placed with the Learning Resources Center of the University Library after every lecture, for study and review by students. The trays remain at the Learning Resources Center until the appropriate examination times.

VIII Methods of Evaluating Objectives

Grades are determined by a midterm and a final examination. The midterm examination covers the material of the first half of the quarter; the final examination covers only the second half of the quarter.

Each test consists of three general essay questions and an identification of architectural monuments. Every test is graded by the instructors. Student assistants tally grades and enter them on roll sheets.
