NATI ON AT WAR

War has been declared!

On Sunday we changed from a nation of peace to a nation fighting to maintain its place in the world.

In those few hours we changed from a people who had a choice in the sphere we wished to take in the defense of our nation, to a people who MUST do all in their power to help the war program.

Those of us who are not called, or who are not acceptable for military service, must do all in their power to help, whether it be in the industries of the country or in the helping services.

Shall we do our part for the people who are in the struggle, or shall we do nothing and let them fight alone?

Each of us must do our utmost to aid in this struggle.

We must be prepared to take over the livestock industry. We must be prepared to increase our efforts and remain cool and collected. The idea of increasing our efforts and remaining cool and collected is the very essence of patriotism.

The older of the Seaton brothers, Dick, just returned from the South Pacific and says he worked on a battleship. The younger brother, Ross, is in the military service.

Those of us who are not called, or who are not acceptable for military service, must do all in their power to help the war program.

Shall we do our part for the people who are in the struggle, or shall we do nothing and let them fight alone?

Each of us must do our utmost to aid in this struggle.

We must be prepared to take over the livestock industry. We must be prepared to increase our efforts and remain cool and collected. The idea of increasing our efforts and remaining cool and collected is the very essence of patriotism.

Dear Roy:

I received your very interesting letter last week from W. B. Howes, he told me classes must be very large too, and both day and night classes out of town. I do hope the aero people get a lot, although we are not in England over a good Scotch.

Last week I also received a letter from Ruth Bingham and she gave a lot of information about their trip to England. I now can get around fairly well, although I might not be over the English countryside on my next trip. When I get home I’m going to give my dog two biscuits a day. Say hello to McCasen, Howes, and everyone else that you mentioned.

I’m finally with the American Eagle squadron and learning a lot, although we are not in England and captain of the undefeated 1041 Man of the Year coach, Jim Crowley, mentor of the team. Chuck Taylor will Give Exhibition Here Wednesday

Chuck Taylor, renowned basketball teacher, is to make a personal appearance in the Poly gym Wednesday night, Dec. 15, to discuss his new book on "Basketball -- the Game of a Lifetime." He will also demonstrate a few tips in his new book.

The "nightlife" of Poly was crowded this past weekend. A lot of luck, and the basketball people were playing against the odds. The game was marked by very few scoring on both sides, although there were also high spots. I flipped in five baskets and a free throw to hang up against the score sheets, but the Poly quintet held the lead, and Glen Arthur and Mike Audap, g ............
