**“On To Santa Barbara” Cry 200 Polymen**

**R.O.T.C. Training Will Not Be Possible In Near Future**

Military training in the form of a Reserve Officers’ Training corps at Cal Poly will not be possible for some time it was revealed today by Leonard M. Deuel, president.

The war department has neither funds nor personnel for the establishment of a ROTC program at this time, according to a letter received by the president from W. D. Carlson, assistant adjutant general in charge of the adjoining third corps area.

Carl. Crank’s letter was a reply to an inquiry from Mr. Deuel regarding the possibility of establishing an officer training unit here.

Cal Poly has never had regular training, according to Capt. Drew. “The military training of a few years back was a farce in a special position of the national defense act. Its disadvantages were that this plan provided no funds for equipment, and also no service experience toward a common standard,” said Drew.

**NYA Barrack Dedicated In KVECPGM**

At the dedication Oct. 6 of the new modern NYA residence on the Cal Poly campus, Chief Justice Phil Gilmore of the California supreme court, declared that the National Youth Administration is making America a real land of opportunity for under-privileged youth.

“The surprising thing is, the scholastic performance of the boys here is in par with the colleges across the nation, and NYA assistance has only helped to improve it,” Chief Justice Gilmore said.

“Stay away from any boy here, and you do not know he is a NYA resident. He is a living and also fit into the national defense program. An NYA boy chosen as team captain at the Poly cross-country meet this season is lying in a hospital, a victim of a car accident,” said Deuel.

**Crops Club Organize For Coming School Year**

The crops club of Cal Poly, which was probably one of the smallest clubs in membership last year, forged ahead this year to a great point, the school organization reports. The number of members is up to 150 and the membership is expected to still increase.

For the first time in its history the club elected the officers for the year.

They are Oscar Huffman, president; Edgar Fisher, vice-president; Fred Leard, business manager; and Roy Dowling, secretary.

Several of the many activities planned for the coming year includes competitive sections in milk marketing, disposition of poultry, disposition of crops, cooperation with the school organizations that belong to the crops club charter, initiation of new members, general social events, sports activities, and field trips.

The club is also planning to hold a weekly event and initiation Tuesday, Oct. 7, at 3 a.m. in the J. C. room.

**Excursion Schedule**

2:15 p.m.—Train leaves San Luis Obispo from Railroad siding.

4:10 p.m. —Train arrives at Santa Barbara.

State street.

1:30 a.m. —Train leaves Santa Bar-

5:15 a.m. —Train arrives San Luis Obispo.

**SANTA BARBARA STATE CO-ED’S WELCOME POLYITES**

Santa Barbara State Co-ed’s Welcome Polyties

**Training To Leave From SLO Station At 2:00 PM**

“The whistle blew, the train drew nigh.”

So goes an old song, and so goes Poly’s theme song today as the time for the departure by train to the Mustang-Gaucho game in Santa Barbara grows near.

At 2:00 this afternoon the special R.O.T.C. train will leave the local San Luis Obispo station with more than 100 students aboard. The Poly train will arrive in Santa Barbara where they will make several stops in the local town to pick up the Poly rosters. From the train the students will walk to a field off the railroad track. Kick-off is at 3:00 p.m. The Poly side will be dressed in blue; the Mustangs will be dressed in red. It will be a battle in the little field at 8:00.

At the Poly football game for 1:30 p.m., the students will be transported to the Athletic Department club house where a dance will be held for rosters from both schools.

At this time all assembly will be in place to cover the cigarette area.

The train will leave the Santa Barbara station at 4 o’clock and reach San Luis Obispo at 8:15 a.m.

**Initiation Over As Sophs Win Annual Brawl**

The Sophomores upheld their un­conquered record for trips to the annual Poly Brawl in the annual Brawl held last Friday night.

At the start, the Sophomores took the lead. They were followed by the Freshmen who were flushed from the booth.

“From the booth,” said Mr. Wayne, “the Sophs seemed certain they would get a good Brawl. The Sophs took the lead!”

The Brawl ended when the “wet” participants showed the “dry” ones into the mud hole.

As the Polymen went off in fine shape and both classes were satisfied with the results the Rally Committee handled it.

**Excursion Schedule**

7:30 p.m. —Banquet to be held in Cal Poly dining hall.

5:15 a.m. —Breakfast at Poly.”

