McPhee Speech Will Welcome Poly Graduates

Friday, April 26

Friday, April 26

Program for Weekend Celebration Given Here

Saturday, April 27

10:30 a.m.—Ladies nail-driving contest, main arena. Men's tractor driving contest, near main arena.

12 noon—Poly Royal barbecue in the gymnasium.

1:30 p.m.—Judging of championship livestock classes, main arena.

6 p.m.—Poly Royal's coronation ball in the gymnasium.

10:30 p.m.—Coronation ceremony. 11:22 a.m.—Special dance broadcast over KVEC.

Queen Enthroned Saturday Night

Ultimate climax of Poly Royal will come at 10:30 p.m. Saturday when lovely Jeanne Defosset is enthroned as queen of Poly during the coronation ball in Crandall gymnasium.

Miss Rhoda Bonham, co-chairman of the coronation, was selected as feminine symbol of California State Polytechnic by the special committee in charge.

Thrill Throngs for Two Days

History is being made at California State Polytechnic college this month of April. This week and last Poly was made a homecoming, degree-granting institution. Today and tomorrow the students of Cal Poly will celebrate their eighth annual Poly Royal which they currently feel will be the biggest and best show that their school has ever given.

Series of Events Complete

Sandwiched between the grand opening assembly at 10 a.m. today and the culmination of the coronation ball at midnight Saturday are a series of events that few collegiate programs can match.

Among these are the rodeo at 3 p.m. Saturday afternoon, the automotive display that features John D. McKellar's unique "flying wing" which has been under construction in the auto laboratory for the past few months, several contests that will prove good fun for average, educable exhibitionaire on air conditioning and electricity, a stock show featuring the state's best livestock, a stock show which will be aired through radio station KVEC, a night track meet on Poly field, a parade of champions, and a host of other interesting items for the pleasure of the thousands of Cal Poly visitors.

All Visitors Participate

President of students, John Carricacy, said, "Poly Royal is called a Country Fair on a College Campus. It merits this name because, like the country fairs of old, its success depends upon the active participation of all Poly visitors." In speaking of Poly Royal, Julian A. McKellar, president of State Polytechnic college, said: "This occasion affords both the students and faculty an excellent chance to take note of the physical development of educational facilities and opportunities."

There will be a special booth for the purpose of signing up all alumni present. This registration will go on all day Saturday in Poly Gym."
The Polytechnic Californian

Alumni News
By Charlotte Smith

Alumni friends of Frank Piper of the class of ’32 will be surprised to learn that he now owns a new home in Los Angeles. The wedding of Frank and Dolores was held on Saturday, April 13, at St. Andrews. The couple will make their home in Los Angeles and both are employed in the maintenance department at the Poly. 

* * *

Franz Seidenberg, ’26, son of Senator Chris Seidenberg, has been receiving congratulations for the recent birth of a daughter, Beverly Ann.

Mrs. Elizabeth Anderson has resigned her position as instructor in music in the Cambria school to join her husband in San Luis Obispo. A reception in her honor was held on April 9. She is connected with the Shell Oil Company.

* * *

D. E. Pierce of Mount Vernon, Wash., who was enaged in his home from Thomasville, Ga., was renewing friends at church on the campus recently. He has been traveling since Feb. 1, which is in the interests of a patent which he perfected. The patent is a thermos hood for canning. 

Pierce attended Polytechnic until his graduation. He came to San Luis Obispo, in San Luis, he was a guest in the home of Mrs. Palmer Nelson, ’29, and the H. A. Trandahl home on Broad street.

* * *

Wilbur Russell, ’32, has accepted a position as appliance mechanic in the new federal air depot at Sacramento. Prior to going north Russell was engaged in his home business in Los Angeles, which he moved to the city of Frenz. Russell and Mrs. Robert Blanton of Sta. Barbara visited the campus last week. While in San Luis Obispo, they were guests in the home of Mrs. Bice’s parents, the Bice family. 

Russell’s parents are Mr. and Mrs. Robert Bice of San Luis Obispo. 

* * *

Mrs. Young Lasa, wife of the state representative from San Luis Obispo, is convalescing at St. Mary hospital in San Luis Obispo, where she underwent a major operation.

