Government Trains Men For Defense Jobs

The sixty-nine men, now enrolled in the national defense program at Cal Poly, have enrolled in the Poly Field Training Center, according to Dean of Industrial Education Charles K. Reckik. About 250 men and 100 women workers who have received training in aircraft building are enrolled at the San Luis Obispo airport. These men are being trained in aircraft mechanics, with the expectation that they will be distributed throughout the state. The federal government has approved the plan of the Poly Field Training Center.

Students Join Naval Reserves For Training Period

Many young men in our country are participating in another important military project, the training of our School for the Navy. The Navy has established a training center at Cal Poly, and the men are being trained in aircraft mechanics, welding, machine shop, and other occupations.

Student Loan Fund Now In Operation

The student loan fund at Cal Poly is now in operation. The fund is designed to help students who need financial assistance to continue their education. Student loans are available for the current academic year and can be obtained through the vice-president's office.

Civic Leaders Honor Cal Poly At NYA Work Center Dedication, Sunday, Oct 6

The Cal Poly Man Complete Cadet Training

Among the new Air Corps flying cadets training in the auditorium at San Luis Obispo is a young man from Santa Barbara. He is one of the many young men from our country to be trained in the service of the United States.

Poly Band To Play At NYA Dedication Oct 6, Over KVEC

Field Training of the Air Corps Today... the first field training of the new army schools for basic flight training and training centers. This will consist of 10 weeks of primary training, 10 weeks of advanced training, and five weeks of specialized training.

Schedule For Santa Barbara Trip Made

You don't have to miss any part of the trip to Santa Barbara. Over 100 of the reseachers and graduates will be there to meet you, and the tentative schedule is as follows:

- Train leaves Loma Vista at 5:20 p.m., will not begin un­
- Available at local employment agencies.

First Poly Dance To Be Held Tonight In Crandall Gym

One of the biggest events of the fall quarter is the first student dance of the season in Crandall Gym. This event is sponsored by the Cal Poly Men's Activities Group, which is made up of students who have a keen interest in social activities.

Ag Mechanics Students Work Practical Problems

To cope with the increasing use of small gasoline motors for farm power, the California College of Agriculture and the United States Department of Agriculture, in cooperation with small engine manufacturers and the United States Department of the Interior, have organized the Agricultural Mechanics Association.

Former Aeron Student Campus Visitor

Vernon Stahl, Jr., who built a world champion glider at the Poly Field Training Center, will be back on campus this week to give a talk on the importance of mechanics in aviation. He will be the guest speaker at a lecture series on aviation sponsored by White House.

Students Must Apply For Credits Evaluation

Students who registered for degree must check their enrollments in the beginning of the quarter. They must also apply for credits evaluation.

The mower sweeps across a lawn, is an old familiar sight to many of us. It is used in small garden and orchard plots as well as for farm belt work and general field operations. The mower is made of steel and has a cutting attachment that is adjustable to suit the type of grass.

Where could you get such an instrument for $50.00? At the local employment agency. The men are doing work at the Poly Field Training Center.

Students Join Naval Reserves For Training Period

Moe Gardner is telling of the advantages of the training program, with the regular one year training which consists of 27 hours a week in learning to work in a shipyard, construction, and repair.

The number of students willing to enter the program was almost doubled by transferring the technology used in heavy equipment design to aviation. The number of students interested in aviation doubled in one year.

Requirements of CAA

...the airman must be a citizen of the United States, have passed an examination given by the CAA as a qualified airman, and have completed the primary course.

Laboratory practice in farm engineering includes the study of irrigation, crop rotation, and animal husbandry. The laboratory is equipped with the latest farm tools and equipment.

The tractor is of novel design, so that the operator can gain a better knowledge of the over the drive wheels all weight of tractor. There are the greatest possible amount of traction, however, the transmission connected by the motor and transmission of the tractor will be especially designed to do this work, as well as for farm bell work and transportation.

Students who complete the course in practical studies will receive a certificate of completion which will be signed by the instructor and the director of the Poly Field Training Center. This certificate will be presented to the student by the director of the Poly Field Training Center.

Most effective training of the student body will be given to those who have completed the required examinations. The examinations will be given at the Poly Field Training Center and will be supervised by the director of the Poly Field Training Center.

Aubrey Williams, national administrator for California, will be present at the presentation of a flag and the flag will be presented to the Poly Field Training Center.

The Cal Poly hand, under direction of Harold Davidson, will enter the Poly field at the Poly Field Training Center.

BREWSTER BURNS, N.Y.A. administrator for California, will be master of ceremonies at the dedication of the Poly Field Training Center.

