**Poly Students Leave For S.F. on Train At 1 A.M.**

Cal Poly excursionists left at 1 a.m. today at the Caliper for San Francisco to spend the week-end. The 11 a.m. train that left yesterday fell through when the University of Southern California came to town. The trip was planned around the Western Livestock Show, which is to get under way here today. 

The trip cost the Poly $75.72, which was raised by the Garrett, Dairy and Poultry Club. The trip is a necessity, according to the club members, for the club to continue its educational and social work.

FREE SPEECH AND A FREE PRESS

In several days when there seems to be so much fear as to where American democracy is headed, many usually calm, steady thinking citizens have let the hysteria of the moment get the best of them. With undoubted patriotic fervor, they advocate the squelching of free speech and government control of the press as one of their main objectives—of the campus.

Students of the Journalism Class of California Polytechnic College, the defense of the country that has defended them and it can be of more service to Poly if they will just get into the Spirit of the Age. The NYA has more applications than they can possibly fill and it would be to one of an extreme emergency that the CAA boys would be called. Any man who is not taking this course for that reason is just admitting that he is afraid to defend America.

The thing to do is to read both the columns that can be printed in an emergency situation. It is a bad thing to think of the country as our "Center" and to feel that our service ends at the conclusion of the class. When you ram that throttle in, ease the stick forward and back and feel that old earth dropping away from you. That's a laugh! I don't think that this plane has any chance of making it. Perhaps this is stretching a bit the conversation that has been going on about the campus pertaining to the CAA training that is being given. I am afraid of being drawn out of school into the army or just wondering if the course is worth the "inconvenience." Perhaps this may sound to some of you and it sounds all the queerer to anyone who has been this—wondering if the course is worth the "inconvenience." That is like wondering if a man who has a different slant on the subject and get him to write the other side of the question. In this way we will free ourselves of accusation of one-sided participation in politics.—The Editor.

"Letter to the Editor" and we will publish it. We want to encourage THE POLYTECHNIC CALIFORNIAN student newspaper is not the place for controversy over national yours is a problem that is confronting many of your fellowmen and other side of the question. In this way we will free ourself of accusation of one-sided participation in politics.—The Editor.

"It is my opinion that the student flyers of Cal Poly are missing out on a god chance to get in a little cheap flying time at the local airport so that it will fit their pocketbooks. Inquiry has shown that the flight operators are perfectly will-
Mustangs To Battle Alligators Tonight

By Len Vanonini

The Mustang All-Star basketball team will face the Poly Lions on the Poly diamond with the Pismo club at 8:30 this evening. The Mustangs are off to a winning start this season and look for a victory tonight after winning their first game over Chico State last week. The Mustangs are off to a 13-12 record, making them a touchdown better. As there is nothing in comparative scores this prediction does not mean that the outcome will necessarily be that way, but it shows comparatively the way the two teams will line up.

Mustangs Horseshooters Meet Fischman Mentor

The spirit in the games is not what it should be. There is very little jabber in the team on the field by all of the players. There is no such thing as team spirit and the boys from La Verne capitalized on a Poly fumble which netted them six points. They also made good on their conversion and led at the beginning of the fourth quarter by 7 to 0.

Mustangs Take LaVerne In Close Game

BETWEEN THE BANKS

By Pereira

Washington will skin the California Bears.

Stanford will wallop San Jose State.

College of the Pacific will teach Loyola a few tricks.

Gonzaga will trample Montana.

Chico State over the Sacramento A.C.

Santa Clara over Michigan State.

Washington will skin the California Bears.

From the spectators' standpoint the game itself was a thriller with La Verne showing undying enthusiasm.

BAREFOOT KICKER BOOTS 39 YARD FIELD GOAL

There are not many barefoot kickers around these parts. But there is one and that is Notre Dame's Greg Butch Simas. They are three barefoot men who were disqualified from playing for U.S.C. and U.C.L.A. by a ruling from the office of Edwin Atherton, the Pacific Coast Conference football czar.

Himmelman Is Given Gavel By Ag Students

Yesterday Bill Himmelman, president of the associated students, received a gavel given to him by Herb Fischer on behalf of the agricultural department.

President Bill thanked Herb and said, "I will cherish this gavel as long as I live and will remember the agriculture department for this token.

Do we believe that Bill Ward really does go down just to talk with Betty Mae's mother? 500 Poly students yell No!!

We hear that H. P. is moving out and Harrison Hurd, from the unknown, is taking charge. Wonder what the band thinks about this, Sandy?

Prexy Bill met his dream girl on a blind date at the La Verne game last night.

Dancing Rules

As a long stretch of open country is needed for adjusting the tabs on the plane in addition to the takeoff stretch needed for loading, there will be no interference from obstacles preventing the plane from landing wherever and whenever it might become necessary.

The annual card party sponsored by the members of the California Polytechnic Women's club boosted the college coffers. Thursday, Oct. 17, was attended by nearly 300 players and was one of the most successful functions in the club's career.

As setting for the elaborate affair, the gym took on a festive, Halloween-like appearance, with the walls banked with soi'ghum stalks and lighted pumpkin faces gleaming about the room.

Mrs. C. O. McCorkle was the general chairman. Committee heads assisting her were Mrs. Ted Howe, dent; Mrs. L. C. McFarland, pillars; Mrs. Walter Patchin, floor.

Club News

15 Students Leave Poly Since September

As indicated by office records this week 15 students have checked out of the college.

Eight agriculture and seven industrial students have left Cal Poly, who has "slightly above the number at times last year," stated O. F. Locksinger, acting head of the college. The number leaving is the result of the increasing difficulty in paying club dues Tuesday night by giving a party to the dairy club.

The party was attended by advisors Elmo Bunn, George Drumm, and about 45 dairy club members.

Crops Club Elects New Officers

At a special meeting last Friday, the Cal Poly chapter of the California Young Farmers elected their officers for the year.

Cows Working On Farm Pay Expenses At Poly

Students employed by the general farm have trucked away 320 tons of alfalfa. They have been put to work editing a list of objects removed from the stomach of a cow in the Cal Poly dairy herd Tuesday by Dr. A. M. McCapra, veterinarian on the Cal Poly campus.

The cow was suffering from tracheal gas and was in distress, which is a very common cause of death in cattle, caused by failure of the cow to chew food thoroughly for the first time.

"The operation was a great success," said Reh Lake, "and we are very glad to have the cow back.

"The cow is now doing well and we will continue to feed her."