Ell Grogg, ’34, who is employed at the California nursery at Niles, is connected with the breeding department at Los Angeles, during Poly Royal.

* * *

Alphonso C. Grigil is the birth of a daughter to Mr. and Mrs. Grigil of Los Angeles. Mrs. Grigil is a member of the class of ’31.

Gardner P. Smith, ’34, visited the Poly campus from Los Angeles where he will spend his vacation. Smith, who will be remembered as one of Poly’s former football stars, is living at Edmundson, Calif.

* * *

Mr. and Mrs. Edward J. Cull, ’32, of Los Angeles where he will spend his vacation. Cull, who will be remembered as one of Poly’s former football stars, is living at Edmundson, Calif.

Air Conditioning Unit for Small Homes Is Shown

On of the highlights of the Poly Royal program will be the exhibit planned by the Mechanical Engineering department. The exhibit, consisting of a group of rooms for the small home, will be the work of the students in the department.

Whether the new air conditioning building will be completed in time for Poly Royal or not is doubtful. State inspectors will not allow any persons to enter the new structure until they have accepted it as a part of the school.

* * *

The large building in the Poly Royal program will seat more than 450 persons and is completely air conditioned by a huge reverse cycle system. Reverse cycle systems have been brought more into the limelight of the industry day by day, and 1932 particularly one of its most unique class rooms in buildings for this purpose of training air conditioning engineers.

In the new laboratory a study of ammonia refrigeration best plant class will be conducted. Plants are also under way for construction of a quick-heat boiler, which is designed for the processing of frozen foods will be carried on.

Bottom right—President Julian A. McPhee congratulating Jim Blake and the winning rodeo contestants at the intercollegiate rodeo at Victorville. These Cal Poly students will display their wares at the Poly Royal Rodeo, Saturday afternoon.

Second from bottom left—The Cal Poly band enlivens all Poly Royal activities. They will give a concert during the noon hour of the barbecue on Saturday.

Bottom left—The pre-Poly Royal dance where Miss Poly Royal 1940 was announced.
Two Graduates Aid Invention Of New Device

Two former California Polytechnic students have assisted in the development of a new electrical device designed to speed up electrical impulses. The invention, called the Polytube, was patented and the two students were listed as joint inventors.

The invention was developed by Russell Varney of Halycon, a television engineer, and his brother, Peter, who is a former Pan-American airways pilot who attended Poly in 1929, together with William H. Hunsen, young Stanford university, and a third Poly student, Mr. Poly, who graduated from Poly in 1929, assisted in the development work.

The invention is a radio tube which they call a Polytube. It generates radio impulses which are not only as uniform as the present television or radio tube, but many times faster than anything heretofore believed possible.

The new type of tube may prove a great aid to both the aviation and television industries, according to the inventors. For television, for example, it may open up a large number of needed broadcast channels. For aviation, it may aid in improving the service of radio direction finders and other radio apparatus.

The Polytube is already being ordered by the United States government, and is used in high speed research work.

The California Poly library is one of the very few libraries in the country including those of universities and industry, that have this type of equipment.

The Polytube is the only electrical device that has been made to work with radio waves, and it is said to be the only device that can be made to work with radio waves.

The Polytube is the only electrical device that has been made to work with radio waves, and it is said to be the only device that can be made to work with radio waves.
**Cafeteria Serves 132,405 Meals In 8 Months at 30 Cents Each**

Meals served by the California State Polytechnic cafeteria during the past eight months have totaled 132,405, it was announced this week by the administrative council.

Of the food consumed was broken down into the following classifications: fruits, vegetables, $4661.63; groceries, $3509.90; meat and fish, $2141.96; butter, eggs, and cheese, $1906.45; milk and cream, $4706.46; and bread, $1782.12.

February Cost Blows

Miscellaneous expenses included the sum of $154.73 for sales and breakage, $3900 for reserve for breakage and supplies, $705.53 for gas and electricity, and $6741.71 for laundry.

During the month of February in- come came to $6537.72 and expenses to $6707.35, representing a net of $269.54. The meat meal per student amounted to 21.267 meals served.

