Volume II, Number 16

Look out for Sadie Hawkins here tomorrow

Judging Team Wins National Championship

California Polytechnic college’s famous dairy cattle judging team has won the coveted Dairy Herd Improvement Association’s honors for 1939. This marks the third time the Poly team has taken first place in the nation and was the only Pacific Coast team to win in this year’s contests.

Several members of the Poly team were selected from the junior classes of the college to make up the intercollegiate team. The members were all chosen from the Poly herd by George M. Drumm, head of the dairy department.

The Poly team consisted of: George Raymond, secretary; Alton Kappes, chairman; Tom Carlson, and John Carriaburu.

Sources for the Poly team were contributed by the agriculture college, the Dream dairy, and the Dornwood, head of the dairy department.

Li’l Abners and Daisy Maes Will Dance Amid Dogpatch Atmosphere Tomorrow Night

What happens when Daisy Mae’s unpopular uncle, Mr. Li’l Abner, and his domineering wife, Miss Prunella, from the Dogpatch Farm, are invited to Poly? The answer is quite simple—Daisy Mae and the Poly Royal Queen are the center of attraction at Poly.

Daisy Mae will be wearing the Poly Royal crown and Mr. Li’l Abner will be the grand marshal of the Poly Royal Court at the Poly Royal Fling to be held in the Poly gymnasium.

Will there be a Sadie Hawkins leg contest and a Sadie Hawkins dance? It seems that the Poly is quite well acquainted with its subject.

An exciting dance contest will be held and the Poly girls will be the center of attention.

Cal Poly emblem belts... and carnival prizes will be purchased for the Poly girls, just as they are purchased for the Poly boys. The dance will be held in the Poly gymnasium.

Two Days Remain To Enter Paper Naming Contest

If you enjoy writing and come up with a great name, why not enter the contest that is running for the Poly Royal Queen? The deadline for entries is January 26th, so you have only two days left to submit your entry.

Enter your name now, and you could be the one to choose the Poly Royal Queen's name! The contest is open to all Poly students, so don't miss your chance to be a part of this fun event.

Names for Campus Streets Accepted In Meeting of SAC

Two years ago, the student council accepted names for the streets in the new science building complex. These names were submitted by the students and accepted by the student council.

The names that were accepted were:

- Science Avenue
- Biology Lane
- Chemistry Drive
- Physics Road
- Engineering Court
- Agriculture Square

These names reflect the student's passion for their respective fields of study.

The need for an organisation of the campus is discussed in this meeting of the student council.

The main subject to be discussed at this meeting will be the Poly Royal Queen, and the Poly Royal Fling.

A new Poly Royal Queen will be chosen this year, and the Poly Royal Fling will be held to celebrate her reign.

The Poly Royal Queen will be crowned at the Poly Royal Fling, and the Poly Royal Fling will be an exciting event for all Poly students.

Two Days Remain To Enter Paper Naming Contest

If you have a creative name for the Poly Royal Queen, why not enter the contest? The deadline for entries is January 26th, so you have only two days left to submit your entry.

Enter your name now, and you could be the one to choose the Poly Royal Queen's name! The contest is open to all Poly students, so don't miss your chance to be a part of this fun event.

The Eyes of California Are on Poly

A great many students upon entering any school assume that they are automatically members of the student body—an assumption which is true. However, there are often organizations within this student body that often include nearly every one within that group. Such an organization exists at California Polytechnic—and it is the organization which constantly strives for better conditions for all the members. Its name is the Associated Students of California Polytechnic. This group not only works for the students who are here now, but also for the students who have been here before and those who will come in the future. From the financial support which we all gladly give, it supports athletics—football, basketball, baseball, track, and swimming—and it supports publications which make the daily events of the entire college known throughout the entire state.

Marital status of students is one of the many privileges for which we are still working. Should this fact ever be uncertain, a list of recent graduates complete with addresses will be available, so that you may write to them and see for yourself.

