**SAC sets “Hell Weeks” and suggests frost relief**

There will be two “Hell Weeks” in the fall in the SAC. It was decided in the SAC that the two weeks to be called “Hell Weeks” will be the first week of November and the last week of January. The purpose of this will be to allow the SAC the opportunity to catch up on their work and to allow students to have a chance to relax. These weeks will not be mandatory, but individuals will be encouraged to take advantage of the opportunity.

**THE CALIFORNIA POLYTECHNIC EL MUSTANG**

**Freshmen on duty.** It will be the duty of freshmen to attend the 1941-42 school year. They will be admitted to Poly free. The cards will be returned by having all frosh go to the KVEC. All frosh cards will be returned to Poly free. Those students owning and maintaining the cards will be allowed to attend the school free.

**Student body memberships selling well**

According to the records of the graduate manager, John Carver, at least 300 student memberships have been sold to members of the Associated Students, at a total high of $650. This figure includes the $350 per month of the initial membership of 100 students.

**STUDENT BODY FACULTY**

It may also be interesting to note that, in addition to the Oct. 10 issue of El Mustang, the Student Body Faculty succeeded in printing a faculty newsletter, the Dec. 9 issue of El Mustang. This is under the direction of the Student Body Faculty.

**BIN GOES BIG VALUE**

Signs of the privilege of membership in the Student Body Faculty are printed on the presentation of their cards. But not only do they get the privilege, they also get free admission to the Freshmen reception, that is, a total value of $50 in this one instance.

**Students hard sheep romantically—by the light of the moon**

Certain rare animal students look for sheep tonight, but they wouldn’t recommend the process. The evening was the result of a shipment of sheep from the school campus, which were driven to the property near the school.

**Holidays ahead! start packing**

Coming dates of interest to the Cal Poly men: November 14—Armistice Day; November 16—18 days through Christmas; December 26—New Year’s Day; January 1—End of first quarter.

**Barfeet and aviating masses are among the majority of the students who are taking advantage of the “free ride” day sponsored by the department of agriculture on the day of the Sophomore-Freshmen lunch, the free fare was taken at various places as far as the “free ride” day was held.

**Sophos feast and aviating masses are among the majority of the students who are taking advantage of the “free ride” day sponsored by the department of agriculture on the day of the Sophomore-Freshmen lunch, the free fare was taken at various places as far as the “free ride” day was held.

**Five-point plan for California Young Initiations**

A five-point program was presented at the California Young Farmers on Thursday of last week. The program, which met with the approval of most of the members present, included plans for a home date, a skating party, and the scheduling of some student advisement programs. The program was presented by the Associated Students. It is the result of a study done by the Associated Students.

**STUDENT BODY FACULTY**

It may also be interesting to note that, in addition to the Oct. 10 issue of El Mustang, the Student Body Faculty succeeded in printing a faculty newsletter, the Dec. 9 issue of El Mustang. This is under the direction of the Student Body Faculty.

**Full coopera­tion will be needed**

They are pledging to continue the tradition of being good members of the community. This is especially important now with the war and the need for food production.

**Proxy tells of opportunity for agriculture to help national defense**

"One of the most pressing problems in agriculture today is to provide the best possible food for the armed forces. It is our goal to do our part in this effort, to help fight the war, and to make sure that the people at home are fed.

President McPhee addressed the Cal Poly Young Farmers chapter on the subject of the war. He said that the war has brought new opportunities for agriculture. The need for food production has created new jobs and new opportunities for young farmers. "We are all in this together," he said. "We must work together to make sure that the people at home have enough food to eat."
From your prexy — Walt Dougherty

In last week’s issue of the El Mustang, the Student Senate, and student government affairs were mentioned editorially with considerable interest. In this issue, the student Senate shall be printed editorially, since last week’s issue was not an editorial.

Something new was announced during last year’s elections. The students were informed that the student senators and representatives shall meet twice a week — regularly.

That’s all I have to say. That the student court would function this year, no one will deny. What about your campaign platform last spring.

It is doing well.

COURT HAD FUNCTIONED

The court met for the first time on the night of Wednesday, Sept. 17. It was the first time in the history of the Polytechnic College that a court had met. The court met in the Student Senate Chambers, and was opened by the President of the Senate, who presented the cases it was handling.

The court consists of the President of the Senate, the Vice-President of the Senate, and the Secretary of the Senate. It is the duty of the President to call the court to order, and to preside over it. The Vice-President assists the President in his duties, and the Secretary keeps the minutes of the court.

The court has jurisdiction over all matters relating to student affairs, and is empowered to do all things necessary for the protection of the rights and privileges of the students.

The court has met twice a week, and has heard many cases. It is doing well.

That’s all I have to say.

The court will meet again on Friday, Oct. 17, at 7:30 p.m., in the Student Senate Chambers.

That’s all I have to say.

The court will meet again on Friday, Oct. 17, at 7:30 p.m., in the Student Senate Chambers.

The Poly football team was playing at Chico for their first victory over Poly, but MacDougall tried to steal the ball and was stopped by a Poly defender. The Poly defense was strong, and the Chico offense was unable to gain any yardage. The game ended with a score of 0-0, and the team was defeated by Poly.

