Guiding Principles
Student Success
EAP Summary
Review EAP Policy
    Maintaining EAP
    Maximum Units
Questions…
Guiding Principles

• Student’s path to graduation should be transparent, flexible and as simple as possible

• Students should be treated equitably through the consistent application of policy

• Students should have university-wide support in reaching success regardless of their affiliation(s)

• Students deserve communication in a timely manner
Guiding Principles

• Upon admission to Cal Poly, students should have a clear understanding of the expectations being placed upon them

• Policies and procedures should support the student’s learning experience

• Continuous review of our policies and practices should be performed regularly

• Policies and practices should promote quality programs and efficient use of resources
Student Success

• Gives both students and advisors a tool to monitor whether or not a student is on track

• Provides an “advising” opportunity
Expected Academic Progress (EAP)

• EAP is defined as making appropriate degree progress each AY by earning a specified number of degree applicable units that meet major, support, general education, concentration, and free elective (if applicable) requirements that are directly associated with the student’s declared major.

• EAP is monitored for all students every Spring to determine if the student has an “EAP deficiency”
Expected Academic Progress (EAP)

- Students may be required to meet with their advisor where s/he will discuss their academic progress and assist them in creating a reasonable academic plan to help them get back on track.

- If a student continues to have an EAP deficiency, the department/college may place a hold on their registration for the next term or place them on administrative probation.
Expected Academic Progress (EAP)

- Those students who have a demonstrated need to attend Cal Poly on a part-time basis for at least three consecutive quarters may be considered exempt from the EAP policy.

- Students who have to comply with an externally imposed set of degree progress standards may continue to follow those guidelines (e.g. NCAA).

- Other students for whom the EAP policy represents undue hardship may appeal for exemption.
Maintaining EAP - Freshmen

• Students who are enrolled in four-year degree programs are expected to graduate in twelve quarters. Normally, this will not include summer terms

• Summer term is considered as an opportunity to make up for the lack of progress in prior quarters or to “bank” progress for future quarters
Maintaining EAP - Freshmen

- To maintain EAP the following standards should be met by the end of each respective year:
  - 1\textsuperscript{st} Year: completion of at least 20\% of the total number of units required for the degree
  - 2\textsuperscript{nd} Year: completion of at least 45\% of the total number of units required for the degree
Maintaining EAP - Freshmen

- 3rd Year: completion of at least 75% of the total number of units required for the degree
- 4th Year: completion of 100% of the total number of units required for the degree
Maintaining EAP – UD Transfers

• Ideally, students who enter Cal Poly as UD Transfers and who are enrolled in four-year degree programs are expected to graduate in six quarters.

• EAP policy allows UD Transfers nine quarters to complete their degree requirements at Cal Poly.

• Normally, this will not include summer terms - summer term is considered as an opportunity to make up for the lack of progress in prior quarters or to “bank” progress for future quarters.
Maintaining EAP – UD Transfers

• To maintain EAP the following standards should be met by the end of each respective year:

  • 1st Year: completion of at least 55% of the total number of units required for the degree

  • 2nd Year: completion of at least 80% of the total number of units required for the degree
Maintaining EAP – UD Transfers

- 3rd Year: completion of 100% of the total number of units required for the degree
Maximum Units – Freshmen

• Students graduating on time (i.e., 12 quarters) have no cap on the number of units they may complete at Cal Poly

• Students who do not graduate on time may complete no more than 24 Cal Poly units above the number required for the degree.

• Exceeding the allowable 24 Cal Poly units may result in a hold being placed on the student’s registration or the student being placed on administrative probation
Maximum Units – UD Transfers

• Students graduating on time (i.e., 9 quarters) have no cap on the number of units they may complete at Cal Poly.

• Students who do not graduate on time may complete no more than 24 Cal Poly units above the number required for the degree.

• Exceeding the allowable 24 Cal Poly units may result in a hold being placed on the student’s registration or the student being placed on administrative probation.
