AFTERMATH OF THANKSGIVING

As we sit down to our Thanksgiving table to give thanks and praise for the bountiful harvest of our country, we should also give thanks for the many blessings of peace and freedom that we enjoy. It is easy to take these things for granted, but let us not forget the sacrifices of our forefathers who fought and died for our freedom.

Today, we have a choice. We can choose to be grateful and content with what we have, or we can choose to be discontent and always wanting more. Let us choose to be grateful and content, for it is through gratitude that we find true happiness.

WIN ALL AROUND

The football season is winding down, and the Mustangs are still in the hunt for a conference championship. With a win this weekend, they could clinch the title and head into the playoffs with momentum.

What's next for the Mustangs? They'll need to focus on their remaining games and prepare for the playoffs. With a strong finish, they could make a run for the national title.

Harpo's Bizarre

Nobody knows what Harpo is up to these days. He's been quiet for a while, but we all know he's got something up his sleeve. How long will he keep us guessing?

BOOS AND BOUQUETS BY BROOHEY

Vigilant Ears

By Al Smith

It has been said and written that, "Genius is five percent inspiration and ninety-five percent perspiration." This is true, but it is also true that without inspiration, perspiration is meaningless.

The key to success is not just hard work, but also creativity and innovation. Genius is the spark that ignites the fire of innovation, and without it, even the hardest work will not lead to success.

Personnel at Poly

By Walter Dougherty

Thirty-four years ago on January 4, 1906, a small town in Pennsylvania was visited by a giant machine. The name of the machine was the "All-Purpose Wrinkler." Whether or not this story is true, the spirit of innovation lives on at Poly.

JARGON AT SWING WITH TWO

One of the fastest moving shows on stage is that of the "Two Slingers." The band, under the direction of Mr. H. P. Givens, is a popular attraction at Poly. They seem to be a school that has produced some of the finest musicians in the country.

Johnson still picking up momentum with Capt. 'D. Deuel. He was also a guest of Wilfred Zanoli. Coco Joe? It grieves me a great bit of Elmo-izing of late. How steady with three at this date.

Ah, yes, the local lassies will play for December 2, and Dick Charlton and George Ray will be there. I expect to see them in the program at the Crandall Gym.

The offices of the faculty, administration in the state of California, has also been set. The new building will utilize part of the old buildings, and it will be of California Spanish architecture. It will be built out of reinforced concrete, and will be the responsibility of the faculty for the new classes.

The main studies are machine shop, welding, aircraft sheet-metal, and other branches of work. The boys are working in their four hours required work during the period from 8 a.m. to 12 noon. Work for most of these boys is very interesting.
