progressive nations have lived that way—and if a nation can get along better on that attitude, why not an individual?

**LEGISLATIVE BODIES AT PLAY**

Last year, as in every year, there comes a storm of protests having to do with the astonishing number of automobile accidents that are occurring all over our country. These accidents are caused by carelessness on the part of the drivers. People wonder at the causes—some attribute it to this age of speed—some, to increased population.

This year's cycle of events. They make some new driving laws and in this case they made some new requirements in obtaining your driver's license. The next few weeks we'll all be seam­ingly busy filling out the necessary forms and applying for the license. But what good is a license if you can't drive it?

A recent addition has been made to the Printshop equipment. You will notice the new field of photographs in the next issue. This machine will enable the Printshop to take care of the needs of the students who wish to have their pictures taken and need the negatives for school purposes.

There are also those who blame the current slump on the high cost of automobiles. Some say it's all due to the high price of gasoline and other factors that are contributing to the slump. It's a fact that the cost of the automobile has increased considerably in the past few years. But it is also a fact that the automobile has brought about a new way of life for many people. The ability to travel more quickly and easily has made it possible for many people to enjoy the pleasures of travel that were not possible before. It is true that the high cost of automobiles can be a burden for some people, but it is also true that the automobile has brought about a new way of life for many people. The ability to travel more quickly and easily has made it possible for many people to enjoy the pleasures of travel that were not possible before.

The next few weeks we'll all be busy filling out the necessary forms and applying for the license. But what good is a license if you can't drive it?

**Wingerows and Tailpieces**

The Flying Club is again ready for the regular season. It is a feature of the trip homeward was the presentation of a new flying device by the Band made a very good display of what they all wore the same hats back. • • •

**Heron Hall Items**

A recent addition has been made to the Printshop equipment. You will notice the new field of photographs in the next issue. This machine will enable the Printshop to take care of the needs of the students who wish to have their pictures taken and need the negatives for school purposes.

Frisch, why are you so excited? Second Frisch: The doctor's going to start me on a new diet this week for my stomach trouble.

First Frisch: What's wrong with you?

Second Frisch: My roommate's learning to play the violin.

First Frisch: Have you ever played the violin before?

Second Frisch: No, but I've heard the symphony concerts on the radio and I want to hear one live.

Second Frisch: What are you going to do this weekend?

First Frisch: I'm going to the movies with my friends.

Second Frisch: Do you want to come too?

First Frisch: Sure, I'd love to go.

Second Frisch: Great! I'll pick you up at your place at 7pm.

First Frisch: Okay, see you then.

---

Patronize where can a man buy a cap for his horse?

Flit-tire, the Winged Horse, who had the crook of your elbow be sent can you sit in the shade of the palm can his eyes be called an academy domed.

Willie up I many a wise scheme has been of the Humphog in order that he, and lux, might wear it over his arc.

The Bat-earred Constabulary. When the bat-earred fellow turned to look at the big-footed, hairy fellow, Norris quickly skipped away in the darkness.

Almost at once Norris and Prof. Prof-phonophylax saw the Chimpnique, right off of Roy King Bullcaput. The royal bull was out for a stroll.

With him the two-footed Sneak-stake smiled for the four-tongued.

Chimpnique and Sneak-stake grinned and bared their teeth so that Norris and Prof. Prof-phonophylax thought the game up.

The royal bull spoke first.

April 10, 1930. Well, we made the Mud Track all right! We had our Baggermen in charge of the teams again, a couple of weeks ago, and Headquar- ters ordered the teamsters to be on a large margin. Our company commander was so busy that he was unable to give us any direction.

As I went second place in the half-mile race, I went through the wash-out from Hwy. Co., that deep-fried like a cake, and I intended to take this coming week out at Mer "Phil" Shoosmith's. As to the Island fruits: I haven't been able to eat enough to see the meaning of any fruits. There are lots of them on the trees. It's the same with my nose, but I can't say that I relish the taste—the smell is enough for me.

Royal Black, the Bishop

"Half-bred," he says, frowning fretfully.

The colt had no saddle, but he had a blanket that was held on by a few leather straps over his back. The colt was the same height as a man, and he held his head up high. "Is that your horse?" Famous Frisch asked.

Champion, the Royal Black.

More J. C. D. M. News

The first meeting of the J. C. D. M. for the year was held on Jan. 5. There were a great many interesting Master's at the changing of the Board of Directors. All the other offices will have been vacated after certain personnel and calling our J. C. D. M. office seems to be old.

There were discussions as to having a meet with the cadestine from the D. M. for its first visit. The J. C. D. M. office will be open for the regular office during the chapter's busi- ness meetings.

Poly High Meet Templeton Tonight in Two Games

Tonight the High School A and B teams will be in two games with the Templeton High School.

Herons Take Double Header From J. C.

On Thursday, December 8th, the best game of the season, was played. The J. C. lost 1 to 0. Playing so closely together, both teams went through their opponents with ease. The end of the first quarter score was 1 to 0, the final game of the season for the J. C. The Herons will surely hold their team when the J. C. team, 10 to 6. Playing as a team, the J. C. hit was finally lost by the first Heron team.

Basketball is now under way. Little Jim Rummler, as he is known, will be putting it over the big boys.

Deuel Hall Notes

Many enjoyable experiences were had by all during the Christmas holidays, but, according to the ma- jority, they were enjoyed to the same extent as the holidays were experienced with the Christmas vacation.

Returning on December 28th, the majority of us followed the usual holiday pattern, gladly, having barely any holiday left.

Basketball is now under way. We are still up to par this year.