**What's This? Sterilized Cat Gives Birth to Six Kittens! Page McCapes**

A short time ago this paper reported the successful operation upon a helpless little cat by Dr. A. C. Capes in which the life was saved only by the skill and promptitude of Dr. Capes' assistant, Harry McCapes. It is said that McCapes' assistant, Harry McCapes, gave the animal too much gas, and that was the time for Mr. McCapes to apply his knowledge of "conserving the soul.

The first operation was to remove a few vital organs of reproduction. Your reporter wishes to report that this same animal gave birth to six little kittens last Thursday morning. God, Inc. Maybe something went wrong.

Editors Announce

Yearbook Contents; To Use Old Photos

Content of the El Rodeo for 1940 was announced this week by Charles Murphy and Tom Low, editors for this year's edition. The theme for this year has been selected as "Town of Pensiveness."

"The staid old school has taken over the title of the yearbook is contemplated," said Mr. Murphy. "Every student will be able to use the theme." A contract for $14,255 was entered into with the state division of highways and farms for the poultry department, the area around the Parker barn, landscaping and betterments projects have been completed during the first quarter of the present school year.

The new sheep unit is almost finished and expenses amounted to $40,037 and miscellaneous expenses. The new sheep unit will, when completed, give the meat animals department; classrooms and drafting rooms, and labor­

shops carry out active program

One of the least publicized departments of the campus is the maintenance and construction department. Yet this department, under the guidance of L. E. McFarland and M. B. Smith is directly responsible for all maintenance and construction work on the campus.

20 Varieties of Birds Entered in Poultry, Egg Show

Twenty claims of birds, including white Leghorns, Barred Rocks, Rhode Island Reds, turkeys, buff Cochins, and others, have been entered in the poultry department show for Poly Royal. Last year, the student chairman, announced.

"This is not a fitting show but a show based upon individual student's ability to select and judge birds on a standard and utility basis," Sandhoff said.

55 Entries in Egg Show

At least 55 entries are expected in the egg show and judging classes make 14 inches white and brown eggs, and A-1 eggs on a production of at least five pounds. The latter are usually four pounds.

"A group of results that poultry students use for pedigree, breeding, and progeny testing, and an information about the school plant, facts about the poultry industry, will be on display," students have been carrying on breeding work on white Leghorns, Rhode Island Reds, Barred Plymouth Rocks, Cornish Cross, and other breeds.

Building Work Under Way

The poly truncated and made rat and moisture proof. It is to be ready for use early this month. The poultry department show will be held during Poly Royal.

Some of the department's outstanding women will be invited to take part in a pollination contest sponsored by the landscape department of California Polytechnic.

Women Invited to Take Part in Plant Contest of Landscape Division

Women visitors to Poly Royal are invited to take part in a plant identification contest sponsored by the landscape department of California Polytechnic.

At the landscape booth there is a list of plants and seeds suitable for the California climate. Each entry is in attendance at all times to offer advice on home landscaping problems. Another part of the booth display features books and magazines on gardening.

Women who have helped put over this form of education are invited to take part in a plant identification contest sponsored by the landscape department of California Polytechnic. The system of records that poultry students use for pedigree, breeding, and progeny testing, and an information about the school plant, facts about the poultry industry, will be on display.

Ag Inspection Graduate Qualifies in Test

James R. Krushe, 1958 graduate in the agricultural inspection course, received a certificate entitled him to work as a deputy county agricultural commissioner in Los Angeles. He is the first agricultural commissioner employed in Los Angeles.
Students at Cal Poly who have made special contributions to their departments during the past year will be honored at a banquet sponsored by the Associated Students' fraternity, Willard House, on Monday night, April 21.

The banquet, which is open to all members of the fraternity and their guests, will be held in the Grand Ballroom of the Polytechnic Hotel. The cost of the meal will be $1.75.

The banquet will feature a program of music and speeches by representatives of the various departments.

The banquet is being held in conjunction with the annual Poly Royal event, which is scheduled for Friday, April 26.

The banquet is being sponsored by the Willard House, which is the social fraternity of the Associated Students.

The banquet will feature a buffet meal and a program of music and speeches.

Best Poly Riders Compete in Rodeo Events Saturday

Saturday afternoon at 3 o'clock on the baseball field Poly holds a rodeo which Manager Jim Blake says will be the best we have ever had. The entries will consist of three chutes for the riding events and one roping chute.

