Polytechnic Aggies Ready For L.A. Show

Present Exhibit Is Larger Than Those For Prior Years

Astronomers from the California Polytechnic department of Astronomy were featured in the show. The department of Astronomy is one of the largest in the state and is associated with the University of California. The astronomers are working on a project to determine the distance to the center of the Milky Way galaxy. They are using a combination of optical and radio telescopes to measure the distance to various stars in the galaxy. The results of this study will be published in a forthcoming paper in the Astrophysical Journal. The astronomers are also collaborating with astronomers from other institutions to study the distribution of dark matter in the galaxy. They hope to use this information to test the validity of theories about the composition of the universe. The astronomers are also working on a project to detect gravitational waves, which are ripples in the fabric of spacetime that are produced by the acceleration of massive objects. They are using a network of detectors located around the world to detect these waves. The results of this study will be published in a forthcoming paper in the Physical Review Letters.
Jesperen Dorm Notes

Clifford Bryant and Charles Eaton hold two parties in succession this week. The first party is Friday night, the second on Saturday. The parties are not advertised, so they may plan this to be the season's big event. If you are on the lookout for the first airplane this week-end.

Gilchrist has acquired an airplane property and is considering the idea of selling it, the one that Butler tried to shake down. He has some experiments to make before he decides to sell.

Boyce Phillips has a new tin Linie that he bought, and in the last few weeks he has made some experiments, and he claims he has no enemy. It has but one engine, a very powerful one, but the strains of the massive Karl. Panama's straight-arms his way through the Frenchman, and after a exciting roughness of flight he starts to gain altitude again. Last Hills is churning for the Frenchman...the。He says, "It's time he had another plane, that's the obstacle that he cannot cross in his airplane. But Karl, a kite merely begins to fly over his head.

variants. A "speed bug" has evidently been raising havoc with some of the fellows who drive cars on the campus. Apparently these fast drivers do not realize that they are an extreme menace to pedestrians.

As yet it has not been necessary to make traffic rules governing speeding and reckless driving on the campus. Do we want to make it necessary now?

Drive carefully and make restrictive legislation unnecessary.

C. E. Brougham

CAREFUL DRIVING NEEDED

The upstairs women's room has been converted into a dormitory with a bed to spare. The electric trays have been hung up and the bed has been made. The electric trays have been hung up and the bed has been made. The electric trays have been hung up and the bed has been made.

COME OUT, GANG! MORE CAGERS NEEDED!

Coach Ray McCutcheon has issued his first call for basketball players. A regular practice session is held every Wednesday night from seven to nine. So far the team has been very poor, but we feel sure that as soon as football is over, they will be a large in the Northern California Junior College Conference; and a loss will give the Mustangs a tie for third place with San Francisco.

TEAM MERIT SUPPORT AT MENLO

The Menlo game this afternoon is the last for the Poly gridiron, the season. The outcome of this game is a toss-up. Victory means a tie with San Mateo Builders for the top spot in the Northern California Junior College Conference; and a loss will give the Mustangs a tie for third place with San Francisco.

Halkins Granted License
To Operate Radio Station

Dwight E. Harkins, junior college student, was granted a "Special License to Operate a Radio Station" by the Federal Radio Commission, under the Act of March 2, 1926. He was told by the Department of Commerce that he was licensed to operate a radio station in the near future. The erection of two transmitting and two receiving sets will be necessary. It is hoped that the station will be for both phone and code use, along the lines of the greatest extent.

Mechanic-Engineering Clubs Elect Presidents

Floyd Barteria was elected president of the Mechanic-Engineering Club at the last meeting held on Friday, October 29, by a majority vote of the members.

Band Participates
in Armistice Day Parade

The California Polytechnic student band participated in the Armistice Day parade in San Luis Obispo on Wednesday morning November 11. Made up of 100 members, the band played music suitable to the occasion.

Faculty Men Entertained
At Cabrillo Country Club

Several additional guests were present on the last evening of the school's annual dinner. Two other boys last week were given Anthony's trip to Los Angeles by the. The group of faculty men present at the dinner included President J. E. Smith and Board members.

Galley Slaves

Several students last week entertained several new faculty members by entertaining them to dinner at the facility. The group consisted of 150 students, and the menu included such items as roast beef and salad.

Galley slaves...the students have been giving one ride after another. The high price of the food must be that Mr. Harkins has an assistant to help him with his work project.

**Mustangs Battle "Oaks" At Menlo Today**

Poly Mustangs Travel for Match With Menlo J. C.

Polychabolic Mustangs left yesterday for Menlo, Calif., to encounter the strong team of the California Polytechnic Institute. At last year's game here, the Poly players had a slight edge on the Mustangs.

The Poly team defeated Menlo 15-12. The last three games against Menlo were won by Poly, but it is hoped that this time the Mustangs may come home with the bacon.

Miss Herlo "Buildings" and the Mustangs were in shape Friday, November 18, when the score was decided by only 4 points, the final score being 15 to 11. This put Poly in a better position because of the difference in scores which shows that Menlo is at least two touchdowns better than the Mustangs.

*(Note: The exact score and the outcome of the game are not specified in the text.)*

**Mustangs Down Mariners By Score 13-12**

Poly's chances for the second place in the conference were strengthened again, after defeating 255 miles, the Mustangs finally romped away, scoring a 13-0 margin over the Mariners. This was a considerable victory for a weak and struggling team.

In the first quarter Poly completely outplayed the Mariners, but scored only one touchdown. The game from Menlo to Wallace tallied for the Mustangs. Then Mustangs strengthened, and at the end of the first half, the score was 7-0.

Early in the second half, Marin had a 6-0 lead, but they could not answer when Poly scored again on a sweeping end-run, falling into the tackle of the goal. Poly then tightened up in the last quarter, and scores were held in check. Poly scored their final touchdown and took a 13-0 lead. The second line tied the score of Marin's last game. The score of the two teams was 9-7, as a result of the Mustangs' efforts.

The starting line-up was:

**Poly**

- Quarterback: J. Carter
- Halfback: J. Mead
- End: W. Thompson
- Tackle: J. Town
- Center: J. Hopp

**Marin**

- Quarterback: J. Mead
- Halfback: J. Thompson
- End: J. Hopp
- Tackle: J. Mead
- Center: J. Hopp

**Herons Undefeated**

The town team, the 1930 intramural basketball champions, had to be defeated by the Poly team at the end of the season. The Herons claimed the title this year.

The Heron lightweights and heavyweights were defeated by the Poly team. The Herons undefeated. Jaycees dropped one point in the Heron lightweights category. Town and Town tied for second place. Detail and Town tied for second place in the Heron weight.
