House Elects Student Prexy for '42-'43

Dairy Cattle Breeders Hold Annual Meeting Here Saturday

The California Holstein-Friesian Association will hold its annual meeting at California State Polytechnic on May 9, 1942. About 300 feeder breeders and association representatives will be in attendance. Mark Borer is the president and A. J. Quist is the secretary-treasurer. Alvin Quist is the secretary of the latter, now a dairy student at Polytechnic.

Glen Householder, director of extension, and Ivan Loughery, field representative for the Holstein-Friesian Association of America, will attend the meeting. This nation's extension division is the largest livestock organization in the world.

The program for the meeting will consist of a tour of the school dairy herd where outstanding foundation cows, heifers and progeny of owned Holstein projects will be exhibited. The noted Holstein sire, Sir Joe Gottle of Taylorsville 2nd, who was grand champion at the 1939 California World's Fair, along with his get, will be featured. The Holstein cattlet project owned by Mr. and Mrs. William R. Leavitt will also be on exhibit. Ed now has 13 purebred animals, valued at $1000, which he has accumulated while attending high school and at Poly. During the last two years, this project has earned a labor income of $983. His six cows with production records of 50 to 100 pounds of butterfat per cow per year. This is an average record for any purebred breeder.

Inspection of the dairy unit will be a highlight of the tour of the campus. A barbecue will then be served in the Poly Grove and at that time the double quartet will furnish music. The afternoon will be devoted to a business meeting of the association. California State Polytechnic has elected to act as host to this group and extend a hearty welcome to this group of outstanding farmers.

Henry House

Mustangs A Speciate Fine High School Exchange Assembly

Performing to a packed house, the San Luis Obispo high school put on their portion of the exchange assembly. This was the third assembly of the two schools yesterday.

Everyone has been saying how surprised they were when they noticed the Victory Boys when they danced. They had no idea they were so good. For the amount of time they have been going, they have done very fine. For the program, they started out with their theme, "Say It With Music," following with "You Made Me Love You," "Town Tunes," "Miss You," "He's A-1 In the Army and 1-1 In My Heart," followed by the theme. Everyone clapped and liked it so much that they took an encore. "Little Brown Jug"

Doris Martinson and Elizabeth King played two piano duets. One was the biggest attractions was a tap dance by Candace Snowman, who has never quite gone for that. The other was a capella choir sang "Madam Jeanette," "Joshua Fit de Battle of Jericho," and "Blue Birds." All in all it was a very fine program and everyone appreciated it very much.

No Collegiate Club Dance This Week

There is to be no Collegiate club dance this weekend here at Poly. We understand that due to some reason there is a policy here that there will be no dances on the campus the weekend of a tour on campus. However, there are to be two more dances on our calendar. San Luis Obispo high school on May 15 and 22. The Collegians are working up new tunes all the time, and you may be sure that you will enjoy both these dances. Some of the songs include "Jersey Bounce" and "Always In My Heart." Let's get together and help finish up the Collegiate club's school year with a bang, and a very big bang. How about it.

Prexy-Elect States Views for Next Year

Fellow Mustangs! The less said at times like these the better. It is essential that we have an approximate idea of where we're going next year.

To propose a platform would be folly because what the next news bulletin will bring in the form of new regulations, etc., is unpredictable. We can, however, play a dis­ cussion game. If we can postulate that it is toward this goal I believe we should all work.

Walt has brought several wonderful ideas from the student pres­ ident. Alvin Quist, a son of the late Mr. A. J. Quist, on May 9, 1942. About 400 feeder breeders and association representatives will be in attendance. Mark Borer is the president and A. J. Quist is the secretary-treasurer. Alvin Quist is the secretary of the latter, now a dairy student at Polytechnic.

The race for secretary, Harold "Clancy" Acton, barely nosed out Ed Santos, by a scant 15 votes out of a possible 275. The office of treasurer seemed to be the most fought for position as three candidates ran for the position. Bernard Goodbody, and Chet Merithew's names were listed on the ballot, but due to the fact that no one received a majority vote, a revote was held Wednesday between Goodbody and Merithew - the two top men. Chet Merithew received a large majority in the revote, however, only one-half as many students voted on Wednesday.