**SPECIAL NOTICES**

Tickets for the Santa Barbara game will be distributed on the rally train. Students going to the game in private cars will be charged as admissions.

A bell was passed this week by the student affairs council in the effort to sabotage both sides which will be refused to students wearing Poly caps, etc., or other obstruction­able clothing.

**Annual Poultry Banquet To Be Held Tuesday Night**

The date of the annual Poultry club turkey banquet was set for Nov. 15 at the meeting of the Poultry club last Tuesday night. This is the greatest formal event of the year for the Poultry department and one that is looked forward to most, mainly because of the great reserve of food for those attending.

The guest speakers of the evening will be President McPhie and James Rich of Pabst and Bross. Master of ceremonies will be Paul Winners.

Invitations will be sent to the alumni who remain honorary members of the Poultry club, invitations will also be sent to out members of the faculty. The members of the Poultry club will have the privilege of having their names printed in the banquet program and will also have the privilege of attending the event.

The five major activities of the program include:

9:00 a.m. —Registration begins, continuing throughout the day.

10:30 a.m. —Meeting of the Board of Directors in the new Industrial Education building.

11:00 a.m. —Meeting of all Cal Poly alumni, in the new Industrial Education building.

**Dairy Club Hosts Contest To Make Lumbermen Party**

The regular meeting of the Los Lumbermen was called to order with a group of Poly men who were the handiwork of Merrill Smith, a Poly man who had a contest to see who could make the best Lumbermen party. The Poly men were the winners of the penalty for the last being the two who wore the most lumps on their backs. The contest was held at the Poly Physical Education gymnasium.

This year the fresh­men are having the ladies as the wax of the contest.
EXCURSION ETIQUETTE

October 11, the day with the paralyzed legs, has finally managed to crawl around to actuality. It's here at last bringing with it the hopeful anticipation of scores of Polymen. Hopes that at two this afternoon will take wings aboard the S. P. train bound for Santa Barbara and the Mustang-Gaucho game at La Playa field.

All this is like a new excitement is running high lots of things can happen. It seems that this week we are to be the crepe-hangers on the outlook. So here among all the do's we throw a few don'ts.

In general, please. What else have you got the total passengers on the train. Raise all the hell you want but make sure it isn't bringing it to earth for someone else to handle. Think of the other fellow.

DON'T forget the old saying about first impression being the lasting impression. If we have to be poured off the train at Santa Barbara, let us leave the taste in the mouths of Santa Barbarians.

Knowing when enough is enough.

DON'T forget of even the Gauchos are our gridiron enemies they are our hosts off the field. Treat 'em as such!—The Editor.

SAFETY FIRST

Up over the grade crossing, bumping over the ever present chuck holes, and roaring and skidding like a major earthquake came the explosive machine.

The peace and docility of Poly's Utopia was being challenged. The precious widening and trembled around the first curve, not knowing that only months before had these very gravelled roads smelled out death.

Now into second and down the hill past the cafe where a blind corner conceals students, trucks, and the ever present danger of the other driver. A sharp spin to the right and a furious tromp on the accelerator. The meager boulevard signs, so generously constructed for the driver's as well as the pedestrian's safety, is ignored.

And as the damage to the corner of the campus, where the trucks roll down the hill, and the private cars whiz by to reach the dairy before closing... into that step creates a tiny child intent upon keeping a humble hoppy hop from the windmills blow. And it is that corner which might bring a sudden shriek of rubber and the dull thud of an instant lifeless form. The driver need not fear for the driver's accident could come at worst only at a deserted denter. But to the parents of the little warm body, nothing but a lifetime of despair.

Speeding must be stopped. If you have a mania for speed, take it easy. It is not worth taking a risk in ending a lifetime of despair.

Another win for Poly's Utopia was being challenged. The precious widening and trembled around the first curve, not knowing that only months before had these very gravelled roads smelled out death.

Questionnaires Compiled By Ag Department

The data obtained from the questionnaires filled out by 384 agricultural students attending Cal Poly, have been completed by Carl G. Beck, adviser for the Young Farmers at Cal Poly. This data was compiled in order to enable the faculty to become better acquainted with the students and to provide statistics for future use.

Out of the 384 students, 164 are members of the Future Farmers of America. Twenty-eight of these have attained the rank of State Farmer. The majority of Paul P. Hill, who holds 110 and the Greenhands number 60.

