CSU Nisei Project Underway at Cal Poly

Cal Poly is looking for Japanese-American alumni who had their education interrupted by relocation to internment camps during World War II. Cal Poly has been identified as one of six CSU campuses that had students who were removed from their programs and interned during WWII. The California State University Board of Trustees voted unanimously in September to award Special Honorary Bachelor of Humane Letters degrees to CSU students of Japanese ancestry whose college educations were disrupted by their forced removal from the West Coast and incarceration during World War II.