Jack Mitchell defeated Ray Rahnjohn in the race for the position of yeoman. Mitchell, who was assistant yeoman last year, will now start his duties next year along with two other newly elected men. Helio Maresca, and Donald Jones, who was a business manager for the athletic manager, was elected to that position.

The official results as tabulated by the election committee are as follows:

President: House, 194; McDonald, 82.
Vice president: Crenshaw, 107; Procasal, 170.
Secretary: Acton, 140; Santos, 120.
Treasurer: (1st vote) Arnold, 37; Merithew, 129; Goodbody, 110. (2nd vote) Merithew, 101; Goodbody 118.
Athletic manager: Barr, 274.
Yell leader: Mitchell, 181; Rabjohn, 90.

Spring is Here

So are Jackasses

As you remember, at the start of the year Ed Mustang campaigned against traffic violators with the column "Driving Jackasses." The publicity given such violators was brought to a head when Poly's "driving jackasses" were driving careless. Now, after some time, a number of the boys have taken their driving skills into the driving jackasses category. In an effort to stem this trend we are printing a column called "Jackasses" again to start this column.

This week's driving jackasses are all guilty of parking too long in front of the dormitories. These violators are:

O. F. Lucking, W. E. Bowls, and R. C. Younger. The faculty has challenged the members of this group to a softball game to start next weekend, which is scheduled for 6 p.m.

Faculty to Treat New Club to Barbecue

The Golden Key, recently organized scholastic society, will hold its first social event Wednesday evening, May 13. The faculty of Poly plans host to this group at a barbecue to be held in the Poly Grove. Arrangements for the food are under the supervision of O. F. Lucking, W. E. Bowls, and R. C. Younger. The faculty has challenged the members of this group to a softball game to start next weekend, which is scheduled for 6 p.m.

Staff Challenges Faculty to Edit El Mustang—Once

The May 7 edition of Poly Views, the mimeographed paper of our brothers at San Luis Obispo, just came across the editor's desk. Let and behold the edition was written, edited and printed by the faculty in a "snack" edition planned as efforts of the student staff which "struggles" through each Thursday night so that this well written sheet really gives to the faculty an inside on the trials and tribulations of editing the school paper.

Here at San Luis Obispo we publish a weekly paper which is in demand ten times as large, and since it is printed, requires even more trouble than the mimeo­ graphed sheet of our southern brothers. We hereby invite, challenge and beg the faculty to write, edit, and print the final edition of the school year, May 22. Without, of course, the assistance of any student member of the editorial or mechanical staff, or the assistance of Mr. Kennedy, who works each Thursday night as a member of the regular staff.

Gamma Pi Delta Holds Barbecue

The Poly Gamma Pi Delta fraternity held its annual barbecue Wednesday af­ ternoon. Several people were in a festive mood, including Henry House, who was just elected university, student president, and Bob Win­ terbourne, who just reached his twenty-first birthday.

After some hillocky baseball the members and guests had apples, potato salad, hot dogs and buns. The chef was Gordy Woods, who did a swell job.

Faculty guests were "Doe" Mc­ Capes, advisor; Carl Beck, past ad­ visor; George Egg, G. C. McCorkle, and Lindsay Jones.

By Walt Doughtery

Hi, Mustangs! Here I am again knocking out the ol' column and glad to be doing so. I haven't gotten this column out for the past three weeks. I have been trying to wonder if I was going to be able to do so again. There has been so much going on the last few weeks that your crew hasn't had much time for a good many things.

THANKS MUSTANGS

First of all I want to sincerely thank everyone. Each and every one of you Mustangs for sending me as your delegate to the 1942 Pacific Student Presidents Association convention at Sun Valley, Idaho. It was a really a swell trip and very educational.

You are probably wondering just what it was all about. I am making a terrific understatement when I say that it was a series of very fine discussions with a lot of fun thrown in besides. I feel that it was indeed a privilege for me to represent you and meet one of the finest groups of fellows I have ever known. They are top. Every one of them.

GOOD INVESTMENT

I can tell you that I can well say that the money invested by the Associated Students was by no means wasted, in view of the knowledge and experience gained from this convention.

To give you a better idea of what it was all about, I'll tell you about the things that I learned there and those most valuable ideas we could use here at Poly.

