**Poly Royal Queen Suggestions Asked By Student Group**

There were four for the selections of Poly Royal Queen at Monthly Student Council. There were no suggestions of queen and king in the new edition of the paper. Qualifications for her complexion were jeopardized. The king and queen were in the running for the selection.

A counselor of St. Mary's Catholic High School, Negron, will have the cheap line of Poly's traditional ball game.

**Monthly Sunday Sing Planned This Weekend**

The student council will hold this Sunday afternoon, 3 p.m. in the gymnasium. Student council members have the consent of their advisor, the college president, for the performance.

**Contest Closes Without Winner; Staff Names Paper**

Nominally with the contest, Yes, but no real conclusions were drawn. Approximately 100 suggestions of names were made with the consent of the judges and a list was compiled.

**Football Squad To Meet Kansas City Saturday Night**

The Poly football squad will meet Kansas City Saturday night. The squad will leave at 2 a.m. from Ag Ed.

**Monthly Sunday Sing Planned This Weekend**

The Poly football squad will meet Kansas City Saturday night. The squad will leave at 2 a.m. from Ag Ed.

**Student Affairs Council Discusses Special Issues**

The student affairs council met last Tuesday night in room 119 Ag Ed.

**Three Nearly Drown at Morro Bay**

Three men's fine records indicate that this is a college of many technical training opportunities.

**Industry Days Will Be Held October 14th**

At the beginning of the fall semester, all Poly students who would be in attendance at the Poly campus will be invited to participate in the relays.

**Animal, Dairying Students from Cal Poly**

The California Polytechnic depot-land was held on a sheep ranch near the library area on campus.

Why Not Synthetic Raw Materials?

The personal column that appeared in this paper last week attracted a great deal of interesting comment. Some persons are hearty in their ! support of a column; others are doubtful of its honest value to El Mustang’s readers.

As the editors of this paper we would like it to be understood that no personal piece is a steal in the making of this new column. Sole connoisseur of this tid-bit is Roy Brophy who assumes the brunt of responsibility for the turn-out it is bound to create.

Even Roy cannot be held to too much of the responsibility, for super sleuth by himself. No, it would be impossible for him to gather all of the events himself. So don’t you just believe everything you read for the things you find written about yourself in his .column... they are probably in catty and flattering of some of your best friends.

Now the object of this editorial is plain enough, it is simply to prolong the life of our esteemed columnist Brophy. If you feel like making a suggestion without restrain yourself... at least until we find another Winchell.

THANK YOU—D. C.

On the Morning After

Through the progress of our civilization the ways of living and those of sleeping have grown up side by side. Were it not for those maniacs who want a change now, we would have no world in which to live. If there isn’t enough in a man to make him fight, either by weapon or word, then there isn’t enough in him to make him live as a man.

It isn’t the actual loss of blood that administers all of the grief of war but the "morning after" effects that actually kill on a nation. If we were not for the fact that we have had only two or three of these things each one followed by a prolonged financial depression, war-loving countries could profit by the folly of some. Every nation must experience every so often some violation of the laws of nature in order that the population of that nation be decreased.

Particularly, it is most pertinent that one or two of the current predicaments is followed by a prolonged depression, war-loving countries could profit by the folly of some. Every nation must experience every so often some violation of the laws of nature in order that the population of that nation be decreased.

Furthermore, if the message most portentous one of our age, for it really does seem to be a "morning after effect", that the "morning after" effect is not what is actually killing but is really the "morning after" effect that actually killing nation.

The weather recordings here started Monday night at 12:29 and last season’s measurements was 7.805 inches, bringing the season total to 7.830 inches.
Alumni News

D. Mitchell, son of Mr. and Mrs. F. H. Mitchell of California Polytechnic, was the recipient of the California Poly Alumni award.

Horton Baltimore, a member of the class of 1917, is connected with the California Poly Alumni association.

Robert Jacobs, Poly graduate, has returned to the state to visit his parents, Mr. and Mrs. W. S. Jacobs of San Luis Obispo. Mr. Jacobs is attending Los Angeles University with the intention of studying law.

A fire in the apartment of Mr. and Mrs. W. Alderson, located at the corner of Main and San Luis Obispo, is reported to have been caused by a short circuit in the electrical wiring. The extent of the damage is not known at this time.

The San Luis Obispo College has announced that the formal opening of the new auditorium will take place on March 20th. The auditorium, which has been under construction for the past year, is expected to be the largest in the state.

In an effort to further the interest in the harp, Miss Dillan proposed a group for the study of this instrument.

In the past, the harp has been associated with the Cooperate Concert association as the representative personality was discovered in the audience listening.

The harpist exhibited two of the oldest harps, "Arabesque" and "Clair de Lune," and the audience was thrilled and awed.

The harpist concluded her performance with "Rain in the Garden," "Second Movement," and "Pastorale in E Minor," and the appreciation of the audience was evident.

Four dairy graduates of last year are operating their own farms this year. They include Jack DeWitt, near San Luis Obispo; Martin Fongar, near Arroyo Grande; and Raymond Michael, near Arroyo Grande.

The State Future Farmer Committee recommended the name change of the organization to "Future Farmers of America." The recommendation was made at the convention held last week in Los Angeles.

Two Record of Poly Pool Fall in Week

By Tom Carter
Center of sports attention on the Cal Poly Campus is the swimming team. Records are being set weekly and the team is coming back in flashes to pieces last week — two records that have stood for some time. 

Cash is Fastest Swimmer

Richard Cash, third-year student and a member of the Poly swimming team,\n
broke the world records in the 100-yard backstroke and 220-yard medley relay. Cash set the world record in the 100 which was previously set by American swimmer Tom Hedges last year. In the 220-medley relay the Poly team took first place.

Cash, who won both events, is a member of the Cal Poly Swim Club, which is sponsored by the Block "P." The team will compete against the UCLA team March 14 and 15 at the Cal Poly pool.

Between the Lines

With Frank Fitto

This week saw the beginning of all sports baseball practice for the 1940 season. Although the practice is far from complete, there are a number of promising players who are still trying to make the All-American team. 

The Cal Poly team has been practicing for several weeks and has shown good progress. The team is composed of experienced players from last year's team, and is expected to be in good shape for the season.

Chapman Five

Chapman, who is now playing varsity basketball, made it through the final round of the American league, visited the campus last Friday. Chapman was accompanied by Leo Anderson, who is also a member of the American league. Chapman is expected to return to the campus for the final round of the American league, which will be held next week.

Winning the Game

Winning the game is the main objective of the Poly team. The Poly team is expected to meet with the University of California team in the final round of the American league.

We Pack and Mail it right out from our Store at your Post Station

For the second time this year the Chapman college football team, from East Orange, N.J., is scheduled to play the Poly Mustangs and consequently will have two games with a 42-0 victory.

Throughout the tilt, the Chapman- arrow showed their superiority over the hoity by clever screening and floor work. When they were held pressed, they could go to work and get them.

Poly showed signs of fighting well in the game but also fell before the pips as the game progressed. How- ever, the Mustangs led by Drum- mard, covered the bucket in the first half and the Poly team couldn't do anything to stop them.

The Poly team, after being taken down in the first half, tried to come back in the second half but were unable to do so.