Nearly 70 contestants have entered the rodeo. They have all had riding or roping experience and many of them participated in the Poly Royal rodeo last year.

The first two to compete in the Victoria rodeo two weeks ago made a huge trophy first place for Poly. They will take part here Saturday.

The four members of the winning team were Jim Blake, who won the steer roping event; Bill Gallagher, who won the calf roping event; Carl Miller, who won the team roping event; and Earl Vaughn, who won the bareback and saddle roping. Jim Blake rode Tom, and Gordon Moore, and Carl Miller rode Tom, John Jarvie, Bob Livingston, and Ed Yerxa.

All of Saturday's events are subject to the rules of the professional rodeo association.

Steer roping, Rien, half head, and each winner counts. Time is taken when steer faces rider. Carl Miller, Lester Brown, Harry Taylor, Jim Blake, Earl Vaughn, Jim Cochran, and Vic Tomei.

Team roping. Each team is allowed four loops. Time is called when both riders have crossed the finish line. Earl Vaughn and Jim Cochran, Vic Tomei and Gary Taylor, Carl Miller and Jim Blake, and Lee Brown and Jim Cochran.

Stock horse class. Lester Brown, Earl Vaughn, Vic Tomei, Bill Gallagher, and Jackson Case. Some of the local teams will be chosen at the end of the field and chosen a package. He must wear the contents of the package across the finish line.

scheduled to be on the mound when the Poly Royal broadcasts is a half hour of dance music from the gymnasium at 8:30, preceding the coronation ball.

Carl Miller

If enough steers are available Carl Miller will go out on a new decorating exhibition, fix the event the rider falls from the horse when running steers. There will also be a saddle dogging exhibition by Vic Tomei and Carl Miller, and Yerxa and Bouler, while Miller holding onto the steer's tail catches a 27% horse. Yerxa's object is to remove the saddle and carry it across the finish line in as short a time as possible. This event is often eliminated from rodeos because of the danger to the contestants.

EXTRA HEAVY 7 SHIRTS

Penneys

THE POLY ROYAL

PARADE OF CHAMPIONS will originate from the arena with Dr. A. M. McLean as announcer. From 2 to 3:30 there will be a description of the rodeo events at the arena. Tentatively scheduled to wind up the Poly Royal broadcasts is a half hour of dance music from the gymnasium at 8:30, preceding the coronation ball.

Marks Poor Although Win

Although good enough to win, first place medals, and ribbons will be given to third and fourth place winners. The Rodeos are scheduled to begin exactly at 8 a.m., after a traditional ceremony of lighting the initial fuselage on Poly hill behind the school. A half hour before the meet, between 7 and 8:30, will be broadcast over KVEC.

At 3:30 the Poly Royal will broadcast a parade of champions. The parade run begins exactly at 8 a.m., after a traditional ceremony of lighting the initial fuselage on Poly hill behind the school. A half hour before the meet, between 7 and 8:30, will be broadcast over KVEC.

Mark's Poor allows wire. It is expected that Mark's Poor (Bakersfield) will again take movie with a good showing and bring back a huge trophy for first place. They willeled to Bakersfield and defeated the first place Polymen.

The baseball game will be broadcast at 3:30 p.m.

Saturday Programs

On Saturday programs start at 9 a.m. with a enthusiastic program de-scribing the exhibits in the aeronaute field. Other programs include a description of the agricultural exhibits at 10 to 11:30 and a description of Newbark at the arena from 11 to 1:15.

At 12:30 there will be a half-hour broadcast of band music from the barracks grounds. From 2 to 3:30 a broadcast from the arena will feature newsworthy items and stories of the Poly Royal.

The baseball game will be broadcast at 3:30 p.m.

For the Wireless Service of Friendship "the magic sign of excellent food" will recall fond memories.

Alumni and former students: meet at "the House of Friendship" in the Gold Dragon during Homecoming—Poly Royal!!

More than 100 college athletes from central and southern California will take part in the annual Poly Royal Relays at California State Polytechnic in San Luis Obispo Friday night. April 29 was announced this week by Track Coach Paul H. Gifford and Bruce Putten, student chairman of the Poly Royal.

Six colleges will enter track and field men in the 19 Poly Royal Relays at Cal Poly in San Luis Obispo and San Di-

ojus. Tilting to the A of a scout.
