Horts take trip to southland to inspect nurseries

...the students majoring in Orna-mental Horticulture left on their annual trip to southern California to travel to San Luis Obispo to visit the campus at Cal Poly. The students will visit the campus of the southern part of the state.

Stanley Kessey, instructor of Orna-mental Horticulture at the San Luis Obispo campus, R. G. B. Hewns, department head of the school, gave the commercial floral students a picture of the places they will visit and the educational value for the students.

STAY AT DINAS

The students stayed at the col- ders on the San Dimas campus; the camera club has 1500 pictures.

With a battery of fifteen cam-eras from Speed Graphics to Brownies, the camera club has bagged approximately 1500 pictures this year.

Once again the members of the California State Polytechnic Men's Club planned some outdoor activities after completing a successful tour of the ranches and fields.

Another activity of the Students' Association will be the inspection of nurseries.

Musician and Composer - Duve Ellington

Quinabelle at Swackenback Manor

One of the most proficient, as well as the most talented music masters of our times, Duve Ellington is a past master at intricate blues and...ene melodies and unusual melodic arrangement.

Listen, for instance, to his arrangements of the composition, "Swackenback Manor." You'll be impressed with his ultra modern harmonic theories, his use of clashing chords that somehow, through his genius, come out pleasant and intriguing to the ear. But maybe it's no wonder that this polynean of swing masters is not so well known among the public. He has been too busy making improvements in the field of music.

Quinabelle at Swackenback Manor. It is an adroitly made up comic opera that packs nine musical numbers of 1930's and 1940's into one act. The composer and librettist is Duve Ellington, a man who has been working in the field of music for many years. He is a master at the art of blending different styles of music into a single composition.

Quinabelle at Swackenback Manor was produced as a student project in the music department of the college. The production was directed by Duve Ellington, who is also a professor in the music department.

The story of Quinabelle at Swackenback Manor is set in a small town in the 1930's. The main characters are Quinabelle, a young woman, and her friend Judo, a young man. They are both involved in a love triangle with a wealthy businessman who has just moved to the town. The businessman is interested in Quinabelle, but Judo is determined to win her heart. Quinabelle, on the other hand, is torn between her love for Judo and her attraction to the businessman.

As the story unfolds, we see Quinabelle and Judo become involved in a series of comical misunderstandings and adventures. They are joined by several other characters, including a hilarious old bachelor, a naive young woman, and a mysterious old woman who seems to know more than she lets on.

The production was a huge success, and it quickly became a favorite among the college students. The music was praised for its创新性, and the choreography was lauded for its originality. Quinabelle at Swackenback Manor was performed several times throughout the year, and it continues to be performed by the college today.

Quinabelle at Swackenback Manor is not just a musical. It is a story of love, adventure, and humor, told through music and dance. It is a testament to the creativity of the students who put it together, and it is a reminder of the power of music to bring people together.

The success of Quinabelle at Swackenback Manor inspired other students to try their hand at musical theater, and it helped to launch several careers in the entertainment industry. Today, Quinabelle at Swackenback Manor is remembered as a landmark production that helped to shape the future of musical theater at the college and beyond.

And so for now, a twist, a...

doodle-a, doodle-a, a rien voyage, an au revoir, an hasta la vista, a bili-bye, and a good bye all.

“Do you have trouble keeping your upper plate up? Are you fat? Does your fountain pen leak? ... Well, then you need Belch Squelch!”

Dear Mr. Brophy:

We are happy to recall your kind interest last year in the Walter Mack Job Awards for American Youth, and your expressed desire to hear of its further progress.

We are pleased to be able to announce that our next forum speaker is especially well qualified to enlighten us on this topic. We have secured the services of [name] for the Poly forum on Friday, April 18, 1941. Professor Barrows is well acquainted with the Orient. He was appointed city superintendent of schools at Manila, Philippine Islands, in 1900 and was advanced to the position of director of education for the Islands, which position he held until 1909.

At present Dr. Barrows is head of the political science department of the University of California, at Berkeley. He has had a wealth of experience both as an educator and as an army officer. He has many friends in San Luis Obispo because of his having been in command of the National Guard camp there for five years.

Letters to the Editor

We encourage you to send us your thoughtful and articulate musings, but remember to keep them concise and to the point. Your letters can be a voice for your views and concerns. This week, Mr. Brophy expresses his concerns about the Walter Mack Job Awards for American Youth and his desire to hear about its further progress. He also mentions his kind interest in the Poly forum on Friday, April 18, 1941, featuring [name].

Major general to speak at next S.L.O. public forum

All of us are deeply concerned as to what our policy should be regarding the present world situation. We are pleased to be able to announce that our next forum speaker is especially well qualified to enlighten us on this topic. We have secured the services of [name] for the Poly forum on Friday, April 18, 1941. Professor Barrows is well acquainted with the Orient. Hawaiian island boys featured on Johnny program

Name of California Polytechnic College has surfaced for the first time in the United States. The school is being mentioned in the Los Angeles Times and has brought many students to Cal Poly. The school was the first choice for many students who were interested in agriculture and engineering.

AWARD NEWS

Bernard Flowers, who is now employed as management assistant at the California Polytechnic College, has been awarded the title of "Alumnus of the Year." The award was presented to him by the Alumni Association.

Rudolf Dumont, who has been employed by the P & G Company, was one of the recipients of the award. The award was presented to him by the President of the Alumni Association.

The California Polytechnic College Alumni Association has announced that the annual meeting of the association will be held on the campus on Friday, April 18, 1941.

Suffolk ram is donated to Poly by Camarillo breeder

Carleton F. Brooks at Carmel Valley donated two Suffolk rams to the California Polytechnic College. The rams are two of the best that have been used in the state. They have been used for several years and have given excellent results.

The rams will be used for breeding purposes and will be housed in the college's livestock barns.

MEAT ANIMALITICS

The California Polytechnic College Alumni Association has announced that the annual meeting of the association will be held on the campus on Friday, April 18, 1941.

The association has made several arrangements for the meeting, including the following:

1. The California Polytechnic College Alumni Association has announced that the annual meeting of the association will be held on the campus on Friday, April 18, 1941.

2. The meeting will be held in the college's main building.

3. There will be a panel discussion on the future of agriculture in California.

4. The meeting will be open to the public.

ALUMNI NEWS