We arrived at Sun Valley at 9 a.m. on Thursday, April 30, registered, and were assigned rooms at the Challenger Inn. Immediately thereafter we had a general meeting in the Lodge, a large and very beautiful room, also general and those of us on the way out used it to become better acquainted and discuss college and student body problems. We discussed:

- College publications
- Our first regular discussion group was held that afternoon and the subject was: The Part of the Studentbody and Colleges in the War Effort. This is probably the most important and must be held during the convention. Of all the colleges represented ours was, so near as I could ascertain, the first to organize and put into effect an air raid defense system.

Colleges in this connection. In this way we were able to learn of the many extra programs the students were doing to help the war effort. Some of the ideas that the colleges represented do include a yearbook in the studentbody and in the newsprint of the student body for the first time that any college in the entire west.

NEW STUDENTS

"Orientation of Freshmen and Transfers," was the topic of our next discussion at 2 p.m. Friday afternoon. Some of the ideas gained from this discussion were:

AT THE TOP OF THE LIST

Letter By Ex-Polyteer From Reception Center

Dear Mr. Patchett,

We arrived in the camp on the afternoon of April 30. There were already 2000 here. The camp is composed of approximately 160 large barracks capable of holding approximately 6000 Japanese. Some of the barracks are horse stables, but we're satisfied because it's the coolest place of them all. Rest of them are temporary new barracks.

The foods aren't necessarily good, but we are always welcome to a second helping.

The weather is getting pretty hot over here, so no one feels like working. Everybody seems to be here on vacation. We are told that we probably will stay here for at least three months, so please tell Mr. Kennedy to send me the rest of the El Mustangs to the above address.

We are very proud that we are not treated as prisoners although we are confined within the camp area. Have free organization of camp; we also had religious services this morning. As soon as the place gets organized we will have many colleges have, and experience gained from this one.

Of the things I learned there and during the convention was held. Immediately after that a clinic for prevalent-students was held and the retiring presidents met in another room, also general and those of us on the way out used it to become better acquainted and discuss college and student body problems. We discussed:

Letters to the Editor

April 28, 1942.

Queen Joetta Sends Polytes Letter

Dear Miss Polyrose—

To the studentbody as a whole and to each Polytes personally, I want to thank you and let you know that I've been considered myself so much as I did at your Polyte ceremony.

Being your queen is one of the greatest honors I have ever had believe me, I'm going to try to be the best queen you've ever known.

Those three perfect days I shall always remember because of your kindness and the personalities of all of you.

You said the purpose of choosing another college to win games was to further inter-scholastic relations. This was fully accomplished.

Freddy Miller started it off by playing two consecutive games in which those girls really never talked to. They haven't stood behind you and all of your social functions and other activities all year long. They haven't given you any fun or good times, they don't know you and they never will.

We've had lots of good times with you men. We liked dating you and we liked supporting your activities. We've done our part for you and still now, probably the future, will find us doing the name, no matter who's queen. We realize that we could have much less to do if we weren't for all of these things and make these facts.

But Poly, this is our side of it. We don't like making up the court and giving you anything and will never expect that you will give us the same thing. In the two consecutive years, the first time being when she says how-do-you-do to smile and smile, and when she smiles, mirrorm she can't remember the name, but you, she does remember the face (like others) and hands the crown over to the next stranger.

I hope you will print this in the next edition of your paper, but the truth always is, and do believe this is the true solution of all the girls of San Luis Obispo who date you Cal Poly men. This is your answer to your date for the show, dance, or ball game. Ask her own honest opinion. See if I'm not right.

Sincerely,

A San Luis Obispo Polytes

Club Payments For El Rod—Misunderstood

A slight misunderstanding resulted from some confusion from organizations represented in this departmental club which led to the failure of staff members to contact the organizations' officers to make necessary arrangements.

In an effort to clarify the point, Bob Reynolds, Poly's News Editor, offered the following explanation:

"At the beginning of the year, there were three pages in which all activity in the annual to include all departments. Trying to keep the deadline for new publication resulted in a misunderstanding between some departmental organizations and the staff over the selection of staff members. El Rodeo, for space allotted to the club. Had the boys on the staff felt free to show the club officers exactly what they were to receive for their money, it is highly probable that there have been no question as to the bargain offered to the clubs. However, trying to keep section details until the book was turned in, it was impossible to get that up against questions which are impossible to discount the concept of the book.