Leopards confident of victory over Poly; Mustangs rain tomorrow

The Poly Polytechnic team was confident of winning the game against Chico. The Poly defense was strong, and the Chico offense was unable to gain any yardage. The Poly team was led by their star quarterback, Bill Nakunas, who scored two touchdowns and passed for another. The Poly team was victorious over Chico, winning by a score of 13-0.

La Verne seeks upset; Mustangs battle Chico over strong Poly team

The La Verne team was seeking an upset against the strong Poly team. The Poly defense was strong, and the La Verne offense was unable to gain any yardage. The Poly team was led by their star quarterback, Bill Nakunas, who scored two touchdowns and passed for another. The Poly team was victorious over La Verne, winning by a score of 13-0.

Attention all basketball players

An appeal for basketball players was issued by the team manager. The team was looking for players to join the team and improve their chances of winning.

Poly threatens goal line three times; Chico outplayed

The Poly Polytechnic team was trying to score a goal against Chico. The Chico defense was strong, and the Poly offense was unable to gain any yardage. The Poly team was led by their star quarterback, Bill Nakunas, who scored two touchdowns and passed for another. The Poly team was victorious over Chico, winning by a score of 13-0.

Bill Nakunas

Bill Nakunas participated in many sports, including basketball. He was an all-around athlete, and his team was led by him. He was a sensation in currying the ball, and his kicking was above average. He was a northern boy who played a style of playing and the boys never left half an inch in the Poly vs. Chico game. In previous games this spring, Nakunas participated in many passes. During the Poly vs. Chico game, Nakunas was involved in many plays. He was a sensation in currying the ball, and his kicking was above average. Aero club grows fast

About 15 raw followers benefit members of the aero club after a warm reception by the Sydneysair on the site.

The party was completed on Saturday, and theDR. E. H. Wealford, Sydney, and the reception was held at the Club house, which the party was entertained at. The party was entertained at a large camp fire. After the fireworks, which consisted of a few little things like rolling down the sand dunes and first in time a small amount of sand in their nests, the spectators were welcomed as members of the club at about 10 p.m.

Teachers attending the initiation were M. C. Martinan, Howard Wilson, Philip Johnson, and Raytown Mason.

Revealing facts about women

A program called "to change men's minds," an activity that makes people run.

A church, where the men are invited to get up and get turned on.

A picture show of women's hands, which is picked by any teacher.

A burning desire—often of very high degree.

A dozen installed to be pumped at 11 a.m.

A church—where women are heard, and the average proceeds is nothing like the average.

Exchange.

Poly CPT birdman to spread wings after 3 weeks on ground

Flight training of students at the Poly started on Monday, Oct. 31. The school started three weeks previous to flight training. Each student receives about half an hour of flight training each day until a total of 30 hours of training is required by each student.

The first flight of the student's training is dual instruction and the second is solo. Twelve of the remaining 30 hours are also solo flights and the remaining hours are with the instructor.

Absentee checkup procedure changed

Under the system for suspended student attendance there will no longer be required to take absence slips to the instructor. Exams for absence must be submitted in the main office to the attendance building, where a record is kept of who is to be examined and a list presented to each teacher.

Students who are absent because of illness and who report to the attendance building, where a record is kept of who is to be examined and a list presented to each teacher.

Dairy men take two day field trip to Fresno

Last weekend seven dairy students accompanied Charles Bell, dairy instructor, on a two day field trip. The trip included visits to the Milk record and research laboratory, the California Dairy Laboratory, and other dairy organizations.

A good time. See you there.

History of two veteran Poly gridders revealed

(Continued from page 1)

Joe Soroka is the other half of the Pennsylvania quartet. He also went to the same high school that Wachman attended. Soroka was captain of the championship football team at high school. He is captain of the All-State high school football team. He also held the quarterback position.

Joe Soroka and Bill Wachman both play for Poly at the next weekend. Both are veteran players. Soroka, during the 1940 initial season played guard, then shifted over to quarterback, and held the guard position. The fullback position is being played by Joe Soroka. He tied the weight at 285 pounds, and is 6 feet 10 inches tall.

Gamme Pi starts fall party

The Gamma Pi delta fraternity held a meeting on Wednesday, Oct. 20, at which time plans for the party were made. The big part of the meeting was taken up with plans for a dinner-dance to be held at the principal activity of the Fall quarter.

This function will take place at Maris's in Bluff Beach next Thursday, Oct. 21. It will be a formal affair and faculty members are being invited to attend with their wives. Several of the less attractive members are lamenting the fact that it is a two day, but the changes in the original plans will be made as a result of these complaints, incident to Bluff Proceed, president.

Howes attends convention at Long Beach

The California Nursery association held their seventh convention at Long Beach recently. Wilbur Howes, head of the department of horticulture at Poly, was able to attend and report the convention as a big success.

The convention had much to offer the nursery industries. Many exhibits were on display and tables of home grown plants were shown and crossed to prevent perfection suited much interest to the display.

The result of last week's heavy rains are being felt by the nurseries in plant shows due to spread of a bacterial disease known as "damping off."