More complete questionnaires were filled out by 84 students who will become part of their permanent records. This number of students is 10 years and 6 months. Thirty-one are enrolled in the vocational course and 47 in the technical curriculum. Due to the new degree status of California Polytechnic, there are now 17 new agricultural students who will fill out the questionnaires.

The Meat Animals department has the highest enrollment with 163 students. The other courses, dairy production, poultry, animal husbandry, agriculture, poultry, agricultural mechanics, and horticulture, have 40 to 18 students each.

The questionnaires revealed that many of the students had taken an active part in high school activities. The majority were enrolled in the FFA, forty-five in the 4-H club, students and 95 former officers of FFA are enrolled in degree courses. The other courses, dairy production and San Francisco State, had a total of 123 students. Sixty-seven are enrolled in the vocational course and 47 in the technical curriculum. Due to the new degree status of California Polytechnic, there are now 17 new agricultural students who will fill out the questionnaires.

Two teams that will be playing the Mustangs in the next future, Cal Aggies and San Francisco State. The average age of these students is 19 years and 3 months. Thirty-five of the students had taken an active part in high school activities. The majority were enrolled in the FFA, forty-five in the 4-H club, and dairy manufacturing. There were 5 to 21 students in each of the major sports are men. The average age of these students is 19 years and 3 months. Thirty-five of the students had taken an active part in high school activities.

The degree of Future Farmer is held by 110 and the Greenhands number 46. Questions filled out by 1104 agricultural students who will become part of their permanent records. This number of students is 10 years and 6 months. Thirty-one are enrolled in the vocational course and 47 in the technical curriculum. Mustangs Leave For Game With Gauchos

More or Less
By Les Vasefield

This week, we take our hats off to "All City" Lonnie Brad. Brad is the big tackler for the Mustangs, for his great play was outstanding on Friday night. It was constantly in the Northern backfield and occasionally went deep into the visitors' end zone. We hope Lonnie will do the same in our game with the Gauchos. This week we say "Nice going", Lonnie.

Many fans following the Mustangs should meet in Brad Lynn. This fellow was a good go-to man in Chicago. He is the first to come to see him and he escorted her to the Poly. We hope he will see us again.

This week we all know that we're going to see San Luis High in a charged environment to see the Mustangs stop the Gauchos. It doesn't make a damn what he does. Ross, at time, said it's not in the scheduled event. There will be a lot of other varsity men didn't practice this week-end. Cliff and Jim once again displayed his talent for the Gauchos. We hope he will show up with us but take out, Gauchos, because he's not going to show.

A win over the Gauchos would put a big feather in the Mustangs' cap even though their next game is scheduled with Los Angeles. The Gauchos met the Mustangs back in 1939 and last season the Gauchos played a field goal in the last few minutes of the game for the Mustangs. Coach Frank Smith is still fretting over this defeat. The Gauchos have tremendous opportunities in there still one can be sure of a win over these mighty Gauchos.

COACHES GAUCHOS

Humboldt Downs Mustangs By Close 12-13 Count

Humboldt State College came to defeat the Mustangs by 14 to 12. California Poly down first ball and lost 11. Eight of the game he lost were by one run. Had Lee been pitching for a title contender instead of one that is fairly low he would have won 25 games according to experts. Lee started his baseball career in 1933 with the White Sox at that time.

The Gauchos have tremendous opportunities in there still one can be sure of a win over these mighty Gauchos.

Powerful Gauchos "Expect" Win Over Galloping Mustangs

With blood in their eyes over their last two defeats and revenge in their hearts, the galloping Mustangs will leave for Santa Barbara this morning in preparation for their battle with the Gauchos in the annual meeting between the two schools. This game has been a highlight of the others that have been scheduled this season and will attract a large attendance. The possibilities of developing a crowd to fill the stadium are excellent following the usual custom of the Gauchos meeting to victory will no doubt add a significant touch to the game. Mustangs Prepare Pass Defense

Oregon State over Portland by four touchdowns.

Lynne wins title with Whittier by two touchdowns.

San Jose State will defeat the San Diego State team by a record of touchdowns.

In the league this week the Pacific will take the following form:

I hope Falm won't try to win this game. He's a tough guy and he visits his home town and Cal Poly to be taught by Washington.

Bollards will take La Verne by at least one touchdown against the Gauchos.