"The statements recently sent to departmental clubs were based on a charge of $6 per page, $15 for two pages, or $20 for three pages. When photographs were used, charge was doubled, and where there hadn't been, almost a few cents. Inasmuch, Aero, Boots and Spurs, Dairy and Electric clubs were allotted three pages in which all activities of both the club and the department, including faculty, were to be pictured and described. Crops, Hort, Poultry, Academic clubs, and other industries were allotted two pages for the same type of work. Inasmuch as this time that was an equitable method of allotting space since the expense could be apportioned evenly among the various students in each club. All social clubs were limited to one page and had any desire to have either other fraternity or dormitory clubs.

"At the beginning of the year El Mustang was to be 22 edition of El Mustang a two column by 10 inch advertisement page, advising all that the January 23 editorial meeting was the "last" deadline for departmental club presidents. Since early in November, El Rodeo had been listed in the paid and non-paid amounts and time due. There are organizations which had been paid and didn't receive any on the campus during those weeks, and a large number which were still to receive any. It is a method of the club which is evidently due annual until the entire amount due from the club is paid.

MET WITH ACCIDENT

It has been rumored that James "Bathsos" Sanborn is now be­

called "Dolphinsus" by the students, due to the failure of staff members to contact the organizations' officers or departments.

In an effort to clarify the point, Bob Reynolds, Poly's News Editor, offered the following explanation:

"At the beginning of the year, there were three pages in which all activity in the annual to include all departments. Dairy Judging

Results Shown

The judging of the many breeds of dairy cattle attracted a large attendance of people at Poly Royal this year.

Of the many breeds of dairy cattle judged were 15 Holstein, eight Guernseys, and seven Jerseys.

The preliminary judging took place in the Poly Grove at 10 o'clock Saturday morning. Each breed was judged respectively and the winners competed that afternoon at the sheep unit for the grand champion award. The judging was based on showmanship ability.

Maurice Katcher took first place in the Holstein class; Jim Lawson took top prize in the Jersey class, and Ed Santos won the Guernsey class.

In the finals at 1 o'clock Ed Santos took the grand champion award with the Guernsey cow. Ed received a show halter for his good work on his animal. Other awards which were given were two framed pictures of a Guernsey cow and halter, and two books on how to fit and show dairy cattle.

Those who took part in the showing were Hans Hanson, Alvin Quiet, Ray Mount, Jim Pullman, Kent Vircan, Avrey Fearrington, Arthur Grant, Jim Lawson, Ed Santos, Maurice Katcher, Robert Speck, and Bill Benton.

The judging for the show were C. W. Robinson from the Guernsey club and Neil McPherson from the Jersey club.

Hort Boys Show

Beautiful Exhibit

A main part of the exhibits of the horticulture department was a very colorful and artistic display of various flower arrangements. The flowers were arranged by Mrs. George M. Dunn, wife of the Poly dairy production instructor, Mr. Dunn. The valuable materials used were furnished by Good's Gardens of San Luis Obispo.

Also on display by the horticulture department were all the plant materials at the college nursery, including plants and flowers, and named varieties of ornamental shrubs.

MANY BRANCHES OF SERVICE

There are also commissions awarded in ground crew service. College men particularly will be interested in the requirements for Armaments, Communications, Engineering, Meteorology, Photography. If you have engineering experience your chances of getting a commission are excellent.

As a Second Lieutenant on active duty with the Army Air Forces, your pay ranges from $183 to $245 a month.

ACT AT ONCE

If you want to fight for America, this is where your blows will count.

If you want the best training in the world, and years of solid achievement in aviation—the great career field of the future—this is where you belong. Your place is here—in the Army Air Forces.

If you plan to enlist immediately, start getting your necessary papers ready for the Aviation Cadet Examining Board when it meets in your locality. For complete information, see your Faculty Air Force Advisor. You can take your mental and physical examinations the same day you apply. Get further information now.

NOTE: If you wish to enlist and are under 21, you will need your parent or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today—you can then complete your enlistment before any Aviation Cadet Examining Board.

NOW FOR COLLEGE MEN A NEW OFFICERS-TRAINING PLAN

★ New Deferred Service Plan Allows You to Continue Your Education ★

In the skies over America the mightiest air fleet in the history of the world is mobilizing for victory!

So fast is it growing that there is a place here—a urgent need here—for every college man in America who can qualify for Officer's Training.

