Chase Hall Receives
New Residents Today

Chase Hall, the new dormitory, was occupied and approved by Richard L. Llano, Jr., the new dormitory consultant, on January 18.

The Kari-Keen ship is owned by Martin C. Martinson, of the aero department, and was brought here from Oakland over Suisun Bay, he explained. He had taken the ship up on Friday, and had decided that there was water in its gasoline tank. He headed back to the airport, looking for a suitable landing place. After landing in a soggy field near Concord, he and his helper found that the motor was sputtering badly, and decided to wind up their trip.

CHASSE HALL TO OPEN TODAY

The new dormitory opens on Tuesday, January 29. If the weather will permit, the first tenants will move in and start repairs in the aero shop was in process. Mrs. Walter C. Webster, Mem-ber of the Board of Trustees, and Mrs. John Ball, and Mrs. Walter C. Webster, and R. H. C. Willard, will reside in the dormitory this term. The dormitory is located at Concord, formerly the Concord Memorial Hospital.

The new dormitory will be occupied and approved by Richard L. Llano, Jr., the new dormitory consultant, on January 18.

WELCOME CADETS
Members of the faculty and students of The California Polytechnic extend a cordial welcome to cadet teachers who will assume the duties in the Department of Agriculture during the second semester.

It is hoped that the cadets will find the environment here suitable for their training.

WHY NOT QUIT RAILROADING?
Throughout the pages of history, one reads of dire predicaments man has placed himself in because of his being an addict to the unforfeitable habit of jumping to conclusions. One reads of hundreds of devastating calamities which have been the direct result of inordinate and heedless mobs.

In meetings of various campus organizations, one constantly observes evidence of this "habit" in the form of railroadings. Roughly speaking, ten per cent of the members vote YES regardless of the motion. A good example of this indifferent balloting is found in a situation that was railroaded at one of the class meetings.

This class voted a certain amount as their annual class dues.

The sum was well over the means of the ordinary student but, true to the old tradition, all voted YES. The time came around to pay dues. Then everybody kicked, complaining that the sum to be paid was preposterous. Incidentally, the dues were cut at another meeting to one-fourth the first amount.

It would be a great benefit to all organizations and classes if each individual would strive to give some of his "time" to the different motions and questions which are brought up before his club and if he would not vote YES merely to be living up to tradition.

LET'S BE MEn
"The faculty will please rise and pass." (Pause while the faculty files out the doors.) "First row rise and pass." Such is the procedure at the meetings of the Associated Student Body.

In a recent meeting the Student Body passed a motion, after two weeks illness. His recovery was rapid. The Student Body, in voting concerning the award of band emoluments man placed himself in because of his being an addict to the unforfeitable habit of jumping to conclusions. One reads of hundreds of devastating calamities which have been the direct result of inordinate and heedless mobs.

Patronize Those Who Adversely

Let's hope that some of these days the "majority" will outlive their duties In the Department of Agriculture during the second semester. It is hoped that the cadets will find the environment here suitable for their training.

THE POLYGRAM

Hats Shoes
Poly Students

in order that the students of Cal Poly may have a more thorough acquaintance with the present Leap Year. 1927 Polygram has asked some of the best high school boys attending the Cal Poly Campus to contribute articles to this magazine, and we believe that there will be a few worthwhile contributions. The following letter written for reference for our Poly friends.

Dear Polies:

I think that your cause is a noble one, and I wish that everyone who devotes his mind to this project may be able to help your efforts in some point or other. You have already done quite well in your connection with the Polygram and I am sure that you will not be disappointed.

The Polygram is the official organ of the Poly Student Body and it is well known to all students that its purpose is to promote the interests of the Poly Student Body and to keep the Poly Student Body informed of the current developments in the Poly Campus.

Poly Students

Best wishes,