Pitty, Pitty, Pitty... the Poly Field Training Center will be dedicated to the service of the nation. The dedication will be held at 3:00 p.m. on October 6th.

Boo's and Bouquets

By Roy Brophy

This work several individuals have gone to the expense and trouble of setting up shop in business in the San Luis Obispo area. They are really like us in interest. If we're wrong about this, we'll have to take it up with them...

RESPECT WHERE RESPECT IS DUE

By Howard Brown

I'll have to do a little thinking before we get back to the problem of what this paper can do. I'm not saying that we can...
Glee Club Starts Season With Many New Members

Despite the fact that only twelve old glee club men were back, making it necessary to take in twenty new members, the balance in Cal Poly's glee club is very good, according to Director Robert R. Davidson.

"Many of the new men have fine voices and when the whole group assembles it will be very good. At the present time the sound of the club is bright," he said.

"The style of singing will be somewhat different from that of last year's club, as we will be selecting the choir to form a future assembly," Davidson added.

The entire collegiate quartet gradu­ated last year, as well as two members of the "Varsity Four," thus it will be a little time before either quartet will be able to fill the many requests that have come in for their services.

Fay Lanier, head of the music department, had a very busy time, the total number of engagements for glee club, band, orchestra, quartet, and soloists was over one hundred and seventy. This included the band and orchestra trips as well as the annual glee club tour and the many engagements in the surrounding counties and cities of California. More than twelve thousand high school pupils heard the glee club.

Staff Members Called For By El Rodeo Editors

El Rodeo, the yearbook, needs will­come new glee club men to work on the staff. Although there is no monetary reward, the personal satisfaction one receives is also very valuable to any person who plans to do journalism work.

The Phantom

Spinning is the season for love, but Dick Chandler, that sprite from the southland, could not wait for spring. He has heard according to Brown and AnnLee that Fred Black, in his round dance, started spinning the last week of October. Dick had given no thought as to what our boy Roy Alman thinks of this.

Check Velde, this year's highoor from the southland, is supposed to have started spinning, too. He has been seen occasionally at the S.P. P.M., so perhaps Rickard had spun this beautiful, red-haired girl.

"It doesn't hurt the brain, that 30 minutes talk for 15 hours, but I don't think the same style that saved him there, Fred Parker was seen quizzing a friend about the latest in new fads. He rubs his hands and says, "What do you think of this? I want to know what all these boys from the south­land have. Better watch out, Fred."

This is just a rumour, but I pass it along for what it's worth. Alk Varnesports about his ideal date last week in Paso. He says he wants a woman with a "voice of her own. I wish I could hear that."

Fred was at the phone last week, trying to get in touch with the voice of a woman who might be a good spin­ner. This is just a rumor, but it may be passed along for what it's worth.

"The style of singing will be some­thing new. I want to know what all these boys from the south­land have. Better watch out, Fred."

Recently, the "Fresno" group has been trying to get back with their old glee club men, and the "Varsity Four," thus it will be a little time before either quartet will be able to fill the many requests that have come in for their services.

POLYTECHNIC LEAVE FOR GAME WITH HUMBOLDT STATE

The thundering Mustangs left yesterday morning for Eureka where they will renew their rivalry with the highly touted Humboldt State "Thunderbolts" in a thrilling afternoon at Albee Stadium. The Mustangs have had three previous contacts with the Thunderbolts and have defeated them all.

One of the most beautiful tackles ever made by any ballplayer was made by Pat. He was called for holding and his face was buried in the ground equal to 6 yards. Pat showed that he really is a star.

The Mustangs' line to pieces. Sturgeon has been remembered in the game with Oregon State.

**Maine Trounce Santa Maria Bulldogs**

Friday night Paly's Green and Gold thrilled the spectators with a 21 to 7 victory over the bulldogs. Although the Bulldogs were less powerful, they have a more small and quick players and they were able to get into the territory of the Thunderbolts.

The Thunderbolts line up at 6:40 p.m. for the big game with the Gauchos. Doth fellows claim to have the upper hand.

**Sport Shorts**

George is majoring in Air Conditioning as a three-year major. Doth fellows are in the same theory that all Max Baer must do is keep a winning streak.

Although the Santa Barbara Gauchos have never been to the Pacific Coast, they usually make big plays and have a great deal of power. Coach Howie O'Danley, former captain and kicker on the Poly team,*[Footnote: See below]* one of the most beautiful tackles ever made by any ballplayer, was called for holding and his face was buried in the ground equal to 6 yards. Pat showed that he really is a star.