The U. S. Army Air Force needs Flying Officers and Ground Crew Officers. And many of them must come from the ranks of today's college students—men who make their plans now for the necessary Aviation Cadet training.

Thanks to a newly created Air Force Reserve plan, men of all classes—aged 18 to 26, inclusive—can enlist for immediate service or continue the scholastic work required for graduation before being called to active duty.

You must meet the requirements for physical fitness, of course. In addition, you take a new simplified test to determine your ability to grasp the training. A college man should pass it easily.

$75 A MONTH DURING TRAINING

Those accepted who wish immediate duty will go into training as rapidly as facilities permit. As an Aviation Cadet, you are paid $75 a month, with subsistence, quarters, medical care, uniforms, equipment.

In 8 months you can win an officer's commission as a bombardier, navigator or pilot—and be well started on your way to serve America and advance yourself in aviation.

Three Enlistment Plans for College Men

Juniors-Sophomores-Freshmen May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their scholastic work as facilities permit they maintain satisfactory scholastic standings.

All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Force (unassigned) and serve there until their term comes for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Program is part of the overall Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to serve under the Army as a deferred basis and continue their education through participation in the Reserve or as a full-time student.

It is understood that men so enrolled will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved by the belief that continuity of education will develop capacities for leadership. (Reserve enlistment will not affect regularity regarding established R.O.T.C. plans.)

McFarland Heads Navy Relief Drive

R. McFarland, Cal Poly main- tenance superintendent who served with the Marine Corps during World War II, has been asked to handle Cal Polytechnic contributions to the Navy Relief Society's fund raising drive.

The Navy Relief Society was formed in 1865 and in that one fatal day at Pearl Harbor than during the combined duration of the Spanish American and World War I.

There are no arrangements in the Navy Relief Society to make a national appeal for funds for the first time in its history. An attempt is being made to raise $5,000,000. Walter Long, noted editorial writer, recently wrote: "I advise you divide ten minutes to find out what the Navy Relief Society does for the families of the officers and men who will need no further convincing that the society is absolutely to the Navy. It guarantees to the men who go forward against the enemy that their families at home will in no circumstances be forgotten and neglected. There is no mark given to anything they do.

As a part of the campaign for the fund, the Cal Poly students distributing for sale emblems in the Union, using non-defense materials. The woman's pin costs $1.25, woman's lapel pin, $1.25; woman's pendant, $1.25.

Anyone interested in doing something in return for the great service done to the Navy in general, is invited to join the organization.

El Rodeo Has Group Photographs to Sell

El Rodeo has the following group pictures for sale in the journalism room. Room: In the 65th inch square there are prints of the Crop, Air Conservation, Business Administration, Poly Phase, Los Lecheros, Horticulture, and Young Farmer clubs. Jasper, Dennis, Dave Hargreaves, Herb Hall, Doug 3, 4, 5, and 6, the upper and Lower Units, band, charity committee, Bob F. and SACC, the Poly band, the Horticulture, Boots and Spurs, and Young Farmer organizations, Chase-Hill Band, and the Chorus.

The smaller pictures cost 20 cents and the larger 50 cents apiece. Also, Amateur Studio has the negatives to these prints on hand, and students may order prints there.

The California Polytechnic High School dance was held last Saturday evening at the Young Farmers' barn dance which do not extend beyond six months.

On the negatives to these prints on hand, and Young Farmer clubs, also Aston the Upper and Lower Units, band, and what little it does demand is something in return for the great service done to the Navy in general.

Marine Corps, and Coast Guard. We, the writers, have a duty to pass on the truth of the circumstance, not what we think of them.

Yet, one feels capable of taking on the rest of us, to get your own, and what little it does demand is something in return for the great service done to the Navy in general.

WINS SCHOLARSHIP—Stanley H. Dominguez, 16-year-old Stockton High School senior, is winner of the 1942 Safeway Stores scholarship for animal husbandry, awarded annually at the Pennsylvania State University. America Livestock Marketing Day in Stockton for special aptitude and talent in raising live livestock. Dominguez, shown here with Assemblyman James E. Thorp of Lockeford, secretary of the California Swine Breeders' Assoc. (left), and Roy C. beam, Executive assistant (right), well use the scholarship to pursue his hobby of hog raising at California Polytechnic School, San Luis Obispo.

