Poly Launches Season Against Cal Tech

Aerodynamics Department
Will Train Airplane Pilots

El Mustang Staff Named; Cranch Chief

545 Register At Cal Poly

El Mustang, last year's managing editor, the new El Mustang staff, and the former sports writer for school paper will get the green light from the Cal State Polytechnic high school and San Dimas junior college.

Flora were made and remade. Officers were elected, recruited, and regrouped in five days, and as usual, water.

Where the Cal Poly team last Tuesday night finished was the banner cental swing of the "p-."-" the byword, was made and some of the game began to look like a steady feature. He will assist in writing.

Others Staff
Pappas, of student body secretary, and friends of the institution to have worked has been on cracked-up planes and relicensed by the department.

Instructors in the aero department are M. C. Martinsen, Roy E. Metz, and Wally Baldwin, an agricultural student.

In February, 1937, it was granted an approval.

The committee when organized will select a set of rules that they intend the students to cooperate with these reportings on the campus. Foster urged them to carry their news material through the cooperation of San Luis Obispo."
**Philosophisin' Again**

By Jack Lessinger

California Polytechnic's music department has better possibilities than ever before," Harold P. Davidson, who has headed the department since 1930, said this week. The dance orchestra won a reputation as a swing band, and the Collegians have lost much of their reputation as a swing band, and the Collegians have lost much of their
tactic. Each of the 15 members of the orchestra personnel as including:

- Four Dances Monthly
- Monitor Selection of Others Who Tried
- Sponsored by a Similar Tour Is Planned for the
- Enroll at Poly
- 20 State Farmers

**The TEAM REPRESENTS US**

The bright lights in the huge stadium reveal two brilliantly uni-
formed groups of men pushing toward each other. A big-time football game is in
progress. Two nationally known university teams are battling for supremacy.

The sun from between brown hills and jagged peaks shows an-
other football game in play. One of the contesting teams is Cal Poly.

The other half of the eleven is Cal Poly. Those are both football games, but of course they differ in phys-
ical size of student bodies and fame. But there seems to be another
difference—in spirit.

This same idea makes itself apparent in the attitude of the stu-
dents. It is one of the same material since it is both the symbol and extract of the school as a whole. Our participation in football activities is less the expression of our school spirit than it is a reflection of our school spirit, and make more the representative feeling of each stu-
dents and team forward!
The freshman will have pea green uniforms this term. Francis Leach, Emile Sir!; S. A. C. representative, introduced himself. Gilbert Mssing, vice-president; Robert Ford, Marshall Fisher and Weldon Olson, secretary-treasurer, who were elected last February, are busy cleaning up the old place and planning for an initiation picnic to be held Sept. 26. Among the officers elected last February were Bill Himmelman, Herb Brownlee and Wells Gibson.

At the first meeting of the Polyphase club at a meeting this week, the freshmen made a good showing. They were Andy Bowman, president; Gilbert Graham, vice-president; Leonard Smith, and dorm representative. President L. A. C. representative laughed at every one introduced himself.

AERO CLUB ELECTS

The first meeting of the Aero club was held this week to elect officers. They included Dan Bane, president; Dick Socci, vice-president; Robert Ford, treasurer; and John Socci, dorm representative. The charter for the Aero club will be presented next Tuesday, and the club will be recognized then.

PUBLICATIONS OFFICERS

Bill Boyd was elected president of the Polyphase club at a meeting this week. Other officers elected were chairman, L. A. C. representative, Art Bussing program chairman, and Fred Lesch, editor.

STATE FAIRERS

The high temperatures during the last week have been very good for the Rocks. We are looking forward to the best year in many years. The Rocks will be busy cleaning up the old place and planning for an initiation picnic to be held Sept. 26.

The Mustangs of Cal Poly take the field tonight in a 60 minute game this season. In contrast to popular belief, the weight advantage will be with the Mustangs and not the Atom Smashers. However, if the Tech starting line is altered in only three places, the advantage dwindles only four lettermen have returned to play in tonight's frame. Only four men out of last year's squad of 84 will still be active against Cal Tech. However, it promises to be pretty evenly matched.

In the lineup the average line, as if they had their hands full, would be green, outweighed, but by Jingo tilts the outcome of the game tonight. They know their stuff too. It's here! in the playing of its natural abilities this season. However it promises to be pretty evenly matched.

The Mustangs have improved immensely during the last week. Ends that have been drilling the tall all over the yard have been snugging up to the board. They are going to learn this year, hae a streamlined team that will be out polished some guy's butt.

Regardless of the outcome of tonight's game, this will be a notable game and one well worth seeing.

The Mustangs and not the Atom Smashers. However, if the Tech starting line is altered in only three places, the advantage dwindles.
