Proclamation!!
Frosh, Beware!
Crisis Inevitable

Yes, the Junior College Sophomores of The California Polytechnic of San Luis Obispo do go to war! This much is certain. But a strange thing happens at the very beginning of the war. In fact, a strange thing happens at this time, the day of the war, the first day of April, in the minds of those who were painting and urging the boys to fight for their country during the Easter vacation. They were painting for the spring training and the Easter vacation. On the other hand, the California Polytechnic students do not take part in this campaign.

Frosh Slated to Walk Over Sophs

(By Dick Doyle, Frosh, Freshman class)

Well done, this is the big day for us. Frosh of us paint fellows have to take part in this campaign with the spirit that it is essential. It is the Frosh who will have to maintain the line. It is natural that in every group, no matter how large or small, there is a certain per cent that have a tendency to lag behind and "let John do it." In other words "must the buck." As a Frosh you will have to work. You will have to suffer. But you remember, the Frosh is the greatest. Thank the Lord! Frosh are a number of leaders who will be of valuable assistance in winning this war. And will we go to the very limit of things, this Frosh is true. Last year the Frosh walk won because they acted in a group. Let's keep up the tradition and make the Sophs their last battle.

I am depending on every member of the class to fight with us and support our leaders. As a Frosh of this class, I have the same object as the Sophs, to promote interest in this great war. We must be able to handle the Sophs, and we can do it. The Frosh are tremendously strong in this war. The mighty Frosh will be able to outwork the Sophs, in this conflict.

IS OUR GRADING SYSTEM FAIR?

There is a deficiency in the grading system for J. C. students, which works a hardship on those students who are unfortunate enough to receive plus or minus signs on their grade cards.

It seems that the registrar's office of the University of California has requested all state junior colleges when grading their students to give all grades with a minus plus or minus attached to the next lowest grade. What happens when J. C. grades are sent from here to any college or university? If a student gets a B minus in a course, this grade is changed to a C. Also, if he gets a B plus, this grade is changed to B. According to the system of grading here, such a method robs the students of anywhere from 2 to 8 points on the grade as the records do not indicate that any points are really added on to the grade.

Truck season has started with a bang. According to Coach A. P. Agosti, Poly has a chance to make a good showing this year if the team can hold together.

Several noted athletes from other schools are now attending here. One, a famous shot-putter and weight man, is often found at the gym. After showing this year is fairly Sam Johnson who has already made a name for himself in basketball. Many of his