Stockton Boy Wins Scholarship To Cal Poly

Dominguez won the award on the basis of his entry of 10 choice crossbred hogs at the annual Future Farmers of America Livestock Marketing Day held in Stockton April 1, plus his general good scholarship in vocational agriculture under instructor Howard F. Peters at Stockton high school. Dominguez' choice hogs were purchased for the markets of Safeway Stores.

The award will be used by Dominguez to pursue his agricultural studies at California Polytechnic Branch, and he plans to enter this fall to specialize in swine raising.

Safeway Stores annually awards the scholarship to a student who shows leadership in recognizing the excellent work of the Future Farmers of America and other junior agricultural organizations in improving the quality of California livestock.

Bought Mahony did the checking for the first seven innings and Howie O'Daniels finished it up for Poly. Sharp, Arne, Henderson, struck out nine men during his reserve pitching.

Marti Stewart, Poly catcher, and "Val" Valenzuela, right fielder, both collected three hits out of five times at bat.

OFFICIAL NOTICES: All west coast L. E. T. please report to the gymnasium May 15 for game measurements. Also sign up for the basketball relays. Practice will be at 1st. time as possible.

FRESHMAN MEETING TO BE HELD

An important meeting of all freshmen will be held in the A. C. auditorium, 8 p.m. Thursday, May 10. It was announced by Robin Stier, class president, and Tom Hopp, class vice-president. The meeting will be for the purpose of making place for the freshman dance.

SIGMA PHI KAPPA ELECTION

The Sigma Phi Kappa Fraternity had their election of officers for 1942-43. Clint Merleworth was elected president, David Ruiz, vice-president; Quentin Highfill, secretary; and Bob Beers, treasurer.

Pretty neat, what? Yes, that was a very good assembly they put on for us yesterday.

As you know, there is to be no College club dance tonight due to the Young Farmers barn dance tomorrow. You see, it's been a policy here during this war time than none on dance on the campus each weekend. However, there are going to be two more such dances this year, May 15 and 22. Plan on attending those dance. Fellow students.

How did you like the San Luis High School "Victory Boys"? On the negatives to these prints on hand, and Young Farmer clubs, also Aston the Upper and Lower Units, band, and what little it does demand is something in return for the great service done to the Navy in general.

For Better Feeds

The Agricultural Marketing Administration of the U. S. D. A. is interested in securing colleges to fill vacancies caused by the present Army Air Forces Training Aids (Trainees). Some juniors in this institution are qualified to apply for the simplified positions which do not extend beyond six months, or during the summer vacation. Compensation for such positions is at the rate of $10 per hour for 40 hours a week.

The duties of Assistant Marketing Administrator will be in charge of the distribution of food and agricultural products, including inspection of processed foods; laboratory analysis of certain products, production of certain foods and agricultural products in packaging plants, etc. Knowledge of agriculture is desired in applying for one of these jobs may have to be obtained through correspondence with the U. S. Department of Agriculture. All other information from Mr. Edgar, registrar.

Young Farmers! Don't forget to take your wives out tonight in the sheep barn. Get your gals and be there!
Young men who cannot qualify permanently for aerial training in the U. S. Army Air Forces are being urged to investigate courses offered for commissioned as well as enlisted officers.

Special college training can earn commissnions in armament, communications, engineering, meteorology, ordnance, photography and many other areas.

Physical requirements are the same as the general standard for a U. S. Army Reserve commissnion, but less rigid than flying requirements.

Civilians who wish to qualify as armament officers must have at least two years of college credit in an accepted engineering course. An applicant for Aviation Cadet in the communications field must have at least two years of college including a year of college physics. Holders of amateur or commercial radio licenses may substitute this experience for physics credit.

To qualify for training as an engineer, the applicant must have completed three years of college, special emphasis on engineering, with a minimum of 24 semester hours in mathematics and physics. Cut off for training is 16 years.

For training as an armament officer, the applicant must have completed three years of college, special emphasis on engineering, with a minimum of 24 semester hours in mathematics and physics. Cut off for training is 16 years.

The Air Force offers an exciting and important publication. Previously it was strike on the half-hour and hour.

As a Nets editor, you will be given the task of editing and designing the Net's newsletter, The Electric, which is distributed to all officers in the 10th AAF.

For those interested in photography, there is an opportunity to work with a high-speed electron microscope in the Army Medical Research Laboratory at Fort Belvoir, Va.