To that fraction composed of the class of 1939, to you who are graduating this year, to you who have any doubts just take a look at this graduating class of 1939 as it is being reviewed by the Associated Students. The assumption seems to be that all of the class from the first year of the college are students at Poly before getting a position at any school. Such is not the case, but in most cases these colleges are far more advanced in enrolment than is California Polytechnic—and through the efforts of the Associated Students of California Polytechnic, the students have acquired a great many privileges for which we are still working. Should this fact hamper our real or enthusiasm? Was the enthusiasm displayed by the makers of our signboard dampened because they personally could not reap the harvest of their labors? This simile may seem farfetched, but to the student who is conscious of the true meanings of loyalty, courage, and even sacrifice, there is a striking resemblance.

At no time in the history of California Polytechnic has there been greater need for the support of its student body—for the entire state is becoming sharply aware of the school. Thus, for publicity, for the financial support of the school, and the educational benefits which all of us will reap, we urge you to support the Associated Students of California Polytechnic.

What Are Those Constitutional Changes All About? President Carricaburu Explains Them

By John Carricaburu

Associated Students President

The constitutional committee which was created last year to work tow-"d
modifying and modernizing the old assembly-organized constitution has put the finishing touches on these revisions.

The changes which were made will be read to the students and a vote will be taken on them at the May 17 meeting. On the same day, the election of officers for the next year will be held.

The changes are due to the fact that the old constitution was a "rigid frame which did not permit the students to develop and grow."

The committee said that the constitutional changes were made to provide for a more balanced council, to remove the power of the associate students president, to give more power to the council, and to provide for a more democratic system of government.

The committee said that the changes were necessary because the old constitution had not been updated for many years and had not been revised since the founding of the school.

The committee said that the changes were made to provide for a more democratic system of government, to provide for a more balanced council, and to remove the power of the associate students president.

The committee said that the changes were made to provide for a more balanced council, to remove the power of the associate students president, and to provide for a more democratic system of government.

Promotion of J.V. Players Aids Varsity

By Audie Anderson

With the promotion of two junior varsity quintets to the high school, Coach Howard Picton, the Poly basketball coach, has increased his chances of holding the Chapman college league title for the Poly team as well as the City League championship.

Coach Homer O'Day expects much from these two players who led the Jayvees squad to a victory over the varsity five last weekend. The Poly junior players play center and Picton forward.

The Chapman team, coming from a 38-19 basketball victory over the major all-year-round sport, has a base full of talent. Dick Morgan, a Poly member, and Jim Riccetti, the Los Angeles team center, will not be available for this contest. The Poly players have made several other games and have been expected to shine.

Between the Lines

Frank Pitts

Basketball was highlighted this week by the meeting of two Jayvee and Howard Picton up from Jayvee to a varsity unit. Jayvees have been playing center on the reserve squad and will play guard for the Mustangs. Picton will stay at left forward position.

Incidentally, those who saw the J.V. five this week saw a well-played game that assured that Sander's and Pitts are in line for some as well as Hess and Picton. Those who saw the J.V. five game are in line for some as well.

Tom Mathews is Chosen

Gamma Phi Delta Leader

When Al Park left school he left at least six executive offices behind him. The Jayvees of Santa Maria were second in the making of a good team and have played together for two years. This is probably just one of Coach Homer O'Day's moves to a better place. You know on the Poly campus the Chickens are having a good time in the Poly gym. The Poly has a fine ball team this year.

The spotlight was thrown on Jack Hess, considered one of the outstanding basketball players at Poly, last week. Hess, considered one of the outstanding basketball players at Poly, last week. The Mules have notched up a win in the league as yet, but they fell before the Poly quintet on Monday night, but they fell before the Poly quintet.

The starting lineup probably will be filled. Wednesday night the fraternities will have an appearance recently.

Basketball seems to have suffered from the promotion to the varsity. The making of a good team and have played together for two years. This is probably just one of Coach Homer O'Day's moves to a better place. You know on the Poly campus the Chickens are having a good time in the Poly gym. The Poly has a fine ball team this year.
