Short-Course Registration To Be Large

Continued from page one

With the weather conditions in the area becoming more favorable, many students from other schools may come to Poly for study sessions. The weather will also provide more favorable conditions for outdoor activities. The weather is expected to remain mild and pleasant throughout the registration period.

Faculty Goes "Gay '90s": Bicycle Brigade Formed

Continued from page one

The bicycle brigade is expected to play a significant role in the annual Poly Royal dance. Members of the brigade will carry the large cards that contain the names of the students who were selected for the dance. The cards will be carried by the bicycle brigade as they make their way to the dance.

College Finances Stronger Than Ever, Julian McPhee Tells Cheering Assembly

Continued from page one

The report issued by the United States Office of Education is expected to provide valuable insights into the financial status of California Polytechnic School. The report highlights the school's ability to attract students, the growth in enrollment, and the financial support from various sources. The report is expected to be published in the near future.

Students will be expected to use the report to guide their decision-making process regarding financial aid and scholarships.
Little Pigs To Great, Big, Fat Hogs At Swine Unit

By Louise Jones

The school offered the students the choice of raising pigs this spring.

There are no present regulations, and so we may do what we wish.

We have a group of pigs ready to sell, and we hope to make a profit on them.

During the process of the project, we had the growth chart of pigs and the weight chart of pigs. We also had the ink pen for the chart. We decided to make a chart for the ink pen.

The little pigs are ready for sale. We would like to sell them at a reasonable price.

Student Survey

Before the project started, student preferences were surveyed to determine the interest level.

The sale of pigs were set up on the students' initiative.

The students showed interest in the project.

New Projects Work

The project offered the students the opportunity to raise pigs on their own.

The project included the care and feeding of pigs.

The pigs were raised in a pen where they could run around and play.

The students were also responsible for the feeding of the pigs.

The pigs were fed with food bought from the market.

The project was successful as the students were able to care for the pigs and raise them.

Turf Machines to be Repaired

Adoption of a state-wide plan for growing farms and individual growers

The state-wide plan for growing farms was adopted by the students.

The plan includes the development of new crops and the improvement of existing crops.

Under the plan, the students are responsible for the implementation of the plan.

The students are also responsible for the care and feeding of the pigs.

The plan is designed to improve the living conditions of the students.

The plan includes the provision of shade trees, the installation of fencing, and the improvement of the living conditions.

Lafayette Escadrille At Library

The following book was read in the library that week according to Harry P. Smith.

The book was "The Lafayette Escadrille." It is a story of the Lafayette Escadrille and their efforts in World War I.

The book is available at the library and is recommended for reading.

Part-Mutual Betting Tax

Was Source Of Poly Funds

Having mulling over the idea of affording this a second chance at the last minute, we have changed our minds.

One of the ideas of legalizing betting was the idea of raising funds for Poly.

One of our ideas is to have a second chance at a second chance at a second chance.

Another of our ideas is to have a second chance at a second chance at a second chance.

One of our ideas is to have a second chance at a second chance at a second chance.

The University of California has already been asked for this support.

Agriculture is the largest source of Poly's income.

Boys Uged to Use $1,000,000 Swimming Pool

Because of the fact that they have a swimming pool for their use, the California Polytechnic Institute students are looking forward to the last two months of their college course.

The four hundred dollar pool which was built at the expense of three hundred dollars, is an addition to the college’s athletic program. It is located in a sheltered area of the campus, and is kept in good condition by constant use.

The pool is open from 4:00 to 8:00 p.m. each day, and is available to all students and faculty members.

Expect Shortage Of Farm Labor

For schools and universities, as well as for the Peace Corps, the demand for farm labor is expected to increase sharply. The majority of students entering college will be expected to work in agriculture, and the shortage of farm laborers is expected to continue.

The department of agriculture is expected to continue its efforts to encourage students to enter agriculture, and to assist in the development of agricultural education.

Boone Goes To Salt Lake City

Rumours that Boone Polytechnic wants to change its name to San Luis Obispo Polytechnic University were confirmed last week. The change is expected to take place next fall.

The move is expected to be beneficial to the school, as it will be located in a more central location.

Rumours that Boone Polytechnic wants to change its name to San Luis Obispo Polytechnic University were confirmed last week. The change is expected to take place next fall.

Power Failure Affects Poly Paper, Dorms

A power failure in the last day’s edition of the “Big Bowl” affected the printing of the last two pages of the daily paper. The failure also affected the printing of the last two pages of the dormitory newspaper.

For a time yesterday it looked like the El Mustang would not make it to publication date, but because the school operated power plant was able to supply the necessary power, the paper was able to be put together and sent to the press.

The paper failure affected only the parts of the campus which are served by the school’s power plant.
