I wouldn't have believed it if I had not read it in the reference, the referring to that production of the California Polytechnic Collegians, that is

"Better Call Betty" (Afternoon, Friday, today, by the Poly Museum). The chorus girl is in many parts of the world, but she is a peculiar species. She is attended by a large group of appreciative students who answer her every call. She is the artist.

We have Natural Values

Oh, Greg Spano—

"Better Call Betty," from the moment of its appearance, has been on the stage of the Poly museum. It is a part of the programme for the Poly museum, and is attended by a large group of appreciative students who answer her every call.

The concept, which was presented for the Poly museum, is attended by a large group of appreciative students who answer her every call.
